

# PHOENIX WEEKLY HERALD.

NEW SERIES—VOL. XXII, NO. 26.

PHOENIX, MARICOPA COUNTY, ARIZONA TERRITORY, THURSDAY, JUNE 25, 1896.

WHOLE NO. 5375.

## REPUBLICAN PRINCIPLES.

The National Platform in Synopsis. The following is an accurate and valuable synopsis of the Republican National Platform as adopted at St. Louis:

1. Tariff, not only to furnish adequate revenue for the necessary expenses of the government, but to protect American labor from degradation to the wage level of other lands.
2. Reciprocal agreements for open markets and discriminating duties in favor of the American merchant marine.
3. Maintenance of the existing gold standard and opposition to free coinage of silver except by international agreement with the leading commercial nations of the world which the Republican party pledges itself to promote.
4. Pensions and preferences for veterans of the Union army.
5. A firm, vigorous and dignified foreign policy and all our interests in the western hemisphere carefully watched and guarded.
6. The Hawaiian Islands to be controlled by the United States; the Nicaraguan Canal to be built; a naval station in the West Indies.
7. Protection of American citizens and property in Turkey.
8. Assertion of the Monroe doctrine. Especial withdrawal of European power from this hemisphere and union of all English-speaking peoples on this continent.
9. The United States to have no influence to restore peace and give independence to Cuba.
10. Enlargement of the navy, defense of harbors and coasts.
11. Exclusion of illiterate and immoral immigrants.
12. Reapproval of the civil service law.
13. A free ballot and an honest count.
14. Condemnation of lynching.
15. Approval of national arbitration.
16. Approval of a free homestead law.
17. Admission of the remaining territories, representation for Alaska and abolition of carpet-bag federal officers.
18. Sympathy with legitimate efforts to lessen intemperance.
19. An incisive but sympathetic reference to "the rights and interests of women."

## NEW GOLD FIELDS.

All reports of discoveries of rich gold fields are subject to a heavy discount, because experience has demonstrated their general unreliability. Had there been 50 per cent of truth in the aggregate of such reports during the last fifty years, gold would probably have ceased to be the standard of values by reason of the abundance and consequent cheapness. The latest sensation in this line has to do with newly discovered gold fields in British Columbia, west and southwest of Lake Kootenai, and a little to the northward of the boundary line. These fields are said to be marvellously rich in sufficient deposits—rich beyond comparison.

Naturally enough the attention of Barney Barnato and Cecil Rhodes has been attracted by the reports from Lake Kootenai, and these famous promoters are said to have employed expert metallurgists to visit and examine the alleged findings. The experts have returned, and are reported to have given out stories of "fabulous riches." If they are credited—and we leave that entirely to the reader—these deposits surpass anything that California, Australia or South Africa ever dreamed of, opening up prospects of wealth compared with that the financial condition of Gen. Law Wallace's oriental heroes was poverty.

The biggest of big booms is confidently predicted for the new fields, and it will come on schedule time if Barney Barnato, the K. M. King, takes hold of the matter. There is a cry amount of English capital ready to follow his lead. One great advantage of the situation is that the region in question is easily and cheaply accessible. It is located but a few miles from the Canadian Pacific Railroad, from which a branch to the heart of the so-called territory could be constructed at small cost.—*Washington Post.*

This Herald is for McKinley and the Republican principles of protection and reciprocity regardless of whatever other doctrines the party may have espoused. It does not belong to that class of partisans who, when they cannot dictate the party policy, are willing to abandon the great and glorious principles that have led the nation through war and peace and a magnificent prosperity for nearly half a century. What that party has done it can do again through the same course, a protective tariff and a wise policy of reciprocity, and with these cardinal principles its guide it matters very little what subordinate ideas it may espouse, or whether the mass of Republicans accept or agree on those subordinate ideas or not.

According to the latest reports Spain is preparing to precipitate 50,000 more troops upon Cuba, making probably 150,000 troops that are dispatched to crush liberty in that unhappy island. It is rumored that Consul General Lee has sent in a report that will probably cause the armed intervention of the United States.

## THE SENTIMENT OF THE INTELLIGENT FARMERS OF THE NATION HAS BEEN BROUGHT OUT BY THE AMERICAN AGRICULTURIST IN A WAY THAT SPEAKS VOLUMES FOR WHAT IS GOING TO HAPPEN IN NOVEMBER.

