Gov. Wright's War Speech.

Bill to authorize the use of Rebel Property, and the employment of Negroes in military labor.

Gov. Wright's War Speech.

Delivered in the Senate, July 26, 1862.

Gov. Wright's War Speech.

Mr. Wright—I have a few remarks to make on this subject, without regard to any particular section of the bill.

I had intended some weeks ago to say something on the confiscation bill, but my health would not justify it.

So far as the question of slavery is concerned, I believe the Senate will bear me witness that I have never mingled in the debates on that subject, and I am very sure that if no one would ever introduce it here, until I had done so, the subject would never be submitted to the Senate of the United States; yet I think I shall be thoroughly understood before I conclude.

We have passed a bill on the subject of confiscation, which gives the President power to employ negroes to work on the public lands.

I believe he had the power without that bill; and I will take this occasion to say to my friend from New York [Mr. Harris] that so far as the exercise of that power is concerned by our generals, my information is not of the character he gives us in the letter from General McClellan.

I have a letter before me, written by the South, from a gentleman that I have known for many years, and I propose now to read an extract from it in relation to General Halleck's order No. 3. My friend writes as follows:

"Halleck's order No. 3, has killed at least ten thousand of your western soldiers, and has cost every soldier in every camp, and on the corners of every street, at least a hundred dollars."

At Hamburg, four miles above Pittsburg Landing, there were two thousand seven hundred soldiers sick, and six hundred were there. I saw detachments of our troops making roads in the hot sun; and, in fact, young men, noble men who had sprung to arms to save the country, were performing labor which was enough to break down the constitution of the strongest; and I did not see a single black man at work on any of the landings on the Tennessee and Cumberland rivers; the boats of the prisoners on board the steamer Uncle Sam at Pittsburg Landing.

This is the authority of a gentleman I can vouch for as a man of respectability. He sent me another fact. He enclosed me a list of four hundred and seventy sick men who were then on board one steamer, most of whom were from my own State and were wounded in battle. They were all afflicted with the diseases of the country, as shown from the list opposite to each name, but three were wounded. I only refer to this to show the fact that I will go as far as any man in prosecuting another in the East, another in the West, another in the North; but there has been no uniform, firm and decided policy. It was your duty when you met in July last to sustain the arms of the President and to give him a policy. This Congress ought not to leave us four weeks until the property of the South is in the hands of the East, another in the West, another in the North; but there has been no uniform, firm and decided policy. It was your duty when you met in July last to sustain the arms of the President and to give him a policy. This Congress ought not to leave us four weeks until the property of the South is in the hands of the East, another in the West, another in the North; but there has been no uniform, firm and decided policy.
