GOOD citizens are willing to obey the laws of their country and bad ones should be forced to do so.

HIGHWAY robbery should be punished capitally, without regarding the amount of boodle the robber obtains.

It is strange how far a man's ambition will mislead him. This is dedicated to some of the anti leaders who want Senator Coke's scalp.

It will not do to liken Dallas and the Fort to two fighting cocks any more. Fort Worth and Waco are in the pit together. Dallas is busy.

THE time for paying taxes reaches only to December 31, this year. On the 1st of January you will be on the delinquent roll if you have not paid.

AN old miserly bachelor sends the HERALD a protest against the undemocratic law which forces him to pay taxes to educate the children of other people.

ATTEND the entertainments given by the good ladies and patronize them liberally. There is not a city in Texas in which the women do more charity and church work than in Dallas.

MERIDIAN reports one man sent up for ten years for horse theft, and two cases of assault to murder in which the accused were fined \$12 and \$5. This is civilization with a vengeance.

THE cotton-picker, if one is ever invented, will throw a multitude of people out of employment in this country. Every person in the State who wishes to work is now able to find employment.

THE city authorities claim that they do not get enough work out of day-laborers, or time-killers, as they call them. We see no reason why they should not if they have the right man to superintend them.

If the credit system is playing out in other portions of the State as rapidly as it is here, it will not be long before the trade of Texas will be on a much safer financial basis than it has been in the past.

THERE is a good deal of hoodlumism cropping out in some portions of Texas. However widely the respectable people of the state may differ on political or religious matters, there should be no division on the proposition that "the hoodlum must go."

It takes a long time for a Government building to settle, but Dallas can't wait for it to settle. She is up and doing and will need no other quite as large as the present structure by the time it is finished. The United States can't keep up with this town.

EVERYTHING Possible should be done to make the transportation facilities to and from the Fair adequate to the demand soon to be made upon them. It occurs to the HERALD that a double street car track on Main street will be needed and should be built.

It seems to be the generally accepted idea, especially among politicians, that a party platform is in the nature of a trap set to capture as many birds as possible, of any kind. The word "sumptuary" is an ambiguous term that has proven to be a great favorite with them.

It seems to us that Judge Clark treated Col. Will Lambert and others with some lack of courtesy in refusing to let them shoot the snipe on his return from Chicago. They cooked up a lot of chickens for the judge and had them ready when he got home; but their preparations ran him off to Houston.

If there is anything the reader now yearns for it is some fresh fun—a late crop of chestnuts, as it were. We have had dry jokes, droll fun, puns, patched-up anecdotes and the proceedings of the legislature. All of these are the same things over again and again. But O'Reilly's resolution is something we have never had before.

HENRY GEORGE'S free land theory, in which he contends that all land should be owned by the government and all taxes raised from the land as lease or rent money, is so utterly contrary to existing institutions that it will never be seriously considered in this country.

THE Fair people claim that nothing interesting shall be left out of their great catalogue of Texas wonders. The young or old lawyer who has succeeded in drawing damage funds out of the average Texas newspaper should be exhibited—that is, if one can be found.

THE country papers are just now returning thanks for a peck of sweet potatoes.

On Webster On!

It is said that Webster the photographer within the last three months has made wonderful improvements in the art of photography, particularly in the line of baby pictures. Mr. W. offers \$25 reward for a baby that he can't catch with a smile. Remember that Webster will charge you a good round price for a photograph made at his studio.

At Meridian the criminal docket was taken up on Monday the following convictions have been had: A. B. Chappel, assault to kill, fined \$12.50; Tom Jones, horse theft, two cases, five years in the penitentiary in each case; Taylor Grunnels, horse theft, five years in the penitentiary; Tom Bruton, assault to kill, fined \$5.

A NAMELESS CASE.

My case has been a very curious one for about thirteen years. At intervals of about one week I would be attacked with spells of severe and most excruciating pain, always commencing in the region of my kidneys. The pain would then go upwards and affect my body and head, and seemed to penetrate my very eye-balls, creating the most intense suffering, lasting about eight hours each spell.

I restored to all kinds of medicine without benefit. Several doctors treated my case, but none relief. I finally used B. B. B. as an experiment, and to my utter astonishment all pain and suffering vanished after using three doses. To the present time I have used three bottles, and not a pain has ever returned. I do not know what was the matter, neither could my physician name the complaint. The B. B. B. acted finely and powerfully upon my kidneys; my appetite has been splendid and my constitution built up rapidly. R. THOMAS, Constitution, Ga., May 6, 1886.

UNIMPEACHED INTEGRITY.

I am 35. Broke down twelve years ago, and have not been able to work since. Have lost proper action of my hips and legs. For five years scrofulous sores have appeared on my scalp and nose, and at the same time my eyesight began to fail, and for three years have been comparatively blind. Have been treated by eminent physicians of different schools without a cure. I have taken five bottles of B. B. B. (made at Atlanta, Ga.) and all scrofulous sores are gradually healing. Inflammation about my eyes has disappeared and there is some improvement in my vision. Am very much benefited and relieved, and begin to feel like a boy again—feel good. My strength and activity are returning in my hips and legs. The B. B. B. acts vigorously upon my kidneys, and the great quantity of matter that has been forced out through the skin is utterly incredible, often so offensive in odor as to produce nausea. I refer to all business men of LaGrange, Ga. P. PROPHILL, LaGrange, Ga., January 13, 1886.
