

PETITION CITY TO VACATE STREET

Citizens Ask Council to Vacate Portion of Street Known as "Kilbourne Place."

WARRANT IS ISSUED

Notice of Municipal Conference to be Held at Iowa City, Received by the City Clerk.

The city council was petitioned yesterday by a number of citizens to vacate a part of the district in Kilbourne place. The petition asked that the part which lies between the north-east line of Exchange street and the north-west line of Twenty-second street in Kilbourne's addition be vacated. The petition was signed by the following property owners: Mrs. J. H. Vanderberg, E. C. Brownlee, B. F. Jones, J. H. King, Dora A. McKee, and Ellen E. Kowalski. The matter was referred to the city attorney who is to investigate the legal aspects of the case and make a report to the council at an early date.

Other petitions were also received, one asking that a sanitary tile sewer be ordered constructed through block 22 in Reeves, Perry, and Williams' addition. This petition was referred to Commissioner Schmidt.

A warrant in favor of the State Central Savings bank amounting to \$316.78 was ordered drawn for the purpose of paying interest on time warrants to Oct. 10, amounting to \$28,995.85.

City Clerk Sandberg today received a communication in which this city

was invited to send delegates to the second annual municipal conference to be held at Iowa City on November 19 and 20 under the auspices of the extension department of service to the commonwealth and to the people of the state university. The subject of water works will be given chief consideration at this meeting. The program has not yet been fully prepared, but will be sent to the city later. The Iowa-Nebraska football game will be held on the day after the convention and is expected to be a big factor in securing a good attendance at the conference.

EVERYBODY BOOST. Boost, and the town boosts with you. Knock, and you knock alone. If you can't speak well of your city, Keep out of the arguing zone.

Why do you stay here in Keokuk? If the town is as dead as you say? Why don't you pack up your baggage And quietly fade away?

The old town never would miss you— It would go ahead just the same, And grow like it's doing daily, And never mention your name.

What make you feel so grouchy? When everyone else is so gay? Isn't it true that you're bilious, Or are you just built that way?

Get in the band wagon, brother. Cut out the whine and the moan: Boost, and the town boosts with you, Knock, and you knock alone. Ben, the Booster.

Wedded Fifty Years. CARHAGE, Ill., Oct. 9.—Today is the golden wedding anniversary of Mr. and Mrs. John S. Shipton and their children and relatives from near and far are here to observe the occasion with suitable ceremony. A large number of invitations have been issued and a six o'clock dinner was given with a reception following.

Buried, but Not Lost. It is a good thing to bury the hatchet, but the trouble with this pastime is that somebody always puts a marker at the place to show where the implement is.—Chester Times.

The NEW "GARLAND"

Burns Both Gas and Coal!

An All-Year-Round Range For Coal or Gas

The most practical and successful two-fuel combination range ever designed

The Resolute - Garland is successful because it operates perfectly with coal or gas, without interchange of numerous parts.

4 Top Coal Cooking Holes

Warm Kitchen In Winter

Both coal and gas can be used simultaneously. The use of one fuel does not interfere with the other—a unique departure that is a decided advantage.

Practically the full capacity of a complete coal and a gas range is afforded in 47 inches width—a most convenient and up-to-date equipment for a large or small kitchen.

A REAL TWO-IN-ONE RANGE. For Coal or Gas, at any Minute

Combination RANGE

One Stove!—Two Fuels

Read These Details

TOP—Four regular top burners for gas, and full-size fire box for coal with four eight-inch covers, afford ample capacity.

4 Regular Gas Burners

Cool Kitchen In Summer

Both gas burners and cooking top for coal can be used simultaneously or separately, as desired. No change of parts. Combination pouch-fed and broiling door for coal.

OVEN—Operates with coal or gas. Eighteen inches square, with Garland "Gooseneck" flues, allowing heat from coal fire to pass unimpeded around the entire oven.

BODY—The heavy cast-iron construction is proof against moisture from gas, and the castings throughout are of the highest grade, insuring durability and long service.

FIRE-BOX—Of ample size, with extension pocket for wood. Duplex grate for coal or wood, with heavy sectional linings.

Skin Like a Lily or a Rose—It Is Easy and Sure—A Few Other Beauty Secrets

Valeska Suratt, Celebrated on the American Stage for Her Self-Made Beauty, Gives Some Extraordinary and Simple Methods of Acquiring Quick Beauty.