It is not an expression on tariff and reciprocity and received about 3000 answers of which 5,800 were from Republicans, 1,000 from Democrats and 1,140 from third party men. On tariff there were 3,868 for the McKinley bill, 993 for the Wilson bill, and 5,789 for reciprocity. The farmers of this nation recognize what the difficulty is and propose that it shall be corrected. Their demand as well as the demand of men of every other calling has put McKinley where he is.

SENATOR TELLER and Senator Dubois were two of the men who refused to permit a Republican tariff measure to become a law so far as Congress was concerned, which measure on becoming a law would have gone far toward relieving the great financial distress of the people of this nation. They stood in their own light. The fact is they proposed to restore silver in their way or not at all; they refused to see it come to its own as a natural commercial necessity. Prejudices sometimes blind great men as well as does small men.

When the revenues of the nation more than maintain the Government it will not be necessary to enhance the importance of gold and destroy the value of silver by borrowing gold ad libitum from foreign nations who refuse to recognize anything outside of gold as international currency. The Republican of the nation will soon correct this evil and correct the entire difficulty of the situation should the people of the nation once place in their hands the sacred trust of our national government which, when in control in the past has never been betrayed by them.

The Populist now has a man of ability and character in sight if they can gain his consent to number him in their party. He is one of the men who helped to kick out their false Colorado Gold Waite; his name is Teller.

THE HERALD speaks for the public on the Insane Asylum matter; it speaks for that class of our citizens who don't see the difference between one Democrat and another, politically, and who believe that competency only should be involved in such cases.

CALIFORNIA Republicans are nobly ratifying McK.ley's nomination, as are sound Republicans everywhere all over this broad-land. The nation believes in "Bill" McKinley as it does in McKinley's bill.

A SETTLEMENT of leggers has been discovered at Joseph, Tocoila county, Utah. The disease is said to be fully settled on the various members of one Peleis family.

ENGLAND's leading newspapers don't take kindly to Mr. McKinley's nomination, an evidence conclusive that the business of the United States is again about to resume its former prosperity.

THE Hon. J. W. Darrington and Hon. M. H. McCord show up in fine photos in the Chicago Herald as delegates to the St. Louis convention.

THERE IS growing interest in the coming Chicago convention; it is sure to be of a somewhat sensational character.

THE Democracy will not nominate Mr. Teller for the Presidency. There are too many Democrats willing to try their chances in that line.

ARIZONA's delegation at St. Louis voted for silver straight as was expected of it and as it should do.

RAILROAD CHANGES. General Manager G. H. Honshelt of the Maricopa & Phoenix railroad, a couple of weeks ago handed in his resignation to that company. The matter has been kept quiet until this morning for the reason that the resignation had not been accepted, the company refusing to accept it until they could decide upon his successor.

Mr. Honshelt came to Phoenix a year ago this month and assumed charge of the M. & P. road. Since that time the branch line to Mesa City has been built and the railway is in a better condition and able and desire to accommodate and please the people Mr. Honshelt has made his road extremely popular with the general public, and the result has been more than satisfactory to the owners of the road, who regret exceedingly his determination to sever his connection with them.

## THE GREAT FALLS.

Alfalfa describes them: Quite Vividly. I gave you sometime ago an account of my visit to the Great Falls, and consequent experience. I will now endeavor to tell how they look from the deck of the "Maid of the Mist" and from the Canada side.

To reach the landing there is an incline railway, running from the bank to the river's edge, through a tunnel at an angle of forty-five degrees. The charge is five cents each way. There is also a stairway consisting of 251 steps, which is free. Being economically inclined we walked down the steps. The fare on the steamer is fifty cents each, which includes a stop-over privilege on the Canada side. As we step on board the boat an attendant beckons us into the after-cabin, where he proceeds to envelop each of us in a large rubber coat and storm cap. We then go on deck, take our seats and the captain steps into the wheel house, gives one long blast of the whistle, then two short, sharp toots, the ropes are cast off and we glide out into the river.

Here we are right under the great American fall. There she is, a wall of water one hundred and sixty-seven feet high by one thousand and sixty feet broad, a mighty, rushing, roaring cataract. Imagine, if you can, a gigantic lace curtain of the dimensions above mentioned, hanging up in the air, of a light green at the top, gradually changing into a pure white at the bottom, and you have some idea of its appearance to us. It is, indeed, a grand and beautiful sight, alone well worth the boat of the trip.

