

CHANCES FOR SUCCESS BRIGHT

(Continued from page 1.)

and of the administrators of public affairs."

As to the final result of the European conflict, Gary declared that although it might appear to be a paradox, the nation that wins will surely lose.

"The enormous cost," he said, "and long continued suffering on the part of the survivors, will not be fully covered by any success or glory or indemnity. Before now, every participant must realize that it would have been better to have settled, if possible for existing differences, real or imaginary and on a basis approved by some competent and impartial tribunal."

Saying he personally favored binding agreements between nations for the settlement of international disputes before an impartial tribunal, stating that "might too often makes right," and expressing the hope that the "wars and rumors of wars shall cease," Gary added:

"All that I have said applies forcibly to our business. We who are here today are engaged in competition; we are naturally selfish; we are often inconsiderate and indifferent."

"It was customary in days gone by to harbor the same feelings and to pursue the same line of conduct in the iron and steel trade that have been exhibited in the European conflict. The graves of concerns destroyed are numerous."

"Today I congratulate you on your success in bringing about a new order of things in business. You have become well acquainted, you have confidence in each other, you recognize the interests of your neighbor; you are glad when he prospers and equally sorry when he fails at success. You have better and clearer understandings of business obligations. You can faithfully represent your stockholders or owners of your properties and indulge in the keenest competition, without doing anything that is destructive and oppressive or unfair."

NORTH TONAWANDA IS IN FLAMES

Fire Started Last Night in Lumber Yards, was Still Burning This Morning.

[United Press Leased Wire Service.] NORTH TONAWANDA, N. Y., Oct. 29.—Fire, thought incendiary, which early today threatened to sweep all before it, despite efforts of North Tonawanda and Niagara Falls fire departments, was still raging in the lumber yards of Brady Brothers at 3 o'clock this morning. Several business plants have been entirely destroyed. The loss so far is estimated between \$350,000 and \$400,000. Ralph Abbott, 35, a spectator at the fire was run down by a switch engine and his left leg cut off. The blaze started in the Brady Bros. lumber yard late last night and spread to the Adamite Abrasive company, two blocks away. Then the situation became so desperate that help was asked from Niagara Falls. From the Adamite plant the fire spread to the big plant of the Buffalo Sled company and the department store of F. S. Paschens, causing heavy loss.

Bryan in Iowa Today.

[United Press Leased Wire Service.] DES MOINES, Iowa, Oct. 29.—After a tour across half of Iowa from North McGregor, where he crossed the line from Wisconsin at 6:30 this morning, Secretary of State W. J. Bryan will reach here tonight to close the state campaign for the democrats and to boost Congressman Maurice Connolly, candidate for United States senator against Albert B. Cummins, and the democratic state ticket.

Bryan made a brief speech at North McGregor and also spoke briefly at Calmar, New Hampton and Osceola, reaching Waterloo at noon. Many

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, and abundant.

YOUR HAIR NEEDS PARISIAN SAGE

It Quickly Removes Dandruff, Stops Falling Hair and Scalp Itch.

If your hair is full of dandruff, thin, streaky, dull and never will do up to look pretty, you can almost immediately remove the cause making it beautiful, thick and fluffy by the use of Parisian Sage, one of the most helpful and invigorating hair and scalp tonics known.

Parisian Sage not only saves your hair but stimulates the hair roots and furnishes the nourishment needed to make it grow long, abundant and radiant with life. Just one application removes every trace of dandruff and stops scalp itch—your hair becomes soft and fluffy with an incomparable gloss, beauty and charm.

You cannot be disappointed with this harmless and delicately perfumed tonic for there is nothing so good for your hair. It is easily applied at home and costs but a trifle from Wilkinson & Co., or any drug counter.

party workers are here to attend the meeting at the Coliseum tonight and 10,000 people are expected to hear the great commoner.

EDISON'S OPINION OF CIVILIZATION

It is Only a Thin Veneer, But We are Slowly Getting a Little Better.

[United Press Leased Wire Service.] DETROIT, Mich., Oct. 29.—"Our present civilization is only a thin veneer. The European war shows that. But we are slowly getting better and materialism is the basis of all our moral and intellectual advancement."

In this brief paragraph Thomas A. Edison, inventor, made public his ideas with regard to war and civilization. Seated before a glowing log fire in the home of Henry Ford, Edison submitted to his first interview since his arrival in Detroit to visit the automobile manufacturer.

Eventually Edison said all countries will be republics. As an after thought he added: "And republics don't care for fighting."

"European democracy must purge itself of parasitic institutions," Edison declared, "before there will be a possibility of world peace. It must get rid of monarchies such as are represented by Germany and Russia. In Germany there are about sixty thousand men who run the country. These are military officers and they represent the social system of the land."

Edison declared that in his opinion the United States should establish a strong coast defense and be prepared for any emergency. Submarines, he said, could be used to great advantage in coast defense work and he urged a strengthening of this branch of our service.

