## Ague Cure

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Headache, and Bilious Pevers, indeed for the whole class of diseases originating in biliary department, caused by the Malaria of minumatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and asie cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this beleful distemper. This "Cure" expels the miasmatic poison of Frank AND Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitary symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Preven AND AGUE prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral consequently it produces no quintum or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and the disease.

Fever and the consequence of the minimistic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Kamehe, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterica, Pain in the Bowels, Colie, Paralysis, and Derangement of the Stomach, all of which, when originating this cause, put on the intermittent type, or become periodical. This "Curas" argels the poison from the blood, and consequently owns them allelike. It is an invaluable pastection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will themselves of the partection this remedy affords.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC

FOR ALL THE PURPOSES OF A FAMILY PHYSIS, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is assenished to find his health or energy restored by a remady at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pasn in and Morbid-Inaction of the Bowels, Flatulency, Loss of Appartice, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction arising from a low state of the body or obstruction of its functions.
