W. L. Hatch has sold his residence property in this village to L. E. Fox for a cash consideration of \$2,400. The property is well worth the money. Mr. Hatch contemplates building another residence during the year and he knows just how to put up a good one.

Immediately the mercury ascended to the zero point Neighbor Ewing discarded his coat and proceeded up town in his shirt sleeves despite the fact that a cutting wind was largely in evidence. One man remarked to another as Guy passed the postoffice, "Begad, there goes a human furnace."

TWENTY-FIVE YEARS AGO

The Palace rink is the favorite resort on Saturday evenings. There seems to be a revival of interest in roller skating.

Miss Belle Severance and Miss Em. Smith of Spencer Brook, Miss Hattie Franklin and Miss Alice Swanbro of Wyandott, and several others from outside towns, are attending the graded school in this village.

Spencer Brook Correspondence.—A party of young people went over to Cambridge on Friday to attend a party and were the guests of G. W. Nesbitt and his pleasant family, so of course they had a jolly time.

Owing to the severe storm last Thursday the farmers' institute, held at Jesmer's hall, was slimly attended. Had the conductors of the institute remained over Friday, as advertised, they would have had a good audience.

Bridgman Correspondence.—M. S. Cone has opened a flour and feed store in the Jerrard building, near Jesmer's, and he has put prices down to a reasonable limit. Heretofore flour and feed have been too high here.

The remains of Mrs. Ada Cleary, nee Gile, were brought from Anoka on Friday and the funeral took place from the residence of Dr. E. C. Gile on Saturday afternoon. Brief services were conducted by Rev. Bouck and the remains were interred in the village cemetery.

Last Thursday and Sunday were two of the nastiest days of the winter so far. Sunday especially was a disagreeable day—it snowed and blowed from early dawn till after midnight. The wagon roads were badly blockaded on Monday morning and the traveling is nothing extra yet. The train from Milaca on Monday was several hours late.

It costs very little to manufacture two or three snow plows. At a trifling expense every foot of road within three or four miles of Princeton could be rendered passable in less than five hours after a storm; yes, and in less than half that time a path wide enough for pedestrians and teams to travel could be cut through every street in the village. The roads should be kept open in the winter as well as in the summer.
