WINDOM is on the run. He can't catch the Senatorship on the fly. THE "friends of Windom" seem to be a

good deal agitated about Mr. Sabin. Mr. Sabin's health is improving.

THE GLORE had eminent Republican authority for the statements to which two senators took exception in the joint convention. It is painful to have such eminent authority differ.

THE insiders on the Windom campaign apoligize to the insulted office holders by telling them that the grand bounce was really intended to get red of brother-in-la Douglas. They can no longer endure his reraphic smile. ONE of the prominent "friends of Win-

Washington is the largest patron of lotteries of any city in the country, and government clerks are the most conspicuous buyers of tickets. Two more of the Ramsey county delegation-Merriam and Gozian-cut loose from the defunct Windom carcass yesterday. It can be set down as certain that they are not men to be bribed or cajoled into returning to the waning fortunes of the defeated politician.

It is shocking to think that Windom should abandon his public duty at Washington and come to St. Paul to look after his re-election. If he had been here early. he might have done some good, and it would not have been so bad, but to come now when the cause is hopeless shows such a lack of judgment as to make his abandonment of Washington positively reprehen- the tiger here, but they are not fully satis-

THE insult which "the friends of Windom" have heaped upon the office holders, and the contempt displayed for them, will hardly aid the distinguished senator in his keepers, dealers, steerers and cappers plans. He is coming n to buy with cash and promise of office, as many legislative votes as possible. If it is such a contemptible thing to be an office holder it is not a very desirable prize to offer for a vote. The office holders are still on deck.

IF Senators Pillsbury and J. B. Gilfillan had not heard of the John S. boom until slow. Minneapolis had a big delegation down here on Wednesday last, when they thought they could save Windom. After the vote, which in reality settled the question permanently so far as Windom is concerned, the Minneapolis crowd boomed John S. in great shape. Probably every to Senators Pillsbury and J. B. Тче royalist organs in Paris affect to regard the reports of the organization of legions of their party in the west of France as either gross exaggerations or pure fictions. The latter they are not, for there is abundant evidence that the revolutionary party is well organized and tolerably well armed. It is natural, however, that the reports of the discovery of the conspiracy should be somewhat highly who have been lured to ruin by the fascinacolored. Sufficient is known to indicate that France is in a state of great disquietude, and to lead to the apprehension that the country may be plunged into the vortex of revolution at almost any

AT the Jackson, 8th of January banquet at Boston, Gov. Butler was understood to say, and was so reported, that Gen. Jackson was born in Ireland. The second hero good way "off" in his facts. Gen. Jackson was born at Warsau, South Carolina, March 15, 1767. His parents were Scotch-Irish, and settled in South Carolina in 1764. "Old Hickory" was proud of the fact that he was native and South Carolina born. Of course, Gen. Butler, as well as the rest of mankind, are aware that had Jackson been born in Ireland, he could not have been president. The place of his birth, however, had no relation to his heroship at New Orleans.

THE appropriation made for pensions this year is twice the amount of the interest on the public debt, and now congress, not satisfied with the fact that the payment will next year exceed one hundred million dollars, proposes to add \$10,000, 000 more to pay pensions to every man who served thirty days in the Mexican war, or any of the early Indian skirmishes.

nake this payment 10,300,000 Ameriworkingmen must give a day's labor each year, or 1,000,000 must give ten days' labor annually. It was thought a year ago that congress had exhausted its capability for recklessness in making the present lavish distribution of pensions, but t is shown that the congressional ca-

noney was very much underestimated.

TWHEN President Garfield somewhat startled the country by including the name of Robert T. Lincoln among his Cabinet appointments, as a knot of Senators were discussing the matter, the question of Lincoln's confirmation came up. Dan Voorhees quickly said, "the Senator who votes against confirming the son of Abraham Lincoln has no business here." Senator Beck approved the sentiment. Young Lincoln, if he has done nothing remarkable as a member of the Cabinet, is not he has discharged his duties fairly, and has not been meddlesome. Mr. Dana, in the New York Sun, however, keeps up a fusilade of carping comment upon the young secretary. Mr. Dana was, once upon a time, anxious to support Mr. Stanton as secretary of war. President Lincoln could not be induced to gratify Dana. This he took in dudgeon, and resigned as assistant secretary of war. At this day it is not in vial of disappointed ambition upon the head of Abraham Lincoln's son.

An effort is being made in congress to transfer the control of the weather bureau to the agricultural department, and many well-meaning farmers have been induced to sign petitions asking such a transfer. There are a good many of our citizens who are probably as anxious to see the vice of gambling stamped out in St. Paul as is the zealous Minneapolis gentleman who recently made a raid on the lairs of fied that efforts that may be made in that direction will wholly cure the evil. JUSTICE.

Shall the prey be taken from the mighty, and be lawful captive delivered.—Isaiah XXIX:24.

The enemies of God are continually ar raigning him before the bar of their own judgment and impeach him, in the name amenable to criticism, from the fact that of the beings he has created, of injustice. Awful as is the idea, man, whose days are brief as the passing of a weaver's shuttle, accuses the everlasting God of unfairness. In the first place, is God under any obligations to the beings he has created? The Bible compares the Creator to a potter and mankind to the vessels he has made. The motive for storing the books and papers in such a place would be an unfathomable mystery, were it not for the fact that Attorney General Russell has just made application for leave to begin action against the Mutual Union company to vacate its charter on the grounds that it had violated its provisions by an overissue of stock, and it is therefore reasonable to surmise that these books and papers contain facts which certain directors conceal. A Leading Wholesale House Shipping Goods to an Eastern City.

