Even those who are in the enjoyment of perfect health frequently have need to have recourse to tonics as preventives of disease. We are never so well armed against "the ills that flesh is heir to," such as an invigorator they may find in Dr. J. Hostetter's Bitters—a medicine that cannot be taken regularly without giving vitality and elasticity to the system. At this season particularly the strongest man is not proof against the malaria in certain sections of the country. In all cases of fever and ague the Bitters is more potent than any amount of quinine, while the most dangerous cases of bilious fever yield to its wonderful properties. Those who have tried the medicine will never use any other, for any of the ailments which the Hostetter Bitters professes to subdue. To those who have not made the experiment, we cordially recommend an early application of Hostetter's Bitters, whenever they are stricken by disease of the digestive organs.

For sale by Druggists and dealers generally, everywhere.

Richardson's New Method for the Piano Forte.
MR. NATHAN RICHARDSON is known as the author of the "Modern School," which was without an equal or superior until he undertook, conscientiously, to revise it and correct the faults which his own criticism, and that of others, had detected. In the present volume we have the perfected work, and we have no hesitation in recommending it as the soundest, the clearest, and altogether the most correct for teaching the Piano that has ever appeared.—[Phila.
