"SNOW WHITE" MAKES A BIG HIT, AS PRESENTED BY EPISCOPAL SUNSHINE CLUB.

Hamilton, June 29.—(Special).—A crowd which packed the Lucas Opera house, gathered last evening to witness the juvenile opera, entitled, "Snow White and the Seven Dwarfs," given under the auspices of the Sunshine band of the Episcopal church. The cast had been carefully drilled by W. H. Amundson, with Miss Elizabeth Lemm as accompanist, until last evening's presentation was a delight in every particular. It was wholly refreshing to witness the splendid display of histrionic ability on the part of the little tots in the chorus. One witnessing the performance, could but imagine the patience and perseverance required on the part of those drilling the little folks in their parts, and so well was this work done that all the musical numbers of the piece would have been a credit to a chorus of more mature years.

Miss Josephine Mann, as the princess, and Miss Anne Helwig, as Queen, were especially captivating in their parts. Archie Mitchell made a most imposing and dashing prince. The other leading parts were handled acceptably. Music of high quality was furnished for the evening by the Hamilton City band, under the direction of George Ransom.

TEAMS WILL PLAY
IN HAMILTON

PRESIDENT WAGNER SAYS THAT BUTTE AND MISSOULA WILL PLAY BEFORE EAGLES.

Hamilton, June 29.—(Special).—Two baseball games between the Union league teams of Missoula and Butte will be one of the stellar attractions of the state Eagles' convention to be held in this city on July 12 and 13. This was definitely decided today by the local agent of Eagles, President Charles S. Wagner this evening stating that he had affixed his signature to the contract which already carried the signatures of officers of the two teams. It was stated here this morning that the management of the teams had made concessions in regard to the rain clause with the result that the contract was accepted in altered condition.

"Yes, we are going to have those two games during the convention," declared Wagner today, "and we expect they will be real hot affairs and witnessed by the biggest mob of dyed-in-the-wool fans ever assembled in this state. The Friday game will be a twilight affair called at 5 o'clock while the Saturday game will be called at 2:30 o'clock. This may cause us to alter our original program of events slightly, but the games are worth it."

News that the two league teams would be seen in action here during the convention caused much satisfaction here today. The Missoula team established its spring training camp here and worked out on the diamond where these two games will be staged. While Blankenship and his men were here local fans came to regard the team as a Bitter Root team in which everybody from Ross' Hole to the mountain back of the Northern Pacific depot at Missoula had an interest in. They have pulled for them all the spring and are still in the bandwagon. Weiser Dell, pitching for Butte, and McNamara of the same team are well known here where they played with the local team. The teams will draw heavily from Hamilton and surrounding territory.

SALTESE REJOICES
IN WEALTH

IMPORTANT MINERAL DISCOVERIES REPORTED WHICH GIVE PROMISE OF BIG SHIPMENT.

Saltese, June 28.—(Special).—A. J. Matthiessen (Buster) is smiling these days, as the Buster group of quartz claims is developing favorably and the showing is very good. These claims are situated east of the Monitor and upon the same ledge. The new shaft has shown up the ledge 1,000 feet nearer the Monitor and the ledge is well defined having two good walls and showing values wherever opened up. The ore is of the same character as that shipped by the Monitor company. When the long tunnel is driven to cross-cut these ledges, the Buster group will be in for fair. Everybody in Saltese is shaking hands with Buster and it is generally hoped in Saltese that he proves this another big shipper, which it now has the appearance of becoming.

There has been a new strike made west of the Monitor and north of the Big Elk. The new strike has been made by Joe McClellan, Russell R. Jones, John Severson and A. P. Johnson. They have a foot of ore the same as the high grade ore shipped from the Big Elk, and consists of cuprites and malacconite ores. These small ledges, of which there are several, upon this new property are parallel and will, without doubt, be one ledge at a small depth, as they are close together and are closer with but the small depth obtained as far as developed. All of the mines in this copper district are of the class known as stockwork, and the impregnation deposits are regular. This property is called the Queen of the Hill group.

The Big Elk is going to start work soon. The property has been leased to Peter Peterson, who shipped one carload which, besides carrying good values in silver and gold, ran 24 per cent copper. As soon as the lease expired the company decided to take over the property and work it. Peter Peterson has been appointed manager for this year.

Everybody in Saltese is taking great interest in the coming Fourth of July contests, to be held at Saltese. One can see them practicing double-sawing, single-jack drilling, foot-racing and the baseball team is getting busy also.
