SIXTEENTH YEAR, NO. 235.

FRIDAY, JUNE 30, 1916.

IS BRAKE

Trading

NEW YORK, June 30 .- The New York Evening Sun financial review today said:

While the Mexican situation has note asking his intentions regarding the punitive expedition, injected an ed as a restraining influence in today's stock market. And in addition tomorrow's short session, immediately preceding the Sunday intermission and Tuesday's holiday, was calculated to accentuate the conservatism of the speculative ele-

ment.

In consequence the market was extremely dull, though prices, despite some irregularity, were fairly well maintained. This was particularly true of the standard railway issues, which improved moderately under the leadership of Union Pacific and Reading, which advanced a point or more in the early trading. But there was no mistaking the highly professional character of the dealings.

Every prices were variably changed.

In consequence the market was advanced in freight rates. Demand an advance in freight rates. Demand in fair and the foreign markets have a steadier undertone. Winnipper reports well and the foreign markets have a steadier undertone. Winnipper reports well and the foreign market have a steadier undertone. Winnipper reports well and the foreign market have a steadier undertone. Winnipper reports well and the foreign market have

First prices were variably changed with a rather heavy tendency predominating and an attempt was made by the bear element to depress the list. .

Prices moved narrowly in the later trading and speculative conditions were little changed, but the market developed a heavy tendency

BEARS GET EDGE

Grain and Provisions

Detroit, Mich., June 30.—Close:
Wheat was firm at the opening here and in the Chicago market. Liverpool was higher and there was an evident desire to get away from short wheat.

Little trading is expected to be done Friday or Saturday. With a short session Saturday and nothing more doing until Wednesday dealers are not inclined to take on new responsibilities in a market that may change several cents before giving an investor a chance to save himself. Shorts are doing a lot, of covering and July longs are evening up their deals. There is a general "Safety first" movement. Old deals are being closed and no new ones opened. In Chicago in the past two days hedges have been removed from over two million bushels of wheat because of sales of Manitoba wheat and this has taken a large surplus off the market.

Liverpool is firm because of a bettor Savings. market.

Liverpool is firm because of a stronger feeling in Manitoba, pros-pects of smaller world's exports and an advance in freight rates. Demand

Financial Notes

For year ending July 31, the Ford Motor Co. production will run well over 500,000.

The Detroit United Railways has declared regular quarterly dividend of 14% payable Sept. 1 to stock record Aug. 16.

Expansion of inquiries from do-mestic consumers has caused a bet-ter sentiment in copper trade and market conditions continue steady with quotations of the producers un-changed.

The annual report of the American Car and Foundry showing the 2% dividend was barely earned was a disappointment to Wall-st. The period covered was the most proserous in the history of the country for industrial companies and a much better showing was looked for.
