The new palace of Radziwil, which is now being furnished for Prince Bismarck, as Chancellor of the German Empire, requires a heavy amount for furnishing it. About \$140,000 has already been spent for the purpose, and a demand is made for \$175,000 more.

Von Armin writes that he cannot understand why Bismarck has followed him with such vindictiveness for four years, unless it be that he is controlled by a nervous exaltation into which the Prince often falls. When he takes it into his head to persecute he pursues his victim with insatiable bitterness.

Many years ago the government of Nova Scotia assumed the project of placing a number of sheep or swine on Sable Island to avert the danger of starvation to which seal-eaters escaping from wrecks had been exposed. But these animals could not subsist on the only shrub which thrives in the sands of the otherwise barren Isle of Sables. An old French doctor suggested a trial of the tough and shaggy little horses known as Canadian ponies, and forthwith a detachment of them was forwarded in the government steamer to Sable Island. The unfatigued ponies took kindly to the solitary shrub, made the island their home, and became wild in time. Recent exports from the Isle of Sables, or Sable Island, as it is variously called, show that the ponies are becoming almost extinct, owing to the frequent capturing of large numbers of them for use on Anticosti Island, and for sale among settlers in the interior of Newfoundland and distant hamlets of Nova Scotia.

CALDWELL PARISH.

Support, Taxes and Aid for the Nicholls Government.

At a meeting of the police jury in and for the parish of Caldwell, held at the town of Columbia, La., on the 19th day of March, 1877, the following resolutions were offered by the president and unanimously adopted by the board:

Whereas at an election held on the 7th of November, 1876, Francis T. Nicholls was duly elected Governor of the State of Louisiana by a large majority of the voters of the State; and Whereas, there is now a man by the name of Packard who is trying to be Governor of our State, against the wishes of the people and without having been elected to the position he is trying to usurp, but was so counted in by a gang constituted as a returning board; now, therefore be it

Resolved by the Police Jury of Caldwell parish, That the government headed by Francis T. Nicholls is the only lawful government of Louisiana, and that we will recognize no other as such, and that it is the only one entitled to the support of the people; that we, the Police Jury, will not, under any circumstances, sustain or recognize any but the Nicholls government; that we will not be, in any case, controlled by the laws enacted by any but the Nicholls Legislature.

Resolved, further, That we call on the people we are representing to sustain us in our action of patriotism, and to give to no one their support except those officers authorized by Gov. Francis T. Nicholls, and pay taxes to no one except collectors appointed by Gov. Nicholls.

Resolved, further, That a copy of this ordinance be sent to the Columbia Herald and New Orleans Democrat, with request to publish.

Adopted March 19, 1877.

In the town council of Donaldsonville a resolution was introduced the other day to the effect that the taxes paid by the citizens of the town be paid to the Nicholls tax collector. It was tabled, however, on the ground that the town council paid no portion of this tax and exercised no jurisdiction whatever over its levy or collection.

In the Democratic primary election held in Baton Rouge Monday, March 19, for the nomination of candidates for the municipal offices, some 500 votes were cast. There were five candidates for Administrator of Finance, three for Administrator of Police and four for Councilmen. Ed. Cheatham received the nomination for Administrator of Finance, Robert Wiseman for Administrator of Police, and J. J. Wax and M. J. Williams for Councilmen.

LEE'S SWORD.

He Never Surrendered to Gen. Grant. The Richmond Dispatch contains the following communication:

