## City Intelligence.

Reported for The Tribune.

POLICE OFFICE.—*Arrest of a pickpocket.*—A man named George H. Dennison, was yesterday arrested for picking the pocket of Thomas Heffernan, a Jersey City Pilot, of his pocket wallet and papers and $15 in bills, in a porter-house at the corner of Broadway and Pearl-street on Wednesday night, for which he was sent to prison.

*Stealing a watch.*—Elizabeth Scott was yesterday arrested for stealing a watch, worth $10, from John Cook, at the corner of Christopher and Greenwich streets, on the 27th ult. The pledge ticket for the watch was found in her possession, and she was committed to prison.

*An owner wanted for a watch.*—Officer McGrath yesterday arrested one of the frail females of the city, having in her possession a valuable (gentleman's) gold watch, gold guard chain and key, worth together $150, supposed to be stolen, and for which an owner is wanted at the Police Office by the above named officer.

*Rescuing a Prisoner.*—Yesterday, City Marshal J. Ramsey, with a warrant from the Ninth, Tenth and Fifteenth Ward Courts, went to arrest a man named Henry Delison for selling meat out of the market without license. On taking him into custody, Delison made a violent resistance, and Ramsey demanded assistance of another shop butcher named James F. Carlisle in order to secure him. This Carlisle not only refused to give, but encouraged Delison to resistance, and so far aided him that Delison effected his escape. Ramsey then repaired to the Police Office and made complaint of the rescue, and a warrant issuing, officers Cockefair and Stokely arrested Carlisle, who was held to bail in $1000 to answer.

CORONER'S OFFICE.—*Fatal Effects of Drunkenness.*—The Coroner on Wednesday evening, held an inquest at the City Hospital on the body of an unknown man aged 40. The deceased went into the liquor store of S. W. Berney, corner of West and Reade-streets, on Wednesday afternoon and got a glass of liquor which he drank. Soon after, a man named Abraham Miller coming in the deceased importuned him to treat him, saying he would drink a pint. After further entreaties, Miller told him if he would drink a pint, he would pay for it, which the other agreed to, and Miller then called for a pint of rum which deceased drank off at a draught, and then wanted the bar keeper to give him more, which he refused, and led him out of the house. The deceased then went and laid down on an adjoining stoop, and becoming insensible, a physician was sent for who tried him—and he was taken to the hospital at 6½ o'clock still insensible, and the stomach pump used, by which much liquor was ejected from the stomach but he died in three hours after his admission. Dr. Markoe made a post mortem examination and under his advice the jury found a verdict of death from congestion of the brain, produced by drinking a pint of liquor at a draught. If Abraham Miller be a man who ever has a serious thought we do not envy him his feelings. If not so regarded by the law, he must esteem himself but little better than a murderer.

Also at 52 Anthony street, in the rear, on the body of Josephine Bowen, a colored child, aged between 3 and 4 months, who had been unwell with a summer complaint a long time, without a physician and died on Monday evening. Verdict, died of cholera infantum.

The Coroner was also called to hold three other inquests, viz: one at the Blackwell's Island Prison on the body of a deceased female convict; the second at No. 430 Cherry-street on the body of a man who there died suddenly, and the third at 454 Water-street on the body of a German named John Hans, who committed suicide by taking arsenic. As these were not completed up to a late hour, we must necessarily defer the particulars until our next.

### Commercial and Money Matters.

*Wednesday, P. M.*

The feeling at the Stock Exchange to-day was downward, but the sales were to fair extent. Upward of 1900 shares Harlem were sold, closing at 16½, a decline of ¼ per cent. U. S. Bank declined ¼. Delaware & Hudson ¼, Mohawk ½.

