## WASHINGTON LETTER.

From the Union's Special Correspondent.

WASHINGTON, D. C., June 11.—It will not be long now before the people of Minnesota will be called upon to choose between the parties. It will be the same old fight between the Republicans and Democrats. The Populists will cast some votes, but an intelligent people are not going to trust themselves in the hands of these visionary, if not demagogic people. Let us give some reasons, based upon the facts of the tariff bill under consideration why the Republicans should be returned to power.

The Democratic tariff bill takes \$38,000,000 off luxuries and places \$50,000,000 on one necessity, sugar.

The date when the sugar schedule goes into effect, Jan. 1, 1895, gives the sugar trust \$30,000,000 by allowing it to get raw sugar free of duty now, and making on the increased price after the tariff goes into effect. By extending the bounty until the same date the southern planters will receive two cents a pound for all sugar produced and holding it until after the tariff goes into effect will get the additional raise of one and one-half cents per pound. This is another gift of \$20,000,000 to the sugar planters, making \$50,000,000 that should be saved to the treasury.

The cotton schedule gives nearly 50 per cent protection to the cotton manufacturers, which the man who buys cotton cloths or clothes of any kind will have to pay. This includes sheets, jeans, and the duck of the overalls which many farmers and workmen buy. There are great cotton concerns in Gorman's State.

Meanwhile the tariff is taken off or greatly reduced on every agricultural product, including wool, grain and live stock.

Canada is freely invited into our market with all her products for which we made southern and European countries pay, by giving us a market under the reciprocity agreements. This was very ably shown in Senator Washburn's speech.

Against each and all of these things the Minnesota Republican delegation in congress voted and protested, and for this reason they should all be returned to congress.

Senator Davis is recognized as one of the great and scholarly men of the senate. He believes the tariff bill which must pass should be got out of the way as soon as possible. For this reason he has not delayed it by any long speeches, but he has voted right every time. Senator Davis is a credit to the State.

Good work and good records deserve reward. I have always been of the opinion that men to be successful must be retained in congress. Tawney, McCleary, Kiefer and Fletcher have been on the ground attending to business, never overlooking a point for the State. They should be renominated and will be.

When they come back next time they will get better committee places. Fletcher is now quite well fixed, but Tawney, McCleary and Kiefer will get places their abilities entitle them to. As the Republi-

cans will no doubt carry the next house, the Minnesota men will, among so many new members, be considered experienced.

ARTHUR W. DUNN.

**A Biblical Fable Exploded.**  
George Claggett stood in the doorway of the Leader office the other day and handing us a branch of box elder called our attention to the shining sticky substance that had oozed out of the leaves. "That" said the theologian "is honey dew, as sweet as honey and plentiful almost as the dew of heaven. It is nothing more or less than manna—the same that furnished food for the children of Israel during their long and perilous wanderings in the wilderness. They, in their simple ignorance, supposed it to fall from heaven but, as a matter of fact, it gathered each day upon the leaves of the mammoth trees of that region and in such quantity that it hardened into a sugary substance and fell to the ground where they found it each day, in great abundance. It is exceedingly sweet and nutritious and I find that the bees up at my house are industriously gathering it for their winter stores, and— but we escaped by the back window and heard no more."  
—Montevideo Leader.

### Good Advice.

A friend was complaining bitterly to the growler the other day, because certain things had been said of him. Well, now our method is to pay no attention to slanders and gossip mongers. Keep straight on your course, and let their back-biting die the death of neglect. What is the use of lying awake at night brooding over the remark of some false friend, that runs through your brain like lightning? What is the use of getting into a worry and fret over gossip that has been set afloat to your disadvantage by some meddlesome body who has more time than character? Those things cannot injure you unless indeed, you take notice of them, and, in combating them, give them standing and character. If what is said of you is true set yourself right, if it is false let it go for what it will fetch. If a bee stings you, would you, go to the hive to destroy it. It is wisdom to say little concerning the injuries you receive. We are generally losers in the end if we stop to refute all the backbiting and gossiping that we may hear by the way. They are annoying it is true, but not dangerous; for we never yet met one of these scavengers but what sooner or later were worse off for their talk than you were.—Sank Rapids Sentinel.

### Lee May Fool 'Em.

We notice that a few papers have claimed that the appointment of W. E. Lee as superintendent of the reformatory was a scheme put up by Governor Nelson. The fact is the governor did not know a word of the matter till he saw it in the papers. Brother Pease seems to think there is a scheme of some kind behind it all, as he can't see why Mr. Lee, with such bright political prospects before him, should accept such a position. There is no scheme at the bottom of it, but it was a plain business transaction on the part of Mr. Lee. Those who think he is going entirely out of politics may awaken some day and find they have been mistaken.—Todd County Argus.

G. F. Sylvester took a trip to Alexandria Wednesday.

A. T. Tufty is spending the week up the road toward Duluth.

Mrs. Grant McClure has returned from a visit to her father in Wisconsin.

The hospital is being improved by a porch, and the barn by a good sized addition.

Josiah Wilbur has moved down from the lake and will make his home in Milaca.

D. L. Kerrick is a rattling salesman. He has made the lumber yard look quite vacant and would have it all sold had the road been in condition to ship all the spring.

The Mille Lacs Lumber Co. are putting in a temporary dam across Rum River so they can repair the old one preparatory to starting up the mill to saw out their oak logs.

Mrs. Charles Livens, of Foreston, who had Dr. Cook amputate a breast for cancer last week is still at the hospital but is very much improved. It is hoped by her many friends that she will make a permanent recovery. She had a cancer removed from her face fifteen years ago and had escaped a return until about a year ago.

## MILLE LACS LAKE RIPPLES.

ISLE HARBOR, June 11, 1894.

Early vegetables have begun to feel the effects of the continued dry weather.

The passenger boat "Gracie D." is making regular trips from Lawrence to Garrison Mondays, via Cove and Vineland.

Jack Burton has almost completed what will be the finest sloop rigged yacht on the lake. He will have it ready to enter in the races the 4th. Success to you, Jack.

Sheriff Howard, accompanied by Len Pratt and Ed Neely, made a trip across the lake in the schooner Petrel after the Chippewas who had been molesting Olof Johnson.

There is quite an influx of tourists to the lake this summer to enjoy the refreshing breezes and loiter along the cool shady shores with fishing tackle and the latest novel.

The dance at Jack Ash's proved to be an enjoyable affair. Several young ladies from Mora were present. Strangers are always heartily welcomed at the lake, ladies especially.

Hurrah for the glorious Fourth of July. Come up from your hot sand heaps and drink a toast with us and take in the steamer and sail boat races that will occur off Isle Harbor on that day.

Mille Lacs lake's boom has commenced in earnest. Among the daily arrivals are quite a sprinkling of real estate men from St. Paul, St. Louis and other southern points. Several locations have already changed hands. The boom is a little premature for in most cases the settlers cannot sell yet.