Messrs. Editors—I am sorry that you allow to pass unchallenged the item in your paper of this morning from the Bangor (Me.) Whig about Grant's magnanimity in declining to receive Lee's sword, etc. Several years ago you published a letter from your correspondent, "Viator," giving Gen. Lee's own account of the surrender, in which he denied most emphatically that he ever tendered his sword to Gen. Grant, or had any idea of doing so. In Personal Reminiscences of Lee there is also a full statement of Gen. Lee's own account of the surrender, the following extract from which settles the question: "Gen. Lee said that when he met Gen. Grant they exchanged polite salutations, and he stated to him at once that he desired a conference in reference to the subject matter of their correspondence. 'General Grant returned you your sword, did he not, General?' one of the company asked. The old hero, straightening himself up, replied in most emphatic tones: 'No, sir! he did not. I had no opportunity to do so. I was determined that the side-arms of officers should be exempt by the terms of the surrender, and of course I did not offer him mine. All that was said about swords was that Gen. Grant apologized to me for not wearing his own sword, saying that it had gone off in his baggage, and he had been unable to get it in time.' This spoils a great deal of the rhetoric about Grant's magnanimity in returning Lee's sword, and renders as absurd as it is false the attempt of Northern artists to put the scene on canvas or into statuary. Even Gen. Grant's connivance at this so-called 'historic scene' will not save it when the world knows that R. E. Lee said that nothing of the sort occurred. The sword scene, 'historic apple-tree,' etc., are mere inventions of army correspondents, which do not please the fancy of the 'saviors of the Union' that they are being constantly repeated. Grant's terms were magnanimous; but he knew full well that they were the only terms which Lee would have accepted.

VENUSIUS.

Uncomfortably Active State of that Great Safety Valve. [Detroit Free Press.]

An uncomfortably active state of the present condition of Mount Vesuvius was given by Prof. Boyd Dawkins at the meeting of the Manchester Geological society on January 30. Prof. Dawkins, it seems, visited Vesuvius a week or two ago, and on arriving at the mouth of the crater found that it was filled with a dense vapor like a fog. A "low, roaring noise" could be heard, and occasionally there was a flash of light, which was probably the reflected light of the lava surging about in the volcano. Undismayed by these symptoms of internal disturbance, the Professor gallantly went down seven or eight feet below the edge of the crater, and found that he could light pieces of paper in holes which he dug with his hammer in the black ash on the inside. Everything, indeed, indicated a tendency to eruption, and he says that the accounts issued by Professor Palmieri, one of the volcano's periodical attackers, who expected in a comparatively short time, Professor Dawkins is of opinion that Mount Vesuvius performs the duty of a safety valve to a very large portion of the earth. This may be the case, but the melancholy part of the affair is that the earth should require such a safety valve, and, moreover, that its needs in this respect become more urgent each century of its existence. Professor Dawkins, who has made Vesuvius a special object of attention, has come to the conclusion that the volcano has become far more energetic during the present century than it has ever been before. The first known eruption was that which overwhelmed Pompeii and the neighboring country A. D. 79. It was not until the seventeenth century that the number of eruptions in the hundred years was as many as four. In the eighteenth century the number rose to twenty-three, and during the present century twenty-six eruptions have already occurred. How many more may take place during the remaining twenty-three years Prof. Dawkins is unable to say. All he knows is that the mountain is in a very restless state, and may "go off" at any moment. On the other hand, as pointed out by a member of the society, reports made about January of expected eruptions ought not to be noticed so much as at other times, as the inhabitants of Naples make the most of such reports at this season in order to attract sightseers.

BROTHER BLAINE.

His Shallowness of Policy and Powers of Conversation. [Mary Clemmer in Cincinnati Commercial.]

To people acquainted with that political gentleman's tactics, Blaine's beautiful deportment at Mrs. Hayes' reception, on Saturday, was amusing. The report in the evening papers of the fushing reception he received there, was equally amusing. The proof-sheets of his speech, which was sent to every reporter in Washington but two, didn't stir the people of the land as he expected. They were perfectly willing he should make an ass of himself, but declined patting him on the back while he did it. But if the people wouldn't applaud nor echo his war whoop, he could go to the White House and set those seal eyes of his upon Mrs. Hayes, and dazzle five hundred other women with the orations of his conversation, and set an indefinite number of men to saying for the ten thousandth time, "Jim Blaine is just the smartest and best-hearted fellow on earth." And then he could write a little paragraph for the papers telling all about it.

SENATOR DAVIS.

The Beautiful Way in which He Fills His Seat.