The sales of State Stocks were—

| | | |
|---|---|---|
| $1,000 | Illinois Sixes, 1870 | 46⅜ |
| 1,000 | do do s10 | 46½ |
| 1,000 | do do | 46⅝ |
| 2000 | Indiana Bonds | 48½ |
| 5000 | do do s10 | 48¾ |

There sales show an advance of 1 per cent. on the Illinois Sixes, and a decline of ¼ on the Indiana Bonds.

EXCHANGE.—Foreign—Bills on London we quote at 9½ 10, which is an advance. One of the Banks is drawing at the latter rate. Bills on Paris 5.17½ a 5.20. Inland—Philadelphia 2¼ a 2½; Baltimore 1¼ a 1½; Mobile 8¼ a 8; New-Orleans 3¼ a 3½.

### New-York Markets.

ASHES—There is a very brisk demand for Pots, for export, and the market has gradually improved. The sales have been quite large, including nearly all in first hands and the market leaves off at $6 62½, which is an advance of about 50 cents since our last weekly report. Pearls have been also in fair demand, at $6, and there is now none to be had at that rate.

COFFEE—Is dull and the sales merely to supply immediate wants. They include Brazils at 10 a 11½, Laguyra 10½ a 10¾; Java, 11½; St. Domingo, 8¾c.

COTTON—The market for this article has continued quite inactive, buyers refusing to operate to any considerable extent at previous prices. The market has a tendency to droop and sales are made at a shade lower rates than last week. We quote Upland and Florida at 7¼ a 10¼; Mobile, 8 a 11; New-Orleans, 8 a 11c.

DOMESTIC GOODS—The demand for most descriptions is but moderate. Prices are without change.

FISH.—All the Dry Cod in first hands have been taken at $5 87½; large parcels are expected to arrive soon. A cargo of Mackerel has been taken at $12 50, 10 50 and 6 50 for Nos. 1, 2 and 3, which is an advance for No. 2. There is now none in first hands. No. 1 Newfoundland Salmon were sold at $21 a 22 per tierce, cash.

FLOUR AND MEAL.—The market for Western has been exceedingly dull since our last weekly report and in view of large receipts, buyers purchase sparingly, anticipating a decline in prices. There is little or no demand for export and the stock being large, the market has an evident tendency to fall off. We quote as the nominal rates—Genesee, $6 37½ a 6 50; Ohio, 6 18¾ a 6 25; Michigan 6 12½. The arrivals of Southern have been more free and sales have been made at a decline. We quote Brandywine $6 25; Georgetown and Howard-st. $6 37; Rye Flour and Corn Meal are at 3 50 a 3 62½. Both descriptions are dull.

GRAIN.—The last sale of Wheat was a lot of very superior Genesee at $1 47. There is now none in market—The market for Rye has materially declined, and sales have been moderate at 70c, delivered. Buyers are now offering only 67c a 69c. The quantity for sale is considerable. Corn has also declined, and at the low rates the sales have been to some extent. The low price of Whisky deters distillers from buying at the rates of last week. Sales of Southern at 68c a 69c, measure, delivered; Jersey at 68c, weight; Northern at 72c, weight; North Carolina White at 68c. The market is still heavy, with a tendency to go lower. The market is nearly bare of good Northern Oats, and we quote at 50c a 51c. The demand is active. Sales Southern at 43½c. A parcel of North River Barley was taken at 75c, and subsequently another at 69c. The season for this article has hardly commenced.

HOPS.—We understand small sales first sort, 1841, have been made at 15c, and that 18c is the most now demanded. The growth of this year will, it is understood, be one-third larger than in 1840.

MOLASSES—The inquiry is very moderate. We quote Trinidad Cuba at 25½ a 26; Porto Rico, 30 a 30½; New-Orleans, 27 a 28c.

OIL—There is little or no Crude Whale in first hands, and 34c would be paid for export. Linseed, though rather scarce, is in less request. Sales best American, at $1 05, cash. The stock of English is very light. A large parcel of Crude Sperm sold at New-Bedford at 93c, cash.

