Range, on Washita river, Indian Territory.

CHAS. RIDER,

Anadarko, Ind. Ter. Mark—Cren and Three Spine in Right Ear.

CHEYENNE SCHOOL LOCALS.

Hay is being made. O. P. Morton is herding ponies. Joseph Hubbell is clerking in the new store.

Miss A. C. Hamilton, after a week's illness, is again at her post.

Miss Amelia Kable brought a number of games for the children.

Joi Hamilton is sick. Thomas Bear-Robe is herding in his place.

Kish Hawkins arrived safely at Ft. Wayne, and is happy in his new home.

Messrs. Worrell and Campbell may be found on the third floor, room No. 9.

We are under many obligations to our friend Rev. Miller for a musical triangle.

Chester Arthur and Alfred Brown are making pants for the Arapahoe boys, at their school.

Supt. Hadley made a flying trip to Arkansas City, hence school did not open until the evening of the 4th.

We enjoyed a pleasant call on Sunday from Rev. Haury, Mrs. A. M. Haury, Misses Dyck and Latcher and Mr. Peter Krebbel.

Mr. Williams taught the camp class on Sunday. Miss Anna Williams, W. S. Decker and Mr. Merrit visited the different classes.

David Pendleton has been spending a few days at the lower Agency. He addressed the children on Sunday evening in Cheyenne.

Mr. Frank B. Worrell, of Radnor, Pa., the industrial teacher sent to us through the kindness of Rev. W. H. Miller, arrived on the 4th.

Seventy-three children have come in without being called by the Agent. Those in are very happy and looking well. There is much news reported at camp among children.

The Cheyenne workers enjoyed peach eating with Agent Miles' hospitable family. "It is pleasant to be remembered." We hope some day to have a Cheyenne peach orchard.

Mr. Hadley has made several important changes about the house. The boys' play and clothing rooms have been changed to the back part of the building. The former play room is used for a bed room. This keeps the children on the back play ground entirely. The children are signalled and march into and out of the dining hall to the sound of the triangle.

POST GLEANINGS

Lieut. Taylor is acting quartermaster.

Capt. and Mrs. H. Merrill went last week.

Reports say that Capt. Hadley is convalescing, will be back in a few days to his friends.

The Reno team for department shooting went to Lawrenceburg to practice for Grandmire.

The band instruments have been sent to Chicago for repair, and the quietness is perceptible.

Lieut. Heyl arrived last week and took command of his company. His friends were glad to see him back.

Mr. Evans, post trader, is erecting additional buildings to his property. This speaks prosperity in abundance for the Agency.

TEN DOLLARS REWARD.

I will pay the above reward for the recovery and delivery to me of the following described steer, which strayed during August in the vicinity of Fort Reno: A large, blue steer, five years old, branded D on right side and 5 on left hip.

WM. FRASE,

Darlington, I. T.

The Arkansas City Traveler pays Geo. Bent the following complimentary notice: "We had the pleasure of meeting Geo. Bent, one of the most remarkable Indians now living in the Territory. Mr. Bent is son of Col. Bent, who married a Cheyenne woman and for years held Bent's fort, on the Arkansas river, at a time when Kansas as a state was not known. Bent county, Colo., is also named in honor of the old colonel. At the present time Geo. is government interpreter at the Cheyenne Agency, and probably has more influence among his people than has any other man in the tribe. He is a fine specimen of physical manhood, weighing 200 pounds and well proportioned. His complexion is of the swarthy hue peculiar to half-breeds, and with his heavy, jet black hair gives him a striking appearance. He has also been government scout, and did good service. George met at this place several friends who knew him years ago, and one or two who had been with him on many scouts and hunts."

WICHITA AGENCY ITEMS.

BY REV. J. B. WICKS.

Miss Lammond, the teacher, has returned from her visit to Reno and Darlington.

Mr. Reynolds, one of our merchants, has gone east for a visit with family and friends.

The annual prairie fires have appeared. A large tract south of the Agency is black and smoky.

Miss Charlotte Grandy and Miss Lizzie Cade, new employees in the Kiowa school, arrived on the 31st.

Mr. Dudley Brown has his new house nearly completed. It stands on the opposite side of the street from the new store.

The Kiowa & Comanche school opened on the 3rd inst. The children have come in with a good deal of alacrity, so that we now number over fifty.

Standing Bear, on invitation of Inspector Haworth, has gone to Arkansas City to be treated for a disease of the eyes. It is a long journey for the old chief, and we hope it will not prove fruitless.

The "order of the day" has been the weather. The supplement of chills and fever does not increase our idea of the comfort of heat. The two have been hand in hand with the Anadarko people during the past month. A little, a very little, of the discomfort of the fever, then how willingly we take the bitter quinine! Malaria is responsible for your heavy head and aching bones. Quinine is nearer sighted than malaria. It lunts it down. The doctor knows it, and you soon have the proof. Blessings on the man who invented quinine.
