JUST DOUBLE

320 ACRES INSTEAD
OF 160 ACRES

As further inducement
to settlement of the
wheat-raising lands of
Western Canada, the
Canadian Government
has increased the area
that may be taken by a
homesteader to 320 acres—160 free and 160 to
be purchased at \$3.00 per acre. These lands
are in the grain-raising area, where mixed farming
is also carried on with unqualified success. A
railway will shortly be built to Hudson Bay, bring-
ing the world's markets a thousand miles nearer
these wheat-fields, where schools and churches
are convenient, climate excellent, railways close to
all settlements, and local markets good.

"It would take time to assimilate the revela-
tions that a visit to the great empire lying to
the North of us unfolded at every turn."
—Correspondence of a National Editor, who visited
Western Canada in August, 1908.

Lands may also be purchased from railway and
land companies at low prices and on easy terms.

For pamphlets, maps and information as to
low railway rates, apply to Superintendent
of Immigration, Ottawa, Canada, or the
authorized Canadian Government Agent.
