CASTLE POINT AND THE ELLYSIAN
FIELDN.—The delightful Pleasure Grounds at Hobokoe
have been put in complete order, and, having been much improved,
are now open to visiters. The cool and shady walks, winding for a
long distance on the banks of the majestic Hudson, ofter a pleasure,
and refreshing retreat from the hot and dusty pavements of the city.
The heights of Castle Point (which are still open in the public) command an extensive and beautiful prospect, embracing at a glance does
noble hay dotted with islands, and enlivened with vexels gliding in
every direction on its boson; the city, with its numerous spires, and
the distant hum of its busy inhabitants; while the river, whitsaed
with sails, is lost in the distance beyond the towering palisades, prosenting allogother a scene lively beyond description, and of its kind

unequaled.

By a newly opened and well shaded walk, protected from the rayse of the sun by a grove of noble toaks, visiters may descend in a few manutes to the Colonade, where, on moderate terms, are farmished refreshments of the best kind, and suitable to the senson. The ferry-boats have been comfortably refitted with awnings, &c. and leave flar-clay and Canal-streets every few minutes—the ferringe, as heretofore, 61 cents. In no other part of the world, perhaps, can so rish a treat be so easily obtained and at so trifling expense.