Here we find the need for our waterproof, the spray driven by the wind descends upon us in showers that would have set us to the skin.

But we pass on and are soon steaming right into the vortex of the greater Canadian fall, or the "Horseshoe Falls" as they are commonly called. The sight here is even more majestic than the other. For the Horseshoe Falls, though nine feet less in height, are three thousand and two feet wide and carry fully three times as much water.

Owing to the bend and the immense amount of spray that is continuously rising, it is impossible to get as good a view here as at the American falls. But the way the water boils and seethes as it comes up from its big deep over the bluff, tells of the mighty power and force of the falling waters. A power as yet practically lost to mankind. But who knows how soon man with his inventive genius will harness the mighty Niagara and force her to do his bidding. Who knows?

After allowing us to fully take in the scene the "Maid" drops back and lands us on the Canadian shore. Here we ascend the bank by a foot path and are on foreign soil.

The view of the falls from the Canada side is the best any, for there you can take in the whole scene at a glance. There you see the mighty Niagara in all her grandeur and glory; for it is indeed a grand and beautiful sight. But the American falls is by far the most beautiful of the two, and I could sit a whole day and do nothing but watch the pouring waters and look into the gorge below, so deep that the "Maid of the Mist" looks like a toy boat as she steams along on the surface of the stream.

But our time is short, it is suggested that we have some ice cream in Canada, to which I give a willing consent. We sit at a restaurant, have you ice cream? No sir, but I think you can get it at the Victoria hotel? At the hotel we meet the same reply, nothing daunted we go to all the lunch stands, candy shops and bakeries in the town, but no ice cream. One curio dealer told us that if we would step inside he would give us some petrified ice cream, a suggestion that was scornfully rejected. If I did in our search for ice cream, we decide to carry away some mementos of our visit, and get our pictures taken, four tin-plates for fifty cents, showing the falls at our back, (the falls were on canvas) Very poor pictures indeed, but very good souvenirs of the place.

We return to the landing, board the little steamer and are soon ferried across the river, one hundred and eighty feet deep, we are told, back to "the home of the brave and the land of the free" where they know what ice cream is.

## TEXAS DEMOCRATS.

They Divide and Hold Two Conventions. AUSTIN, Tex., June 23.—Both wings of the Texas Democrats met in separate sessions here today at noon. After perfecting a temporary organization the appointment of committees, adjournment was had until the afternoon. Last night both factions held caucuses. A silver man agreed to send eight delegates to Chicago. The proposed platform declares unequivocally for silver 16 to 1. The gold man agreed it would be best to send a delegation to Chicago to contest the issue.

## MURDER AND SUICIDE.

Jenouey Causes Two Deaths in San Francisco. SAN FRANCISCO, June 23.—George Stuz, a German, murdered Mrs. Cora Borden and then committed suicide in a room of the lodging house at No. 326 Polk Street. The motive is obscure, but it is supposed to be jealousy. Stuz is a marine engineer and Mrs. Borden is a widow who earned her living as a dress maker.

## BANK FAILS.

The Bank of Salt Lake Fails to Open. SALT LAKE, June 23.—The private bank known as the Bank of Salt Lake (not incorporated) failed to open for business this morning; liabilities \$250,000.

## W. O. T. U.

Woman's Temperance Association of the World. LONDON, June 23.—White Ribbons' week here ended with a reception given to about one thousand members of the guild at Regate Priory, the home of Lady Henry Somerset, these guests also visiting the Farm Home Colony at Duxbury, four miles away. The hostess and her guest, Miss Willard, President of the world's W. O. T. U., shook hands with every comrade and the Misses Park, of New York City, scored another success; no better music of cornet and mandolin need be desired.

The twentieth annual meeting was the largest ever held by the Association. The delegates and members of the National Executive numbered nearly eight hundred, and thirty empanelled, enlisted as many distinct departments of work under the general heads of preventive, educational, Evangelistic, social, legal and political. One hundred and seventy-five new branches were reported besides three new county unions.

The annual address of the President dealt with Sunday closing, the Royal Commission, labor, parity, woman's ballot, and its strong positions evidently expressed the sense of the delegates. It was agreed that the proposals of Mr. A. F. Hills, Treasurer of the Church of England Temperance Society should be carefully studied in the local branches this year and that greater unity of spirit and method among the advocates of temperance is the vital need of the hour.

