

TORTURING PAIN.

Half This Man's Sufferings Would Have Killed Many a Person, but Doan's Cured Him.

A. C. Sprague, stock dealer, of Normal, Ill., writes: "For two whole years I was doing nothing but buying medicines to cure my kidneys. I do not think that any man ever suffered as I did and lived. The pain in my back was so bad that I could not sleep at night. I could not ride a horse and sometimes was unable even to ride in a car. My condition was critical when I sent for Doan's Kidney Pills. I used three boxes and they cured me. Now I can go anywhere and do as much as anybody. I sleep well and feel no discomfort at all."

Now and Then
Some thorough and careful physician invents, in his practice, some special medicine, that proves so universally successful whenever prescribed, that he proceeds to place it before the public to be reached through the newspapers. This is the history of Dr. Caldwell's (laxative) Syrup Pepsin. For years, prescribed by Dr. W. B. Caldwell for constipation, and all disorders of liver, stomach, and bowels, it was at last manufactured on a large scale, and is now the most successful medicine in the world for these diseases. A pure, scientific tonic, laxative syrup; pleasant to take and perfect in results. Try it. Sold by all druggists at 50c and \$1.00. Money back if it fails.

THE USES OF URALITE.

Incombustible and Can Be Worked With Like Wood.

Have you ever heard of uralite? Probably not, for it is a new invention. Yet it is well worthy of your notice, since it is superior to anything of the kind that has yet been produced. It is the invention of a Russian artillery officer and chemist, named Imschenetzky, and its claim to distinction lies in the fact that it is absolutely fireproof.

Uralite is composed of asbestos fiber, with a proper proportion of silicate, bicarbonate of soda and chalk, and it is supplied in various finishes and colors, according to the purpose for which it is intended. In a soft form a sheet of uralite is like an asbestos board; when hard it resembles finely sawn stone and has a metallic ring. Besides being a nonconductor of heat and electricity, it is practically water proof (and may be made entirely so by paint), and it is not affected either by atmospheric influences or by the acids contained in smoke in large towns, which rapidly destroy galvanized iron.

Moreover, it can be cut by the usual carpenters' or woodworkers' tools; it can be veneered to form paneling for walls or partitions; it can be painted, grained, polished and glued together like wood; it does not split when a nail is driven through it; it is not affected when exposed to moisture or great changes of temperature, and it can be given any desired color either during the process of manufacture or afterward.—Hygienic Magazine.

A Prodigal's Return.

Dramatic scenes continue to be witnessed as the result of the religious revivals in Wales. In a Glamorgan-shire town, says the London Chronicle, the pastor, in the course of an impressive address, appealed to all backsliders to return to the fold.

Sitting quietly in the gallery was a young man. Moved by the stirring appeal, he sprang to his feet and begged to be readmitted to the membership of the church. All eyes were turned to the suppliant, and the effect was startling when it was seen that the young man was the minister's own son.

Overpowered by his feelings, the father was unable to say a word, and he broke down with emotion. The organist struck up a well-known hymn, at the conclusion of which the minister, having mastered his feelings, welcomed his son's conversion with tears of joy.

Do We Forget?
Do we forget when winter snows lie deep
Above the beds where our beloved sleep
And we no longer wildly weep—
Do we forget?

Because, when comes the holy Christmas tide,
And love and joy are scattered wide,
We check our sighs, and strive our tears to hide,
Do we forget?

Do we forget, because with mute lips pressed
To fading pictures, all our love, unguessed,
Lies locked secure within our patient breast—
Do we forget?

Because, across the widening gulf of years,
There comes no loving word to quell our fears,
No watchful hand to brush away our tears—
Do we forget?

Do we forget? Nay, in each heart there lies
A secret place, where, hid from mortal eyes,
Dwells, strong and true, a love that never dies,
Nor can forget!
—S. O. H. Dickson in the Pilgrim.

All or Nothing.

This is a story from Cumberland island:

A teacher was bathing in the surf, and a dozen or more of his youthful scholars were looking on, when one of them exclaimed:

"How I wish he would drown!"

"I don't," said another. "I want a shark to eat him."

"Better ask for a whale," said the smallest of the crowd. "It kin swallow him whole!"—Atlanta Constitution

Health of American Women

A Subject Much Discussed at Women's Clubs—The Future of a Country Depends on the Health of Its Women.

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, backaches, nervousness, that bearing-down feeling, painful or irregular menstruation, leucorrhoea, displacement of the uterus, ovarian trouble, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound has restored more American women to health than all other remedies in the world. It regulates, strengthens and cures diseases of the female organism as nothing else can. For thirty years it has been curing the worst forms of female complaints.

Such testimony as the following should be convincing.

Mrs. T. C. Willadsen, of Manning, Ia., writes:

Dear Mrs. Pinkham:—"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent lots of money in doctoring without any benefit for menstrual irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had it not been for you I would have been in my grave to-day."

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Miss Mattie Henry, Vice-President of Danville Art Club, 429 Green St., Danville, Va., writes:

Dear Mrs. Pinkham:—"Many years' suffering with female weakness, inflammation and a broken down system made me more anxious to die than to live, but Lydia E. Pinkham's Vegetable Compound has restored my health and I am so grateful for it that I want every suffering woman to know what Lydia E. Pinkham's Vegetable Compound will do for her."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. No other medicine in the world has received such unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine, for you need the best.

A light heart, a cheerful countenance, and all the charms of grace and beauty are dependent upon proper action of the bodily organs. You cannot look well unless you feel well.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.
