THE DOCTORS.

THIRD DAY'S SESSION OF THE LOUIS IANA STATE MPDICAL SOCIETY.

The meeting was called to order at noon by Vice President Bemiss, in the chair. The minutes of the two meetings preceding were read and approved.

A motion by Dr. M. Schuppert, duly seconded, that 500 copies of Dr. Chaille's address be printed for distribution by the governing committee, was carried.

Dr. Chaille rose to a personal explanation to the effect that his address had been incorrectly reported in several essential points
which he particularized by the morning Time. and Picayune. He desired to correct the er-roneous rendering of his remarks, and had en promised by the representatives of these two journals, although he felt assured in ad vance that such would be the case, that the necessary corrections would be made. If. said he, an accurate report was desired, the DEMOCRAT had it.

Dr. H. Richardson proposed the following amed gentlemen for election to membership Drs. R. Sauvage, E. Dreifus, W. E. Schuppert. These gentlemen were duly elected.

Dr. Chaille proposed Dr. Eustis, of Mobile, or election as a member by invitation. Dr. Rustis was declared elected. Dr. Chaille reminded the society that members by invi-tation enjoy the rights of other members except those of voting and being elected to

Dr. Fox moved that the thanks of the asset sociation be tendered to Drs. Smythe, Schmidt ed Dawson for their courtesy towards members this morning, and that the secretary was to notify these gentlemen to that effect Carried.

Dr. Chaille stated that he had several letters from the country requesting that an attempt be made to bring the influence of the medical profession to bear upon the approaching State convention. He is chairman of a committee on State medicine, appointed by the Orleans Parish Medical Society, and he has been assisted by Drs. Bickham, Copes, Davidson, Herrick, Pratt and Henry in his

Dr. Chaille then read the report of the committee of the Orleans Parish Medical Asso iation, of which committee he is chairman. The report was prepared by lawyers of this city under the supervision of two former members of the State Supreme Court. The report proposes introducing into the State constitution an article entitled "State Medi-

constitution an article entitled "State Medicine."

The opinions of a number of eminent jurists of this city were also read.

Dr. Chaille also called attention to the fact that under the present State constitution physicians' claims are privileged only in the event of the death of a patient, but even then such claims to be valid must be recorded. In order to remedy this it was proposed to have inserted, if possible, in the expected constitution of 1879 exempting physicians' claims from the obligation of being recorded.

Dr. Bickham, a member of Dr. Chaille's committee, heartily seconded the remarks just made by that gentleman, and thought this was a most opportune moment, owing to the coming assembly of the State convention.

a resolution was moved, seconded and adopted, suspending the rules, in order to allow the election to take place at once, except in cases where objections to such proceedings might be raised.

On motion of Dr. Chalile, Dr. J. W. Dupree

on motion of Dr. Channe, Dr. J. w. Duples was nominated president.
On motion of Dr. Snell, Dr. Samuel Logan was also nominated for president.
Dr. Logan having declined in favor of Dr. Dupree, on motion of Dr. Salomon, seconded by Dr. M. Schuppert, Dr. Dupree was unani-

mously elected.
Vice presidents were elected, one for each
of the six congressional districts, as follows:
First Congressional District...Dr. G. Hays

It was then moved that the Rev. H. M. Thompson, D. D., be elected orator. On a statement made by Dr. Chaille that the orator must be either an honorary member of this society or a member by invitation, Rev. H. M. Thompson was proposed by Dr. Richardson as an honorary member, and he was then ananimously elected as honorary member and orator of the next meeting, to take place on the last Wednesday of March, 1880.

The following resolution was then passed: Resolved, That the president be authorized to appoint a committee of one to confer with the different medical societies of the cities of Texas, Alabama and Georgia in reference to forming a Southern medical association.

The chair appointed Dr. Richardson.

Before the reading of the resolution the members listened to the learned disquisition of Dr. Fox, of Plaquimine, after which the meeting adjourned.

but they did not give him time. Louis was what you might call one of the bloods. He was friendly with everybody, except with the treasurers of the different clubs, and this was attributed to the fact that he would take tickets and failed to pay for same. The result was that Louis Levy was generally unceremoniously kicked out of the different organizations.

Now Louis had been in the employ of Keiffer Brothers for years, and he was the last person they would suspect of doing anything wrong. But, nevertheless, he did do wrong, and the firm is now the loser to quite a neat little sum. They, however, did not wish to say anything about it, as Louis' father had offered to square the matter up.

The chief has, however, taken the matter in hand, and further developments are expected to-day. Suffice it is say that Louis now languishes in durance vie. belonged to all the clubs, both dramatic and

Fair Grounds.

The money brokers are anxious to discove the entire truth about the reported purchas of premium bonds by the city. The formation that can be given them on the sub ect is that by some means a large amount of that class of city securities has been bought on the market. The bonds had for some time been down to between 24 and 25 cents. In this condition of affairs it was deemed mani festly the duty of the representatives of the city to take advantage, if they could, of the ow prices to aid in getting the city out of its low prices to aid in getting the city out of its troubles. This, it is alleged, has been done, that the city has been for a long time a football for speculators, and that he or they who deprive Carondelet street of their plaything deserves credit instead of reproach. This will probably not be the last time that the same advantage will be taken by the friends of the city. Bids for pre-lum bonds will be opened to-day at the City Hall, regularly and according to the provisions of law.

