

M. G. Morrisette Company

FURNITURE

The Home of Good Elizabeth City, N. C.

WE do not boast the largest furniture store in North Carolina, but you would have to look a long time to find a more attractive store with a more varied line of truly good furniture, carpets, rugs, linoleums and house furnishings of all kinds.

We keep our stock ever fresh and complete by drawing from our own warehouse which we keep constantly filled with goods bought in car load lots, often stocking goods bought months in advance of our needs. Our remarkable low prices on so many lines have been made possible by this advance buying. We have enough furniture bought and stored to-day to stock five stores the size of our hundred foot front Main St. store.

You can supply your needs here, and always at attractive prices.

True—here is the only car you can buy whose gears are shifted electrically and whose motor is made of aluminum—two almost unanswerable reasons why your next car should be a Premier.

But the real reasons why you should buy a Premier are far more basic. Buy a Premier, because it is the one car that has openly challenged Europe to make good her claim to supremacy IN THE FINE CAR FIELD—and by sheer mechanical superiority has made the challenge stick. Buy a Premier, because there is no prouder name in motor car history, or any with a richer tradition for worthy conduct on the field of usage. Buy a Premier, because of its silent appeal to the human passion for BEAUTY. The well bred people of America saw this car at the New York and

Chicago shows, and it spoke to them—in their own language. With the result that, at this moment, the great Premier factory, with its reinforcements of men, money and machinery, is hard pressed to meet even a fraction of the demand for Premier cars.

The mere fact that you are riding in a Premier, in preference to a European car, not only underwrites your Americanism, but proclaims you a person of discernment, of good taste, and appreciation of true engineering.