Pratrol delegates were chosen to attend the National Convention of the W. O. T. U. of the United States to meet in St. Louis, November 13th to 18th, and the world's W. O. T. U. met in Ottawa, Can., next spring.

Among fraternal delegates from other countries were Miss Willard, Miss Gordon and Mrs. Bailey, of the United States; Miss Torjoff, of Bulgaria, Madame Salmer, of Denmark, the Baroness Von Varschaer, of Norway, and several ladies from Holland and Australia.

The meeting in Queen's Hall was the largest convened by the temperance party since the elections of last year.

The Hon. Mrs. Bertrand Russell presided over a large meeting of young women, and Mrs. Netham Fields held an important meeting illustrative of the work among children. One hundred London pulpits were occupied by women on Sunday and the all-day consecration conducted by Miss Orchard in Westminster Town Hall was a memorable occasion.

Among the chief speakers and leaders of the convention were Mrs. Eva Morslow, Mrs. Biakie, President of the Scottish Women's Union, Countess Schimmelmann, of Denmark, Mrs. Agnes Slack, Mrs. Massingberd, Mrs. Ormiston Chant, Mrs. Pearsall Smith, Miss Agnes Weston, Mrs. Bramford Stock, Mrs. Sheldon Anon, Mrs. Percy Bunting, Mrs. Ward Poles, Mrs. Herbert Slead, Mrs. H. J. Osborn.

The organizing of the convention was ably done by Miss Gertrude Hunt, Ollie Secretary, and Miss Helen Hood, Superintendent of the Department of Organization.

## CANADIAN ELECTION.

The People Casting Their Ballots Today. OTTAWA, June 23.—Probably a larger vote is being polled throughout the Dominion of Canada than ever before in the history of British North America. The election arises from an appeal to the country on the part of the Conservative ministry, led by Sir Charles Tupper, whose remedial bill in favor of the Catholic separate school system in Manitoba was voted down in parliament. The Liberal party is led by Mr. Laurier who is in favor of adjusting the Manitoba difficulty by conciliatory measures. The Conservatives favor high protection, while the Liberals desire commercial relations with the United States. Although the Conservative party has been in power for about eighteen years, the outlook for today seems to be favorable to a Liberal victory.

## AGAINST SILVER.

Wisconsin Democrats Meet in Convention. MILWAUKEE, June 23.—The annual congressional district delegations delayed the opening of the Democratic state convention. At 1:45 Governor Peck, chairman of the state central committee, called the assembly to order. T. P. Frawley, the temporary chairman, delivered a speech in opposition to silver.

At the conclusion of Frawley's speech the committee on permanent organization and resolutions was appointed. A fight between the gold and silver factions ensued over the motion that all resolutions must be referred to the committee. The silver men opposed the motion, but were outvoted and the convention took a recess until 2:30.

## OHIO DEMOCRATS.

Free Silver Men Will go to Chicago Sure. COLUMBUS, June 23.—The Democratic state convention meets here tomorrow. The silver men have over six hundred out of the seven hundred delegates and the gold men are making no contest. The silver leaders have given notice that they want only pronounced free silver men on the delegation to Chicago and even with the anti rule they do not want any conservatives.

## SHOT TO DEATH.

The Spaniards Execute Two Men. HAVANA, June 23.—Miguel Alonzo Cabrera and Andres Fernandez Rodriguez were shot today outside the casaba fortresses.

## A WRIT OF REVIEW.

One is Ordered Issued by the Supreme Court. A CONTEMPT CASE. Editor McClatchey May Yet Get the Best of Judge Catlin.

SACRAMENTO, June 23.—The writ of review asked for in the contempt case of Charles K. McClatchey, editor of the Sacramento Bee, who was fined \$500 by Judge Catlin of the Sacramento Superior Court today. A writ of certiorari has been issued and will be served on Judge Catlin tomorrow, requesting him to furnish for the information of the Supreme Court the facts of the case. Editor McClatchey was fined because he insisted that the Bee report of a divorce case was correct, and because he severely criticized Judge Catlin for denouncing it from the bench as false and without any foundation in fact.

SHRINERS MEET. Cleveland Infected by Prominent Masons. CLEVELAND, June 23.—The twenty-second annual session of the Imperial Council of the Ancient and Arabic Order of the Mystic Shrine is in progress in this city today. The visitors began to arrive yesterday, and were driven about the city yesterday afternoon and tendered a reception in the evening. The event has attracted some seven thousand visitors.