[Mary Clemmer in Cincinnati Commercial.] Senator Davis looks as if he enjoyed himself vastly more than in the Supreme Court room. All the justices there look uncomfortable, whether they feel so or not, sitting in lonely state in a straight line on that lofty "bench" in their troublesome gowns. No wonder they all get so enormously fat and heavily jowled. Judge Davis' elephantine figure, folded in that long-tailed robe of satin, was a sight for commiseration. Now in a morning coat he looks considerably relieved. He swings his Senatorial chair about, and throws his mighty arms out over the other desks, spreads himself, and at last has room to spread. He has a strong and noble countenance. There is not another left in the Supreme Court room at once so benignant and trust-inspiring. It is emphatically "a good face," while it is a strongly intellectual one. What a pity he cannot subdue that "ponderosity" of his sufficiently to leave the action of that large brain unclogged. That he has so much, and uses it so well, in spite of all, proves him indeed a mighty man. The resolutions of the bar of the Supreme Court, in which they record "their high sense of the learning, ability, love of justice, and fearless independence which he brought to the discharge of his judicial duties," are a record of which the retired judge may well be proud. But he will find in the Senate of the United States a larger and more congenial sphere—with a future!

THE ATTITUDE OF HAYES.

And a Story Illustrative of the Ludicrous Position. [New York Sun.]

The present attitude of Mr. Hayes toward the Fraudulent Governors, Chamberlain and Packard, brings to mind the story of the good little boy and his grandmother. The little boy was the special pet of the old lady, and the two were discussing the relative degree of affection of each toward the other. Finally the old lady resolved on a test of her grandchild's devotion. "Johnny," said she, "if either you or I had to die, which had you rather it should be?" Johnny pondered the question a few moments, and then suddenly brightening up, replied, cheerfully: "Well, grandma, I think I had rather you should die, for I think I could stand the loss better than you could." This is about the case with the three fraudulent Executives we have named. It is death to Packard and Chamberlain to go out, and it is death for Hayes to have them stay in. Though the latter still has an ardent admiration, closely approaching affection, for both the others, he thinks he can stand their loss a good deal better than they could his; and therefore he blandly asks them to commit kari-kari in his behalf. Packard and Chamberlain, however, do not seem to view the matter in this light.

WARMOTH'S PLAN.

He Wants to Have a Hand in the Governmental Pie. [St. Louis Republican.]

Warmoth is out with a patent for settling the Louisiana muddle. He proposes that the Legislature shall be reorganized by the members whose seats are uncontested. They are then to settle all contests and proceed to canvass the returns for Governor, both parties agreeing to abide by the result. This he admits would give an approximate Republican majority of twelve on joint ballot, but he says seven of the twelve are not particularly friendly to Packard and could be relied on to secure a fair count. Two months ago this proposition might have seemed fair, but since then the country has learned not to depend upon those impartial, judicial-minded Republicans for a fair count. No compromises hiding ingenious tricks need be suggested for the Louisiana difficulty. The case must be decided openly, squarely on its merits, as a question of law, of right and of justice.

A Palace Car Decision.

[Special dispatch to the World.] CINCINNATI, March 18.—An important case was decided in the United States Court Saturday settling the rights of the Pullman Palace Car Company regarding taxation. The suit was brought some time since by the Auditor of Clinton county in this State against the palace car company to collect taxes on cars running through the county and stopping only at stations for repairs. The case was brought up in the United States Court, when the company asked for a permanent injunction, which was granted yesterday by Judge Swing. The decision is considered very important, as this was a test case regarding right of counties to tax cars running through them.

PROCLAMATION

FRANCIS T. NICHOLLS, Governor of the State of Louisiana.

Whereas, authentic information has been by me received that JACKSON BLAZE, late of the parish of St. Bernard, in the State of Louisiana, committed the crime of murder on the body of one ROBERT BROWN, in the said parish of St. Bernard, on the thirtieth day of the month of November, 1876, and is now a fugitive from justice.

I, FRANCIS T. NICHOLLS, Governor of the State of Louisiana, have thought proper to issue this, my proclamation, calling upon the good people of this State to give their aid and assistance in arresting and bringing to justice the perpetrator of said crime, so that the law may be vindicated; and by virtue of the authority in me vested by the laws of the State of Louisiana, I hereby offer a reward of ONE THOUSAND DOLLARS for the arrest and safe custody of said JACKSON BLAZE in any jail in this State.

Given under my signature, authenticated with the seal of the State of Louisiana, at the city of New Orleans, this twelfth day of March, in the year of our Lord one thousand eight hundred and seventy-seven, and of the Independence of the United States of America the one hundred and first year.