A NEW ORLEANS BOY WINS AN HONOR

We are pleased to learn from an article in the Boston Herald, of the sixth instant, that at the recent annual competition for prizes in speaking at the Adams Academy, in the town of Quincy, Mass., a young man from our city carried off the highest honor. On that occacarried off the highest honor. On that occasion the Adams gold medal, for the best decialmer, was awarded, by a committee of which President Elliot, of Harvard College, was chalrman to William Cartwright Gordon, of New Orleans. Young Gordon is a son of our friend Wm. Alex. Gordon and the grandson of those old-time citizens, the inte Alex. Gordon and Dr. Cartwright. He is a very bright, intelligent youth, and gives promise of winning further distinction.

GOOD FRIDAY.

OBSERVANCE OF THE DAY IN THE CHURCHES-THE CHRIST IN ST. ALPHONSUS CHURCH

The solemn feast of Good Friday is no only hallowed by the Christian Church throughout the world as commemorative of the Lord's death, but is also observed by the suspension of business and commercial trans actions. That day is the anniversary of the death by crucifixion of one whom the Chris tian world calls the Son of God, who became man, toiled, suffered and died for the redemp tion of sinners.

The churches were in mourning yesterday; the aitars hung with funeral draperies, the darkened windows and the pale, twinkling lustre of the wax candles, impressed the one who entered those sacred edifices with a sense of mystic and involuntary sorrow.

ALMOST ALL THE CHURCHES

First, as the Senate has to consent to all the executive appointments, it ought to leave all Mr. Hayes' nominations unconfirmed until it can be seen what attitude the present Executive and Senate are in future to hold toward each other. It is not improbable that some of the functionaries kept in this State of offi-

cial chrysalis would soon change their opinions with respect to the vital necessity of keeping obnoxious statutes in force. Second, pending a solution of the questions which brought on the extra session, Concress ought to take up a bill taxing incomes above a certain amount and, in the same bill, take off from some articles of general consumption, to tax which is to tax the poor as well as the rich, an amount of revenue equal to or greater than that which it is expected to raise on incomes. Third, Congress might profitably occupy its time in re-enacting the bill for the full remonetization of silver that has been once vetoed.

But let us return to the subject spoken of above—the feast of Good Friday. The Church, in establishing its observance, wishes us to meditate upon the sufferings and death of our Saviour.

St. Augustin says that Christ suffered and died, not by a necessity deserving the greatest sympathy, but simply by His own will, by the exercise of His merefful power. He died to save mankind, and it was His wish to die, not by the violence of men, for if He had willed it He never would have suffered.

The Bangor (Me.) Whig, of a recent date, published an item concerning a law suit which was carried on by the United States government to defend the action of a Syracuse postmaster who refused to deliver a newspaper without the payment of letter postage. The case occurred during the administration of Col. William T. Teal as postmaster of this city, under President Polk, and under a law of Congress subjecting newspapers passing through the malls with writing on them to letter postage. A circulor from the Hon. Cave Johnson, of Kentucky, then Postmaster General, enjoined upon all postmasters a rigid observance of that law and a prompt compliance with the requirements of his circular on that subject. It was in the discharge of this duty by Col. Teall, and while enforcing "official" instructions from the department at Washington that the suit against him was commenced. A paper addressed to Miss. The Services at the Roman Catholic Cathedral—Archbishop Purceil to

New York, April 11.—There was a more marked secular observance of Good Friday to-day than has been noticeable in this city for years down town, and especially was this fact apparent in business on the Stock, Produce and Cotton Exchanges, which were entirely suspended, while many stores and warehouses were closed. In churches of the Roman Catholic and Episcopal faiths the greatest fast of the Christian year was observed with most impressive services. In the former the crowds of worshipers were litterally immense. Throngs of people blocked up the entrances and sidewalks in front of the buildings waiting patiently for an opportunity to obtain entrance.

At St. Patrick's the crush was tremendous. Every seat in the vast edifice was occipied and the alisles were packed with worshipers. The grand altar was draped in back and the large crucifix above it was enshrouded in purple. Vicar General Quinn celebrated the service, assisted by a number of priests. Cardinal McClockey, with his secretary, were seated within the sanctuary, among the forty acoiytes, who assisted in the services. The singing of the "Passion" was followed by a sermon, the "Passion" was followed by a sermon, the "Passion" and the "seven Last. Words" and "The Three Hours' Agony." After services the impressive ceremony of the adoration of the cross was gone through with. Mourning was stripped from the large crucifix over the altar and the candles on the altar were lit. A procession was then formed with acolytes and cross bearers, followed by the clergy, were robed in black, sang the "stabat mare purple cassock, took part in the procession. At a clock this evening the "Tenebra" was musically rendered at the Cathedral by thirty clergymen, assisted by over sixty acolytes.

Born at Naples in 1814, he arrived in this city with Adelina Pattl's father. In the following year he was in a managerial capacity with the Fry Italian Opera Company. He failed, and studied medicine and subsequently was unfortunate in mercantile speculations. In 1860 he returned to Naples in the hope of readiusting the remnants of the broken fortunes of his house. He succeeded but indifferently and returned to his wife, two sons and daughters. It appears that the father of the deceased in 1821 had loaned to the then reigning Italian Bourbon government the sum of \$265,000, which computing interest and compound interest would amount to at the present time about \$1,000,000. The midgets, lou Mite and Lucia Zarate, are to be married next week. Lucia is lifteen and weighs a trifle less than five pounds. Here face is bright but not preposessing. Mite is is bright and intelligent. It seems the marriage is one of convenience as well as supposed affection. The dwarfs belonging to different families are lisbies to be separated at any moment, it is thought best therefore to bind them by thes that cannot be broken by show managers or disagreeing parents.

Death of a Somewhat Prominent Italian.

New York, April 11.—Camilo Donnalumma, who was distinguished in his native land by the title of baron, shot himself in the head. cans had only 156 majority in the State of all.
