Andrews went to Milaca to-day, and will return for the trial Saturday.

Last Saturday afternoon Wm. Parker, a prosperous and well-to-do farmer living near Tiffany, N. D., was operated on at the Northwestern hospital by Dr. Cooney for a very acute case of appendicitis. Mr. Parker was on his way to the twin cities on business and became so ill that he was obliged to leave the train at Elk River and seek medical assistance. He called on Dr. Whittemore who discovered that the man was suffering from appendicitis and he advised him to come here for an operation, which was performed in the presence of Drs. Whittemore, Tarbox and Caley. The case had bad symptoms from the start and after the operation the patient did not seem to rally as the doctors wished, but yesterday there was a change for the better and the chances are that the man will come out all right.

Last Friday night fire broke out in the Princeton hotel and for a time it looked as if the hotel would be badly burned. The fire was discovered about nine o'clock between the kitchen ceiling and the floor overhead, having originated from the chimney. The department was called out, but before it arrived the timbers had been removed and the fire placed under control. The flames had found their way into the walls of the room and were just getting a good start when put out. The damage amounted to about \$200, covered by insurance.

The UNION man took a peep into the creamery last week and found the superintendent, John Boman, busy cleaning up after his morning's work. He is at present shipping eight cans of cream every day to Duluth. There are about 75 farmers hauling milk to the creamery. During the heavy months of June and July the patrons numbered 119, and it kept Mr. Boman on the jump to take care of them. He is now receiving milk on Mondays, Wednesdays, Fridays and Saturdays.
