Photographs

A permanent photographer must make permanent photographs to hold his trade. I located in Vinita in 1889 and if any one will find a fadeing photograph I've made since I located in Vinita, return it and it will be replaced with a new one. I make a specialty of best workmanship and permanent results.

FOWLER

Will Meet Us Halfway.

The Vinita Chieftain mentions a new telephone franchise being granted by that town for a city exchange, but we see nothing about the progress of the new toll line that was to be constructed from Vinita to Fairland and Miami. The Seneca city exchange is completed and the Neosho toll line will be ready in a few days. Will Vinita meet us half-way if we start a line west?—Dispatch.

A sigh of relief will go up from the country at large when Muskogee gets her new jail built and quits talking about it. It will be one of the famous resorts of the city, the center of attraction, and a beauty spot indeed.

BASE BALL MATTERS.

Something About the Park and Paying for it.

Work on the new baseball grounds—the north city park—is not to be allowed to flag. The sod has been cut off the diamond and the field cleared of weeds and other debris. The idea—the hope—is to erect a six and a half foot tight board fence 1400 feet in length, which will give plenty of room for the game. The cost is estimated at $235 and if the money was available the work could be done in three days. This makes no provision for seats—a grand stand. It has been suggested that the privilege of erecting a grand stand on the foul line to first base might be let out to an individual, who could charge an additional fee for seats. But the club ought, if possible, to own everything about the place, which would prevent possible friction. The boys have games enough now scheduled, though the dates have not all been fixed, to pay from the admissions, all the expense of the fencing. Unfortunately, this is not tangible enough to satisfy the lumber yard men and laborers. Lucien Buffington started out to raise a hundred dollars towards the fence and has done so. This leaves $135 yet unprovided and just where it is to come from is not clear. Several persons are in favor of fencing the entire park and planting a lot of shade trees in the part not needed for the ball game. If this is done they promise to contribute liberally to the project. But it's a big undertaking and might encounter opposition in some quarters, in advance of the action by a coterie of gentlemen who spend their summers in St. Paul and are known as the circuit court of appeals.

The series of games at present in sight are with Seneca, Caribage, Coffeyville, Parson and Oklahoma City. The two latter have salaried teams.

Heretofore our boys have labored under a financial disadvantage that is in a measure to be overcome. It has been necessary to secure a battery from elsewhere, the pay and traveling expenses of which have been a considerable burden. It is learned that one of the Hunolis pitched eighty odd games for the Des Moines league club last year, and did it successfully, and he is coming in to pitch for the boys. Back of the bat Charley Parks is showing a great deal of aptitude and the boys consider him equal to the demands.

A good many schemes are suggested for raising money to pay for fencing the park. It has been suggested that a small admission fee could be collected most any day in the week to see a practice game, say from five to seven o'clock—and a practice game would be no bad thing, occasionally. Another financier suggested that the boys form a combine with the city mayor; the former to watch the crossing for bums and the latter to give them ten days apiece under the vagrant ordinance and loan their labor to the club. John Thomason spoke for the job of guarding the aforesaid, to be arrested bums, having previously promised thirty days' work. As "Dock" Bridgman has a standing application in for all the garding (not gardening) to be done, Thomason's application was turned down, promptly. Another offer was to form a company with Boog Little as president, Dr. Bagby vice president, L. F. Parker, secretary, Ed Halsell, L. W. Buffington, Dr. Frayser, Jim Hall, W. M. Mellette, W. E. Halsell, Dr. Day, Geo. Nidiffer and a lot more of the sporty capitalists of the, town directors. If this plan is adopted the players would be relieved of their financial troubles at once; they could let their official board pay the bills—and they would do it, too.

Street Scene in Muskogee.

A young countryman entered a Main street resort yesterday and proceeded to beard the lion in his lair. He piked along until he had lost three or four dollars on the rolling of the bones, and then threw a wad of bank bills down on the layout with the declaration that he would shoot the whole amount. The next throw of the dice capricious fortune smiled at last upon the young fellow and he won. The presiding genius set up a howl when he learned the roll bet contained $70, and he refused to pay the bank's losses, claiming that $10 was the limit. The winner insisted upon full payment, and declared that if it was not forthcoming there'd "shore be trouble." The obdurate dealer finally yielded, but not until the winner had started off muttering dire threats against the house, and payment was made on the street in the presence of a large crowd that had been attracted by the contention.—Muskogee Times.

WORRYING THE HAY MEN.

Revenue Collectors Have Them at Disadvantage.