The wholesale drug house of Merell, Sahlgaard & Thwing, of 191 and 193 East Third street, was the recipient last week of a high compliment to their energy and commercial enterprise, being an order for a large bill of goods from Mr. Orrin P. The simple statement of the fact that a large consignment of goods had been shipped by one of the leading wholesale houses of St. Paul to an Eastern city, alone speaks volumes the commercial prestige of St. Paul. It demonstrates that at least some of her merchants, while developing and extending their trade over the vast and fertile territory of the golden Northwest, still have a potent influence over the commerce of the East. Not content with this, he tore his bedtick all into strips and scattored the straw all over the floor, so that the interior of the cell had the appearance of a pig pen. He knew that he was to be sent to Stillwater yesterday, and did this everything, judge, to secure this right. as a matter of revenge on the sheriff. The four other prisoners sent over were Henry Fish for two years and three months: Dashwood for two years and three months; Wilbur for three years and three months, and Randolph for two years and three months.

Illness of John Wann.

The numerous friends of Mr. John Wann will be pained to learn of that gentleman's serious indisposition. He was taken suddenly ill yesterday afternoon, and the symptoms at one time assumed dangerous proportions. The malady is of complicated nature, and at times he was very flighty. Several friends were at his bedside last night and the best of medical skill was in attendance. Mr. Wann has a host of warm friends in St. Paul, and it is hoped that his illness will be only temporary.

RUFUS HATCH'S HOSTELRY.

Among the letters in regard to the Yellowstone park lease sent in by Secretary praise and their efforts should be rewarded Teller, is one from Gen. J. S. Brisbin, of the army, which sets forth the character of foresight they engaged last week Prof. N. the lease and its value in terms easily un-FORT KEOGH, Mont., Sept. 25, 1882.

B. Belford, Denver, Col. My Dear Belford: Your letter of the 17th inst. is re-

ceived. Since writing under date of Aug. 21, I have received a letter from the hon-

orable secretary of the interior, of which I will send a copy. While I am very thankful to him for his concession, it hardly covers what we asked for. My application asked for the right to build a steamer to navigate the Yellowstone lake for the pleasure of tourists and such additional steamers from time to time as might be required to accommotraveling public. The for one steamer alone, date the grant is for one A syndicate composed of Mr. Hobart, of the Northern Pacific railway; H. T. Douglass, of St. Paul; and some New Yorkers. notably Rufus Hatch, claim that they have cut under us and have secured the right to put on all the additional steamers for the next ten years, together with all sail boats. I am to be allowed to run one steamboat. These fellows claim to have hogged the whole pork, with all rights, privileges and immunities, ordinary and extraordinary. They are to build hotels, put on stages and do all things. If you don't like the fare and charges at one of the companies' hotels, you can go to another kept by the same fellows, and be charged the same and be given the same fare. This extraordinary grant does not come from our good friend Secretary Teller, but from the assistant secretary, whoever he may be. We have a rule in the army that a commanding officer being temporarily absent from his command, an officer who succeeds him in command shall not issue or grant favors, etc., but shall confine himself to the discharge of merely routine duties. This would be a good rule to adopt in the departments in Washington.

This assistant secretary of the interior during the temporary absence of his superior, Judge Teller, takes advantage of his absence to sign away the park. It won't stick. However, we do not care provided the right to navigate the Yellowstone letter to those men, respectfully requesting that they concede this right to us, and if they do not accede to it we will upset the grant. I wrote to Judge Teller for a co of the authority granted the syndicate by his assistant secretary, and on receipt of it I will send it to you with my remarks. Meanwhile, will you see secretary and advise with him. Ask right to navigate the Yellowstone lake for a term of years for the accommodation and pleasure of tourists. 'That is the application on file in advance of all others, and that, no doubt, is what Judge Teller intended to grant me. I cannot find language to express the importance of this matter. Next year 30,000 tourists will be in the park, and 100,000 annually thereafter. The navigation of the Yellowstone lake for ten years is worth \$1,000,000 to the holders. Does that express everything, judge, to secure this right.

I am very anxious, so write me again as

AWAY FROM STAR ROUTE TRIALS.

truly,

soon as you have seen Judge Teller. Yours

The Toronto (Canada) Globe of this. morning contains the following special from Halifax, Nova Scotia: Ex-United States Senator George E. Spencer has been spending a few weeks in Canada, and sails to-morrow for Liverpool on the steamship Polynesian, of the Allan line. The senator, after remaining in Toronto and Cape Vincent with friends, arrived here last night and was seen by a correspondent, who obtained from him some important information in connection with the celebrated star route trials now in progress at Washington. The senator is a portly and rather distinguished looking gentleman about forty-eight years of age, and has had an active career, both as a soldier and politician, having served in the United States army through the entire civil war, and was colonel at one time of the First Alabama cavalry, United States volunteers. He retired at the close of the war breveted a major-general, and entered public life. He was twice elected United States senator from Alabama. His present place of residence is Osceola, Nev., where he is extensively engaged in miningpursuits. His position as a witness in the star route trials is supposed to be a very important one, and, as there BATH, Me., Jan. 20 .- A run on the Peoappears to be so many theories as to what the trials really are for, it was with much difficulty that the following statement was secured. Senator Spencer was the first to discuss the existence of the fraudulent contracts known as the star route mail frauds.

and communicated the facts in strict confidence to the chief of the postoffice department, receiving that officer's word that under no circumstances would Senator Spencer's name be made public in connec tion with the trial. As a result of this. information a saving has been effected to the postoffice department by the canceling of millions of dollars of bogus contracts, so that now the department has become self-sustaining and the postal au-

thorities are considering a reduction in postal rates from three cents to two cents. The senator pronounced the trials at

ading before the American people, and

that so far there has been spent \$50,000 o.