BY MISS VALESKA SURATT.

HOW often have we seen women of beautiful features, but with poor complexions attracting far less attention than women of merely ordinary features, but with complexions superb and adorable. Faces clear and pure as lilies are the faces that conquer. There is only a small percentage of women who are really beautiful in features. Providence alone regulates this circumstance. But there are millions of women who little realize the tremendous advantage which can be secured by having a perfect complexion in spite of a lack of beauty of features. The quick changes which are now made possible in skin beauty are really startling, but it is regrettable to note that the means employed to obtain these changes are not only weak, but use-

"It is Now Comparatively Easy to Make the Skin Exquisite in a Very Short Time."

less in most cases. It all depends on what you use. There is a formula which eclipses any preparation known for beautifying the skin. Its results are extraordinary. I advise every woman to stop using all other skin-beautifying creams and use this formula. Simply mix one tablespoonful of glycerine in a pint of water and add one ounce of zintone. This forms a cream, use it liberally and very soon your skin will take on a most decided clearness and purity, and every muddy spot, red spot, freckle and blemish will have disappeared. This formula should mean a fortune to the woman who uses it. The zintone can be secured at any drug store at a moderate price.

MRS. OPIE F.—There is a wrinkle-removing formula which has the peculiar property of making the skin plump and vigorous. This is the only way in which all wrinkles, both little and big, can ever be successfully removed. The youthful appearance produced in a short time by the use of this formula is really startling. Mix this at home by adding to a half pint of hot water two tablespoonfuls of glycerine and two ounces of epotol. This makes half a pint of the cream. It costs several times less than you would have to pay for a cream at the stores, and which would not be successful. Any drug store will supply you with the epotol. By using this cream faithfully, and liberally, you

will have attained in short order your fondest wish for a perfect, quick wrinkle-remover.

ROSA B. O.—The only way to remove dandruff is to dissolve it. Soap cannot do it, simply because of the alkali which it contains. No amount of scalp-rinsing with soap will remove dandruff. The only thing known which will dissolve all fatty accumulations and dandruff is eggol, a teaspoonful of which added to a cup of hot water removes every particle of dandruff and other foreign matter. The latter is exceptionally rich. For a moderate price you can get enough eggol to produce twelve washes. Every head of hair needs a head-wash of this kind.

TEARFUL.—Falling of hair can be positively and quickly stopped by using a mixture of half a pint of alcohol, half a pint of water, (or a full pint of base-rum in place of alcohol and water) and one ounce of betanquinol, thoroughly mixed. This surpasses any hair tonic or invigorator I have ever known. It is a hair force, actually compelling the hair to grow luxuriantly, frequently several inches a month. Hair stops falling, the hair becomes fluffy, silky and thick, and the formation of dandruff is completely stopped.

MRS. G. O. N.—Blackheads are simply a local trouble and blood tonics will do no good. It is not generally known that blackheads may be thoroughly removed in a few minutes by getting a sponge, wetting it with hot water, sprinkling some kerosene on it, and then rubbing it on the blackheads. It is almost magic in result and every blackhead will disappear. Do this every day and you will not be troubled further. It works equally well in very severe cases.

SARAH M. H.—I do not wonder that you did not succeed in removing the superfluous hairs you mention. Why not dissolve them away instead of burning them off? By moistening the hairs with simple sulfo solution, every hair, heavy and light, disappears in a few moments. Instead of leaving a red spot where applied as other depilatories do, the skin, on the contrary, is left soft, smooth and clear. No matter how sensitive the skin or how heavy the growth, it will work without fail.

BEREPT.—To develop the bust has often proved a difficult matter. Although you can never be sure of success, nevertheless the following formula is the very best you can ever hope to find. It is safe and it ever hope to succeed, this certainly should. To a half pint of cold water, add two ounces of rutone, obtainable at any drug store, and half a cup of sugar. Mix thoroughly. Take of this, two teaspoonfuls after meals and at bedtime.

MRS. T. M. P.—Applications of hy-droliized talc to arm-pits will put an end to the unnatural and excessive perspiration. There is nothing so effective, so cooling and so economical. This keeps the arm-pits always fresh, keeps the perspiration under control, prevents embarrassment and the damage to garments from fading. It also destroys all body odors immediately.

A little Paint now and then makes things look new again.