Mr. and Mrs. Edison left Detroit late last night for Cleveland. From there they will motor to their home in East Orange.

FEDERAL CONTROL OF COAL MINES

It is Thought This Question Was Discussed Today by the President.

[United Press Leased Wire Service.] WASHINGTON, Oct. 29.—That President Wilson has inquired of Attorney General Gregory as to the legality of taking over the Colorado mines under federal supervision, was the broad intimation from a high official source today. The president and Gregory conferred at length today. Gregory refused, however, to commit himself of the Colorado question, although he indicated some Colorado questions have been put up to him.

Administration officials were assured today that the coal strike situation is being used as a strong political issue in Colorado.

Republicans are charging that the democratic state government is weak and has turned the state over to federal direction, according to a high official of the administration. President Wilson's plans in the situation were carefully guarded. It is believed, however, that he is awaiting the outcome of the election next week, before taking the next step to mend the difficulty. Official reports today show that reorganization of the state militia is progressing but high authority of the war department intimated that this reconstruction might take months.

In the meantime, it is believed President Wilson will allow the federal troops to remain, as his advisors fear a withdrawal at this time would mean a renewal of bloodshed.

BRITISH SEIZE TWO MORE SHIPS

Italian Vessels Loaded With American Copper Cargoes Were Taken.

[United Press Leased Wire Service.] WASHINGTON, Oct. 29.—The seizure at Gibraltar by British authorities of two Italian vessels, the San Giovanni and the Regina Italia, carrying cargoes of American copper, was reported to the state department today. The report of the seizures was received from four copper companies in New York, shippers of the cargoes held. They requested the state department to make protests to Great Britain against confiscation.

The state department cabled the American consul at Gibraltar for an explanation of the detention of the vessels. In this connection a report was also awaited from the consul regarding the seizure of the Red Star liner Kronland there yesterday. It is probable that representations will be made to Great Britain just as soon as the department obtains full details of the seizures. The San Giovanni and the Regina Italia sailed from New York and were on their way to Italian ports. Although Great Britain has furnished no reason of the detention of these ships, it is assumed at the state department that she suspected that the copper, after it had reached Italian ports would be reexported to Germany and Austria.

Is a Woman's Job.

[United Press Leased Wire Service.] NEW YORK, Oct. 29.—"A woman is worth at least two men when it comes to real effective probation work."

With this phrase, coined by Judge Reynolds, as the slogan, judges, lawyers and eminent criminologists today opened a strenuous fight against the proposal of the budget committee of the city board of city estimates to cut down the number of women probation officers in Brooklyn, Queens and Richmond from eighteen to six.

Presenting a brief favoring women as probation officers, Judge Reynolds declared today "from my experience on the bench I have learned that you cannot win a criminal over to righteousness by the use of a club. Probation is a new science in the world of criminology. It has proved a remarkable success. To the untiring, sympathetic efforts of the women, much of this success is due."

Campaign is Hot.

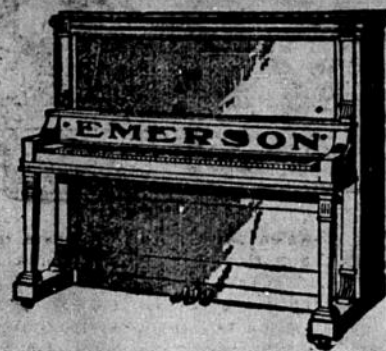

[United Press Leased Wire Service.] CHICAGO, Oct. 29.—The senatorial campaign was being waged furiously in Chicago today. Nine meetings were on the day's program for Roger C. Sullivan, Raymond Robins, progressive, has his cause boosted at eight gatherings and Senator Lawrence Y. Sherman was urged for re-election at seven others. All three candidates were in Chicago.

Wm. F. McCombs, chairman of the democratic national committee, Senator J. Hamilton Lewis and Mayor Harrison are to be star spellbinders at a big Sullivan rally on the north side tonight. At noon today, Senator Miles Pindexter addressed a Robins rally in the Garrick theatre.

Congressman James R. Mann and Senator Sherman are to speak from the same platform tonight.

Yeggs New Stunt.

[United Press Leased Wire Service.] CHICAGO, Oct. 29.—Chicago yeggs pulled a new stunt today that left detectives begging for air. They chugged up to the Deering station of the Chicago, Milwaukee and St. Paul railway, via motor boat, cracked the safe and then escaped down the river, carrying several hundred dollars worth of loot.

Grain Review.

[United Press Leased Wire Service.] CHICAGO, Oct. 29.—After a display of strength that forced prices up ½ cent at the start, wheat was carried down ¾ to ½ below last night's closing prices today. The market was without Liverpool quotations and increasing stocks argued for lower prices.

Corn moved within a narrow range, starting steady and going down a shade to ¼ in the forenoon.

Oats started a shade higher on the strength in wheat and dropped ¾ when wheat declined.

Provisions were without support from the hog market today and declined.
