ECONOMY CLAIM OF G. O. P. IS EXPLODED

WASHINGTON, May 21.—Representative Joseph W. Byrns, of Tenn., ranking minority member of the house Appropriations Committee, has completely exploded the claim of the Republican leaders in the House that they have saved millions of dollars to the taxpayers through reductions on appropriations.

Discussing such a claim made for the House majority by Representative Mondell, of Wyo., Republican floor leader, Mr. Byrns said: "I am very much surprised when the gentleman from Wyo., broadly claimed a reduction of estimates by the departments to be a saving on the part of Congress or a positive proof of economy. I was equally surprised when the gentleman from Iowa (Mr. Good) referred to the various reductions in the estimates on appropriation bill as a saving to the Treasury. There is no well informed man who does not know that it has been the uniform custom of all Congresses whether Democratic or Republican to largely reduce the estimates from the departments."

"If that sort of reduction is to be called a saving to the Treasury, then I want to call your attention to the fact that for the fiscal year 1918, when both branches were Democratic, the estimates were reduced in the sum of \$5,541,161,598.31. As a matter of fact Mr. Byrns told the House, applying the same rule that Mr. Mondell employed for a basis for his claim of saving by this Congress, Democratic Congresses during the present administration have saved to the Treasury more than nine billions of dollars."

It is also true, Mr. Byrns declared, that an analysis of the great annual appropriation bills passed by this Congress show that in every particular where they are compared with appropriations for the same activities made by recent Democratic Congresses the appropriations made by the present Congress show an increase.

Republican Senators are too busy campaigning to enact constructive legislation. They cannot keep a quorum on the floor to pass measures that business interests or the people at large are keenly interested in. A fine illustration of the real situation came in the Senate the other day when the dyestuff bill, which has been pending for months, failed of final consideration because it was impossible to muster more than 39 Senators.

No excuse that the Republicans did not know of the dyestuff bill was up will hold good. In the face of the knowledge that the people put their money in the dye industry during the war, and that President Wilson had appealed for the protection for them against German manufacturers, the leaders permitted the quorum to fade away.

Two calls for a quorum disclosed that only 39 Senators were present. "It is very evident," said Senator Watson, "that a quorum cannot readily be obtained this afternoon. I move that the Senate adjourn."

That is typical of the record of the Republican Senate on constructive legislation. Senator Hiram Johnson's successful round up of the discordant elements in the G. O. P. has struck terror to the hearts of the G. O. P. leaders in Con-

gress. They are now casting about for a new and stronger position. The fire Lodge started when he began his ill-conceived program to kill the peace treaty is getting beyond control. Senator Penrose, boss of the party organization, in a desperate effort to regain control of the situation has turned to Senator Knox, the Senator who said the Versailles treaty was too hard on Germany. It is understood in Washington that Mr. Penrose hopes to check the Wood and Johnson fight by drawing the program from the one and the interests from the other.

Republicans believe that Mr. Penrose has waited too long to throw out his life-line. They see a Wood and Johnson controversy to the end. In the last days of a long partisan Congress, the leaders are at cross-purposes and at sea on important measures. In the House there are an open and determined revolt against the "steering committee."

These are but a few of the troubles of the Republicans. DEMOCRATIC MASS MEETING TONIGHT There will be a Democratic mass meeting at the Democratic headquarters on Arroyo Boulevard, in the Karam building, this evening, Saturday, May 22, 1920. The issues presented in this election will be discussed, and the strength of the Democratic ticket will be demonstrated, while the commendable record of the present Democratic (real reform) administration will be presented.

All citizens having at heart the real interests of the City of Nogales are invited to attend. THE COMMITTEE. INDIAN CATTLE DISREGARD BOUNDARY LINE The cattle belonging to the Papago Indian reservation have once more shown an absolute disregard for international property, and have crossed the boundary line, apparently invisible to their eyes, and are now grazing in Sonora to the extent of about 1,000 head.

The stock man of the reservation came to Nogales yesterday to arrange for recrossing the cattle into Arizona, and with the aid of Consul Francis J. Dyer and his staff, the arrangements were easily made. The Sonora authorities evinced every desire to return the cattle to their rightful owners with the least possible amount of red tape.

A GREAT NON-PARTISAN TICKET It is a great non-partisan ticket, is it not, when the big Republican boss of the state, Allan B. Jaynes, unlimbers his newspaper, the Tucson Citizen, as was done yesterday evening, to help boost a movement that is endeavoring to foist back into power one of the most thoroughly organized rings with which any municipality was ever afflicted.

And, like the feeble organ of the ring in Nogales, the Citizen parades a letter written to the state highway engineer, some years ago, asking disclosure of one Ernest Walker, for shortcomings that merited his discharge. Why was he finally discharged by Engineer I. P. Fraizer?

REGISTRATION Registration is approaching the 900 mark. It was reported yesterday that it had reached 850, and after that there were a number registered. Those who estimated that it would run to 1200 or more have fallen short in their guess. There will have to be some tall registration doing today should it go to 1,000 registrants.

IN RE ERNEST WALKER Yesterday evening a prominent and well known citizen called "The Oasis" editor on the phone, and said: "Why don't you ask why Division Engineer Ike Fraizer discharged Walker from service on the state highway, as Messrs. Harrison, Wylie and other Democrats asked a Democratic administration to do?"

"This letter paraded by the Herald and the Tucson Citizen, from which they are trying so hard to make political capital, stated the truth when it said that he was worthless generally, and his association with certain people in Nogales, was cited as corroborative evidence."

The citizen mentioned continued: "I'm informed on good authority that Walker was fired by Division Engineer Ike Fraizer for general worthlessness, and among the specifications was an allegation that he forged the names of Mexican employes on the road to time checks, collected the money and converted it to his own use. I am informed further that he can bills that he has not paid, that he has deserted his wife, and that she is about to file a suit for divorce."

The gentleman mentioned opined that the record presented in the foregoing should be published for the Herald and Citizen to masticate.

COME CLEAN, MR. SISK

The Sisk Non-Partisan ticket claim that there is positively no connection between that ticket and the financial clout of our community; yet many citizens are wondering and commenting on the fact that every day shortly before their official organ The Evening Scream goes to press, that its publisher may be seen entering the great stone house with his copy and proof sheets.

If there is no connection why do the special interests which had so high a hand in our city government so many years be interested in serving as a censor over a newspaper whose right of free speech and free publication is conceded by others in the community. It all reads well in print, but it does not sound so well nor look so good when we see what goes on daily before our very eyes. Come clean, Mr. Sisk; admit that your paper is only an excuse for de-

CORINNE GRIFFITH

It was particularly appropriate that Albert E. Smith, president of Vita Graph, should have selected Corinne Griffith for the leading role of Clyde Fitch's "The Climbers," for she has been steadily climbing ever since she left her home in the south to become a film player. Now she has reached the top rung of film success. In addition to her imposing personal appearance and histrionic talent, Miss Griffith has the happy faculty of wearing beautiful and unusual gowns with grace and has had a splendid athletic training. Some of her most recent features have been "A Girl at Bay," "The Tower of Jewels," "Human Collateral" and "Deadline at Eleven."