The Mystic Shrine, as is generally known, is composed of Masons who have attained the highest degrees, and consequently has within its ranks some of the most prominent men in the country. Today was given up to social events. This evening there will be a grand parade of visiting temples, Arab patrols and escorts, concluding with a reception and entertainment.

WILL ACCEPT. Gov. Algeid Wants to Retain His Office. PEORIA, Ill., June 23.—Governor Algeid will be nominated and accept the nomination, it was announced by Judge Samuel P. McConnell, of Ohio, this morning. He just had a long talk with the Governor. McConnell said the Governor had intended to retire from politics as he had often publicly declared. Then his health was poor and he was tired of public life. He is in good health now and his friends have brought such pressure upon him it would seem almost like deserting the cause to quit now.

INDIANA FAVORITE SON FOR THE PRESIDENCY. INDIANAPOLIS, June 23.—The Democratic state convention meets in this city tomorrow at 10 o'clock. There will be 177 delegates present. A caucus to be held tonight will undoubtedly be dominated by the silver men. B. A. P. Shively will, it is believed, be the nominee for Governor. The number of delegates in favor of free silver will be about 1400 leaving the number for gold about 340. Governor Matthews will be endorsed for the Presidency and the delegates instructed to vote for him.

A GOLD PLANK. Senator Hill Favors a Gold Plank for New York. SARATOGA, N. Y., June 23.—Delegates to the Democratic State convention, which meets here tomorrow, are arriving on every train. Senator Hill, ex-Secretary Whitney, Chairman Hackley and Mayor John Boyd Thatcher, of Albany, are here. The question of form which the convention's declaration on the currency shall take is still open. Senator Hill is alleged to favor an unqualified plank in favor of gold.

BRETONS DON'T LIKE IT. London Papers Comment on Affairs in Venezuela. LONDON, June 23.—The Globe, commenting upon the arrest of the Crown surveyor of British Guiana by Venezuelan troops, says: "The Venezuelan government has repeatedly offered its ally to Great Britain with which even American spread eagles could not sympathize. It looks though as if President Crepo were thinking of the President of the Presidential election in the United States and was anxious to force a collision with Great Britain because the question has lost its electioneering value."

PHOTOGRAPHERS MEET. Over One Thousand in Session at Chatauqua. CHATAUQUA, N. Y., June 23.—Over one thousand photographers from all parts of the United States were present today at the inaugural session of the annual convention of the Photographers' Association of America. The gathering will remain in session for six days, and the sessions will be devoted to the reading of papers pertaining to the profession of photography, considered both from a scientific and financial standpoint. One session will be devoted to the remarkable properties recently discovered by Prof. Roegen in the light red and from the cathode of a Gaesler tube, generally called the X-ray.

HENRY OF NAVARRE WINS. The Great Suburban Was his by a Length. SHERBROOK, June 23.—Henry of Navarre won the suburban by a length. The Comonover was second by a length, Clifford, third; time 2:07.

## RED ROCK GOLD CAMP.

Miners Are Flocking to the New Field. MOHAVE, Cal., June 23.—Thomas Jagers came in this morning from the camp at Red Rock with a \$500 nugget. All Mohave is stampeded in that direction now.

OUT OF WORK. Thousands of Men Idle at Wilkes-Barre. WILKESBARRE, June 23.—Eight thousand men and boys are idle by the discontinuing of work in the collieries of the Lehigh and Wilkesbarre coal company.

ATTEMPTED TRAIN WRECK. Obstructions Piled on the Lake Shore Track. NARWALK, Ohio, June 23.—An unusual attempt was made last night to wreck the Pacific Express on the Lake Shore Road at the bridge a mile west of here. Three ties were placed in such a position that when struck by the engine they would tear up the track. A man discovered the obstruction in time to prevent the wreck, and gave the alarm. Three men have been arrested on suspicion.

A PECULIAR FIRE. The Hoist, Kansas, Court House Burned Down. HENRI, Kan., June 23.—Sunday morning the court house was burned to the ground and all records were destroyed. The safes and both been opened and the records piled on the floor in such a manner that they would surely be destroyed. There was \$8,000 in the Treasurer's office which is gone.

JAPAN'S TIDAL WAVE. Over Thirty Thousand Lives Were Lost. WASHINGTON, June 23.—The first official report of the great Japanese earthquake and tidal wave came today to the State Department from Mr. Herod, secretary of the Legation at Tokio, in the following brief cable: "Deaths caused by the tidal wave are estimated at over 30,000 in the reports to date. No mortality among Americans."