The efforts of the representatives of the interior department in this territory to collect the revenues due the nation under tribal laws are causing no end of disturbance especially among the hay shippers. The merchants and others are refusing to pay and at present there don't seem to be any way of compelling them, but the hay men are not so fortunate; the railroad companies have been warned by the Indian agent to receive no cars loaded with hay for shipment without the shippers produce a receipt from the agent or some duly authorized person acting in his stead, showing that 20 cents a ton royalty has been paid. This action on the part of the agent will, it seems, compel the payment of the royalty due the Cherokee nation. The hay men who have large orders for hay, and have the empty cars standing on the sidings at the different stations are in rather an embarrassing attitude as the railroads charge demurrage for every day the cars stand idle.

THE REVENUE INSPECTOR.

He's on the Sunny Side of Easy Street.

F. C. Churchill, revenue inspector, was here Thursday, in company with Mr. Rasmus, one of his subordinates. Mr. Churchill is a typical down-east Yankee, from New Hampshire. He is director in a bank or two, and a man who seems to be getting as much happiness out of life as his surroundings permit.

ANOTHER HOUSE IN PROSPECT.

Judge Clark Looking Over Some of the New Residences.

Judge and Mrs. Clark were up from Adair a few days since. They want to get a force of men at work remodeling the house as soon as possible in order to have it ready for their return to the city the latter part of next month. If someone would carry their present house out of town some night it is not believed the judge would offer a very large reward for its return. The house is a good one and a very large one, but to remodel is a good deal like building anew.

ONE OF OUR STAND-BYS.

The Daily Chieftain is All Right at Chelsea.

Fair McSpadden, of Chelsea, spent a few days in the city to obtain surgical treatment for a slight affection of the nose. He called this morning to renew for his Daily Chieftain to the end of the year, and to say that he especially liked the paper because of its persistent warfare on the "joint" keepers. His town, he said, had been annoyed a great deal by the vicious element, but conditions were much improved now. The good opinion of one such man as Mr. McSpadden, who is not afraid to express it, is worth more than that of a hundred of those who are, "I'm with you, but you know how it is—I can't afford to say so," fellows.

THE KLONDIKERS.

Good Turn-in Promised and Promoters Smiling.

A note from the "syndicate's" representatives at Joplin, written recently said they were getting along first rate with their mine and made a good turn-in last week. This will be cheering intelligence to the promoters, though they are not looking for anything different. A few days ago a profit of 300 per cent was offered one of the parties on his holdings and declined—"with scorn," as the books have it. Nothing short of ten times the original cost could be thought of.

Fabulous stories are told of what is being done. Upwards of a ton of mineral (worth $44) per day is being taken out and under unfavorable circumstances, as there is room for but few men to work. But this will never satisfy the stockholders very long. Greater latitude must be secured somehow—they must have room according to their strength—for several of the stay-at-homes have gotten along without diamond shirt studs about as long as they can stand it. They are needing them every day and that mine must be worked to its full capacity without delay.

Meantime, the fellows who kept or were left out of pool number one, are looking with green-eyed envy at the ins, and if a smooth-tongued mining man should happen along about now he could "do up" the boys, "good and plenty."

The Sisters of Saint Francis, Clinton, Iowa, write under the date of January 21, 1898: About six months ago a very reverend clergyman recommended Regan's Rheumatism Remedy to us as one of our sisters was a severe sufferer from rheumatism. After she had used one bottle she was entirely cured. For sale by P. Shanahan, $1 per bottle.

The Depot Project.

The Frisco, which has a built-over and compartively new depot, don't care to help build a union depot for the Katy's benefit, the latter being somewhat in need of a new structure. The railroads are not in the habit of doing much for a competitive line—if they know it.

What among human ills are more annoying than piles? The afflictions that prevent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. Tabler's Buckeye Pile Ointment will cure the most obstinate cases. Price 50c, in bottle, tubes 75c. People's drug store.

Telephone Concert.

A novel entertainment was provided a few nights since by Preston Davis—a telephone serenade or concert. Through the kindness of the central office a number of residence telephones were connected and the guests entertained with instrumental music. It was very distinct and heartily enjoyed.

Better than Klondike returns. Mr. Floyd E. Wolf, Shippensburg, Chamberland Co., Pa., writes under date of August 9th, 1898: After taking one and a half bottles of Regan's Rheumatism Remedy, I am a well man; I doctored with five of the best doctors in this county, and was in the Pennsylvania Hospital, at Harrisburg for six months, and got relief, but was taken with rheumatism on my return home. For sale by P. Shanahan, $1 per bottle.
