A WIFE of one of the richest men in Helena found placer ore in her yard last week, and it is expected that he will soon be one of the largest placer miners in the country.

The ore was discovered by the wife of the millionaire near the edge of town, and it is believed that he will soon have a large force of men working on the property.

Placer mining is becoming a very important industry in the region, and many large fortunes are being made by successful miners.

The discovery of this ore is expected to have a great financial effect on the economy of the area and is likely to stimulate further exploration and mining activity.

- Intersection of 1st and Main, Helena, Montana

The development of placer mining has been a significant event in the history of Helena and the surrounding region, and it is expected that this new discovery will contribute to the continued growth and prosperity of the area.