THE PAN PRESBYTERIANS. The Meeting of 1899 to be Held in Washington. GLASGOW, June 23.—The Pan Presbyterian Council unanimously accepted an invitation to hold its meeting at Washington in 1899, and thanked San Francisco for the invitation extended to hold the meeting at that place.

SAN FRANCISCO CHOSEN. The Turner Bund to Meet There Next Year. LOUISVILLE, Ky., June 23.—The North American Turner Bund today selected San Francisco as the next place of meeting.

RECEPTION TO HOBART. The People of Patterson Proud of their Townsman. PATTERSON, N. J., June 23.—Garrett A. Hobart, the republican nominee for vice president will be given a reception tonight by the citizens of Patterson irrespective of party.

B. H. BRISTOW DEAD. He Had Been Secretary of the Treasury. NEW YORK, June 23.—Ben H. Bristow, Secretary of the Treasury during President Grant's second term, died at his home in this city today.

DEATH FROM HEAT. Two Women Die From the Heat in New York. NEW YORK, June 23.—Two deaths from heat were reported to the police up to 2 p. m. Both victims were women.

HARD AT IT. Illinois Democrats Making Things Lively. PEORIA, Ill., June 23.—The Illinois Democratic convention assembled this afternoon for what promises to be a notable session. The temporary chairman, A. M. Bell, made a speech encouraging prudence without fear, and declaring against a straddle on the money question.

SIR JOHN PRESTWICK AEA. An Able and Noted Geologist Dies in London. LONDON, June 23.—Sir John Prestwick, professor of geology at Oxford, formerly president of the geological society, vice President of the Royal Society, and author of valuable geological works is dead aged 84.

A MINISTER RESIGNS. Reported Trouble in the English Cabinet. LONDON, June 23.—The Globe says it is rumored that one of the Ministers resigned at the cabinet meeting this afternoon.

THE ALLEN WINS. Three Yachts Start in the Royal Mersey Race. LIVERPOOL, June 23.—In the regatta of the Royal Mersey Yacht club today the Britania, Allen and Sanita started on the fifty-mile course. The Allen won.

A JOURNALIST DIES. Jos. O. Forrest, of Chicago, Passes Away. CHICAGO, June 23.—Jos. O. Forrest, a veteran journalist and early settler of Chicago, died today after a brief illness, aged 76. He was one of the founders of the Chicago Tribune and gave that paper its name.

The Markets. NEW YORK, June 23.—Silver 68 3/4, lead 2.30; Mexican dollars 54 3/4.

## BOISE AND BLAND.

The Democrats of Illinois Being Labored With. TELLER NOT IN IT. Delegates From Iowa and Missouri Working for their Favorites in Illinois.

PEORIA, Ill., June 23.—There has been no slate made of the state ticket to be nominated here tomorrow at the Democratic State convention. Governor Altgeld and Chairman Hinrichsen say they intend to let the representatives of the people nominate whatever the majority favors. As to taking up Senator Teller as a candidate, neither the Governor nor Secretary of State thought it possible.

A delegation of Iowa politicians have arrived to labor among the delegates with a view of obtaining instructions for Governor Blaine for President. A delegation from Missouri is working in the interest of Bland.

JAMESON AND COMPANIONS. They are Found Guilty of Invading the Transvaal. LONDON, June 23.—The grand jury today found true bills against Dr. Leander Starr Jameson, Major Sir John Willoughby, Col. R. O. Gray, Major R. W. Hills, Col. H. F. Hill and Hon. Harry F. Cresswell, charged with violation of the neutrality laws by invading the Transvaal Republic.

DESPELATE MURDERER. He Makes a Wonderful Escape from a St. Louis Jail. ST. LOUIS, June 23.—Noble Shepard, who was awaiting execution in jail here for the murder of Thomas Morton and Lizzie Leashy, escaped from his cell between midnight and 4 o'clock this morning. He crawled twenty feet through a sewer, climbed to the roof of the gallops on which he was to hang, thence to a high brick wall surrounding the jail yard and then to the street and escaped.

CONFLICT WITH MONTENEGRINS. Several Persons Killed by Serbian Officers. BRIGADE June 23.—A serious conflict has taken place between the Serbian and Montenegrin at Kurasnida. Several persons were killed and wounded on both sides.

