Laboring men, now we put it to your own consciences to answe: how much better it would have been for you, and all, if you had voted for Stephen A. Douglas instead of Abraham Lincoln for President?-[Clagett's Constitution.

Why, to be sure, for in that case w should now have Herschell Vestuvius Johnson, an arrant traitor, for President: and it is notorious that Vallandigham and all his stripe would to-day prefer Jeff. Davis or any of his myrmidens for Presi dent, rather than our patriotic and hones hearted Chief Magistrate, who has thwarted their pefarious plot to destroy our liberties.

Adjutant S. Guthrie, of the 17th Iows also came up yesterday on the packet, and goes to Ft. Madison this morning .-His numerous friends will regret to learn that he was accidentally shot and disabled for a few weeks. The accident occurred on Monday, the 12th, at or near the bradquarters of Acting Brigadier Goneral Perezel, whose Adjutant, Delahoyd, in handling a pistol accidentally discharged the ball through Adjutant Guthrie's right leg, just above the knee. As it is next to impossible for a sick or wounded man to get such attention in camp as he abso lutely requires, Adjutant Guthrie wisely concluded to come home.

Downey who was cent after the bushwhackers with a guard of men reports to-day that he got on the trail of the party, overtook them and killed their Captain and three men wounded and took 12 prisoners. SENATE.—Harris and King presented petitions from merchants of New York for a general bankrupt act.

Mr. Wade presented petitions for an efficient confiscation act.

Mr. Sumner gave notice that he should

to-morrow call up the resolution for the expulsion of the Senator from Oregon,

Mr. McDougal moved to take up the Corner of Johnston and Ninth Streets, Pacific Railroad bill. The Pacific Railroad bill was taken up

by yeas 23, nays 16, but before the reading was finished the morning hour expired and the confiscation bill was taken up.— Mr. Davis, of Ky., proceeded to speak at

It declares the bridge partly constructed across the Ohio river at Steubenville, Ohio, abutting on the Virginia shore, to be a lawful structure, a public highway, and establishes a post route for the purpose of transmitting the mails, and that the Steubenville and lu-diana Railroad Co. and the Holliday Cave Railroad Co., either of them, are authorized to have, maintain and operate said worthy pair of rebels, are traversing the State as emissaries of Jeff. The Army Appropriation Bill.

The Army Appropriation Bill that passed the House, last Thursday, appropriated \$421,000,000 for the year ending

Mr. Colfax said that not a single person of any color from any State and ever petitioned for this repeal, no Postmaster General had ever recommended it. public opinion demanded it. It would no published that he was a colored barber who once shaved in their city. He is now among them again, and perhaps he might be induced to take some of them by the now and give them a good lathering with as hearty a will as when he was a younger "shaver" than he is now.—[Louisville Journal.

public opinion demanded it. It would not negroes to be mail contractors, and, therefore, officers of the Government, but Indians and Chinese also. It would impair the securities of the mails, for fa some States blacks, Indians and Chinese are not allowed to testify against whitea, and if while in their bands we could not receive the securities of the mails for fa some States blacks, Indians and Chinese are not allowed to testify against whitea, and if while it is the securities of the mails for fa some states blacks, Indians and Chinese are not allowed to testify against whitea, and if while it is now in the securities of the given and the securities of the given and the securities of the mails, for fa some States blacks, Indians and Chinese also. Mr. Dawes referring to an objection stated by Mr. Colfax, inquired by way of answer, whether the latter supposed mail depredations were tried in State op United States Courts, and whether he him-

Mr. Wickliffe approved the decision of the committee. He had been informed ihat this bill had been introduced into the Senate to remove the disability of distinguished men. If negroes were to be made mail carriers, we had better carry out the whole programme. In addition to making them soldiers and sailors, we had better throw open the doors here and admit them as members of Congress. [Laugh-

Mr. Elliott, Chairman of the Select Committee who reported the confincation bill, said the war originated in the robel States, and is carried on by robel citizens against the Government. This is procisely the character of the war. Appropri-ate legislation may soon be demanded concerning the robel States. These bills concern the property, not the persons of the rebels, and Congress may make the property of the rebels and in paying the expenses incurred in crushing the rebel-lion. The lands owned by rebels are used for carrying on the war, and their unwilling slaves are made to toil, that our government may be overthrown.—
Their lands and slaves are made instruments for carrying on the war; de-prive them of these and the war must come to an end and our immense debt backed of increase. The rebels one 220,-000,000, every dollar of that debt has been confiscated by their government, re-pudiated by rebel debtors to whose honor the constituents of gentlemen trusted; he repeated that as lands and slaves are being used by the traitors as warlike instru-ments they should be conficuted as the pending bills proposed; these were as much enemy's proposed; these were as much enemy's proposed; as if they owed allegisnes to a foreign power.

Mr. Elliott supported his remarks by

legal arguments.
