Bankers Declare These Very Best Securities That Money Can Buy

Hundreds of banks over the Eleventh Federal District have already invested in the new \$1,000 Registered Treasury Savings Certificates and nore orders for them are being received every day by the Federal Reserve Bank at Dallas. Bankers are practically unanimous in declaring these new \$100 and \$1,000 Registered Treasury Savings Certificates the best securities the Government has ever offered.

Individuals, corporations, cities, counties and school districts are also buying these Registered Certificates in large numbers. The State of Texas was one of the first purchasers, State Treasurer John W. Baker getting \$500 worth for each of two State funds. The law does not permit more than \$1,000 (worth, maturity value), to be held in any one name, but each member of a family or firm, each director in a bank or corporation may hold that amount.

The \$100 Certificates may be purchased at all first and second class postoffices and from all banks and trust companies, while Certificates are obtainable from banks and trust companies only. Each Certificate is registered in the buyer's name when issued and the buyer's name is also inscribed on the face of the Certificate.

Bearing interest at 4 per cent, compound every 90 days, and maturing January 1, 1924, these Registered Treasury Savings Certificates form an ideal investment. They are exempt from taxation, insured by the Government against loss and may be cashed on ten days' notice. War Sayings Stamps of the 1919 issue may be converted into these Certificates if desired.

The cost price for the \$100 Registered Certificates is as follows: August \$83.80; September \$84.00; Octob er \$84.20; November \$84.40; Decemher \$84.60.

The cost of the \$1,000 Registered Certificate is only \$838 for August; September \$840; October \$842; November \$844; December \$846.

The Government will pay the full face value of these Registered Treasury Savings Certificates on January 1. 1924, or the amount invested with accrued interest if the holders want to cash them before that date. Pe wise, invest in the new Registand Treasury Savings Certificates.

Take Active Part In Fight Against High Living Cost.

-W. S. S.-

Fight the high cost of living by avoiding waste, buying carefully, saving what you can and investing this saving in Registered Treasury Sav-ngs Certificates or War Savings Stamps. Work and save! This is doubly wise at this time as not only is the money being saved and put to work making interest, but dollars with low purchasing power now are being invested with a certainty that

will buy more later on. The dollar today will buy less in groceries, clothing and other necessies than at any time since the Civil War. There is every indication, how-ever, that prices will be more normal in a few years. The dollars invested in these new Registered Treasury Savings Certificates which have just issued by the U. S. Government, or War Savings Stamps will not only buy more five years from now, but will bring the interest earned with them when returned to their owners. Save all you can and put the dollars you save to work for you. You will find you are making good progress this way in giving old "H. C. L." his