Lamson Business College. The spring term of the Lamson Business College closed Friday and two more students have earned diplomas since the class was graduated in December. The present graduates are E. J. Hollingshead and John H. Hill, the first of the class of '96 to complete the course.

During the year, seventy-four students have been enrolled and three teachers employed part of the time.

The fall term will open in September and the lists and attention of the teachers will be devoted to teaching the business and English branches and shorthand and typewriting, the management of the school having decided to drop all higher branches as they really have no place in a business college.

The rates of tuition for the business course will be reduced nearly one-half for the fall term so that a business education will be placed within the reach of all.

Cycling Topics. The Michoux Cycle Club of Phoenix held their first run by moonlight on Saturday evening, the occasion being the birthday of Mr. George Burtis.

The Sterling Cycle Works have donated a beautiful Patroit quadruple silver plated water set as a prize in the race to be held here July 4th. It is now on exhibition at Finney & Robinson's. No provision had been made in the prize list for this prize, and it will probably be offered as a prize for best unopposed mile, or a team race between Tucson and Phoenix riders.

D. H. Burtis mourns the loss of a bicycle, stolen Saturday evening, while he was inside a business house buying some goods. It was a Model 9 Monarch, frame number 37499. G. & J. tires with Dunlop tubes and valves, steel rims.

A sprinkler has been made for the cycle track, which will do the work quickly and well. At present the track is rather soft, but a few days work will place it in perfect condition. The boys will get down to fast work this week.

The Good Templars. There were sixty-six Good Templars present at the regular meeting of Garden Valley Lodge last night, including fifty-six members of the local lodge, four visitors from Unity, three from Temple, one from Gladys and one from California.

Five new members were added and several propositions are on the book. A committee consisting of Miss Lavinia Andrews, M. N. Castlerine and A. P. Walbridge was named to arrange for a public open air meeting.

The piano committee reported having examined several instruments, but no action was taken. The sentiment in favor of buying an instrument seems very strong.

After the adjournment of the lodge ice cream and cake was served to those present, and a jollier crowd never sat down to feast. An hour was spent in social chat and singing and all went home in good spirits.

If the lodge continues to grow as it is at the present time a larger hall will be a necessity.

## WHY.

Be bothered with inferior goods when you can get a first-class article if only you will call for it.

LEVI STRAUSS & CO'S CELEBRATED COPPER REINFORCED OVERALLS AND SPRING BOY TOM PANTS Are made of the best materials. Sewed with the best threads. Finished in the best style.

EVERY GARMENT GUARANTEED. FOR SALE EVERYWHERE.

SEND for a picture of our Factory, we will mail one to you free of charge.

WE EMPLOY OVER 500 GIRLS. ADDRESS: LEVI STRAUSS & CO. SAN FRANCISCO, CALIFORNIA.

Young Men's Club. A most interesting meeting of the Young Men's Republican Club was held Saturday night. An invitation had been extended to Gen. A. J. Sampson to deliver an address upon the tariff. On his appearance he met with a most hearty greeting from the young men, indicating very clearly that they look upon him as a friend. Of course his address was in favor of a protective policy. He showed clearly that this is necessary for many of the industries of the country; that it is of paramount importance to the laboring portion of our nation; that it is only by such policy the balance of trade can be kept in our favor and prevent the flow of gold to foreign nations. For more than an hour he elicited the closest attention, as he gave a history of the free trade and protective periods of our nation, from the colonial days to the present. The most hearty demonstration, at the close of his address, was supplemented by a vote of thanks and an invitation to deliver another address before the club on the tariff. The club adjourned to meet September 7th, when the General will again address them on this most important subject, and under his handling a most interesting one.

A Pretty State of Things. "Ten-buys may always safely assume that any tea with a pale green color is an adulterated or 'faced' tea—as it is known to the trade."—*New York Times.*

And yet that is the kind of tea that we drink most off! We understand, moreover, that this adulteration is largely of a poisonous nature. He is a murderer who kills one man for revenge. He is a general who kills many for glory.

What is he who kills or injures many for gain?

REAL ESTATE TRANSFERS. Reported for the Herald by the Valley Abstract Company. June 20.

Arizona Rights to Lloyd B. Christy, deed, water rights for 3 1/2 of nw 1/4 and 1/2 of nw 3/4 of nw 1/4 sec 27, 2 n 2 e; \$1,625.