PROVISIONS—A moderate demand exists for Beef and Pork, without material change in rates. Holders are anxious to sell. Lard and Hams are steady. Cheese sells briskly at 6 a 7c. Butter, 16 a 20c.

SUGAR—The business is light but holders are firm. Sales Porto Rico, 6¾ a 8¼; New-Orleans, 7 a 7¼; St. Croix, 8 a 8¼; prime Cuba Muscovado, 8; white Brazil, 6¼; brown Havana, 7 a 7¼; white do., 9¼ a 10¼c.

TEAS—The sale of the Ebeu Preble's cargo was at an improvement of 3 to 5c per lb., on the Country picked. Canton made Young Hyson were stopped at 42c.

WHISKY—The prices are reduced and drudge casks are selling at 21c; good Western bbls. at 22c; State Prison 23½ a 23c.

### Sales at Auction.

☞ **Real Camphene Oil.**—WEBB'S contemplated improvement in the apparatus for manufacturing pure Camphene Oil after much study and great expense has been completed and the result is the production of an article of unequalled purity and cleanliness that will burn without gumming up the Lamps in the troublesome and filthy manner in which all interior articles will do.

If those who have been annoyed with Oil, Gas, or spurious imitation Camphene will only try Webb's genuine No. 1, they can then see the difference. For sale at 418 Broadway, corner Canal-street.

P. S. Webb's Camphene is as safe as oil; will not soil the richest dress; will not crust the wick; will light a large room at a cost of one cent an hour.

POSTSCRIPT.

The second edition of "WEBB'S PATENT CAMPHENE BURNERS" will be issued and continue to be issued on and after this day, and if ever a Light deserved the attention of the public it is that which is produced by this NEWLY IMPROVED RADIATING BURNER, the construction and operation of which is entirely novel and according to the true philosophical principle of radiating light—the brilliancy of light produced and the convenience of the new Burner has never been EQUALLED; the CHEAPNESS and SIMPLICITY of its operation has nothing to match it; the NEATNESS of its appearance will be seen at a glance and its whole combination of neatness, convenience, cheapness, safety and unequalled brilliancy offers great advantage to the public than any other light ever before introduced into this country. Samples of the new improvement may be seen in full operation every evening from this date at the Emporium of Light, cor. Broadway and Canal-street. (2) s28 tf

DUCKLIN'S PATENT RAILWAY COOKING STOVE, for wood or coal, is introduced into this city in the spring of 1839, since which time the sale in this city and elsewhere has been very great. It possesses a great advantage over most other Stoves in the size of the oven, which is capable of baking six large loaves of bread in the best manner, with as little fuel and in as short time as any other Stove. By a simple movement of the Stove, the fire may be moved 14 inches nearer to or farther from the oven, thereby increasing or diminishing the heat. The Stove has four boiler holes, and is capable of doing as much work as any other ever offered to the Public.

A general assortment of Stoves, Hollow Ware, Stove Pipe, &c. &c. constantly on hand

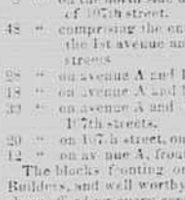
PROF. OLMSTED'S PATENT STOVES,



For HALLS, PARLORS, CHAMBERS, CHURCHES & NURSERIES.—*The most economical Stove ever made.*—As the season for procuring stoves is near at hand, the proprietor calls the attention of those in want of a good article to the Olmsted Patent Stove. These stoves have for the last five or six years been before the public, and are generally too well known to require much to be said in their favor. Our Stoves are made of the best material and in the most ornamental style.

The proprietor would caution the public about the many Stoves made in imitation of the Olmsted Stove, but differing in the most essential parts, and would recommend to all in want to call and examine his assortment, which are not surpassed in point of beauty or utility, and will be found to be as cheap as at any other establishment.

All kinds of stove work solicited and attended to with promptness. JAMES E. P. DEAN, 210 Water-st. s22 eod tf
