THE TRIBUNE.

Temperance Hotels.

Mr. Editor: A resolution was introduced at the "Saratoga Convention" by the Rev. John Marsh, and advocated by him, enjoining upon Temperance men the propriety of giving their support to Temperance Hotels.

In view of this state of things, a circumstance is mentioned to-day which, if true, is matter of astonishment, as well as of deep regret. It is said that the Committee of Arrangements for Wednesday next, have thought it necessary to provide for them at the Astor House.

Mr. Editor, I submit these hints as freshening the public feeling on this subject, and hope the Committee will see the necessity of consulting the sense of the community in the matter.

ASSOCIATION: Or, Principles of a True Organization of Society.

The Editorship of this column is distinct from that of The Tribune. Address letters, post paid, to A. BARNARD.

We intend to enter, in a day or two, upon the description of the practical organization of Association; we shall explain the various difficulties, which, if not carefully explained, will be a source of error to the Association.

We are in constant receipt of letters, inquiring when a first Association will be commenced, and where it will be held. The first question, we cannot answer, but we hope, and with some confidence, that our doctrine spreads as rapidly as it has done since the Tribune has been open to it.

We are in constant receipt of letters, inquiring when a first Association will be commenced, and where it will be held. The first question, we cannot answer, but we hope, and with some confidence, that our doctrine spreads as rapidly as it has done since the Tribune has been open to it.

Why do we advocate Association? This question is often asked in sincerity by those who can realize that Man may labor and struggle for something else than personal aggrandizement or the gratification of his own appetites.

Because we hold that self-evident that every human Being, who is willing to labor, should be enabled to find Employment and to receive for his work at least what is necessary to his Wants—Food, Lodging, Clothing, &c., which are not secured to him by the present Order of things.

Because we hold that every Child ought to receive a good, thorough, practical and scientific Education, and thus be fitted to pass through life usefully, respectfully and happily.

Because we hold that Man was not designed for a merely animal, but for a rational, intellectual and moral Existence. He possesses vast faculties which ought to be developed and trained, but which, in nine-tenths of the Race, are stunted and stilled in the present Order of Society.
