Mr. Wheeler spoke to large and attentive audience. There were not a empty scats in the large hall. I want you to know what a terrible tax Free-Trade has been to us." Reference was made to Charles F. Peck's report; it drew forth a storm of applause. Then followed pictures of McKinley and Blaine, which were cheered time after time. There were present a few bolsterous Free-Traders. They beam early in the evening to ask questions. Mr. Wheeler answered them all in such an effective manner that they stopped asking questions and tried to break up the meeting. Mr. Wheeler took it all good naturedly and finally put even the ruffians in a good humor. Americans have sent \$300,-

THE PEESECUTION OF MR. PECK.

AN INDICTMENT SECURED ON THE IDENTICAL GROUNDS ON WHICH HE IS NOW AWAIT-ING A HEARING.

Sept. 21 (Special) .- Albany County's Mugwamp District Attorney, James W. Eaton, pending on examination of Charles F. Peck, Commissioner of abor Statistics, on charges of destroying official secords of his office, succeeded to-day in securing an ndictment of Mr. Peck by the Grand Jury on dentically the same charges. The proceeding is an extraordinary one, and was instituted purely persecution. It is the plan, under the direction of the National Democratic Committee, to arrest Mr. Peck at such a time that he cannot be taken before competent judge to be admitted to ball, and therefore will have to be lodged in Jall Mr. Pe in New-York to-day, when the scaled indictment against him was handed into the Court of County sessions, Justice Louis Griffith, of Troy, immediately an officer was dispatched to New-York n quest of Mr. Peck, with instructions, if for reach here in the middle of the night. Edward Mr. Fech's counsel, telegraphed his client ity so as to be in court to morrow morning at 10 clock to answer it. Then Mr. Meegan notified

the District Attorney that Mr. Pesk would be in court to morrow morning

This continued persecution is having its effect upon the Hill Democrats, particularly, and upon other large of the Hi Democrats who think the matter is being carried too It is argued that if these prosecutors were far. It is argued that if these prosecutors were honest in their endeavors, they would allow the law to take its course, the action heretafore begun being competent to establish the guilt or innocence of Mr. Perk. Na charges have been lodged with lovernor Flower yet, but some are being prepared

Governor Flower yet, but some are being prepared by the Magnump Demograte.

Senator Hill's following are in a had temper over the whole affair, and some go so far as to assert that the Magnumps are purposely persecuting Mr. Peck to drive the Hill Demograts out of the party. The assertion made at Chicago that they could win without any favors from the Hill men and without New York State, have been reterrated here upon everal occasions of late. All of which is very consoling to a large number of voters who have never tolted a Demogratic nomination.

She is the natural daughter of old Thomas Blythe. What established the daughter's claim in court was the production of many letters, written by Blythe, in which he sent presents to the child, and several in which he discussed plans for bringing her to san Francisco. The estate was claimed by over 100 people. Florence will get it all should the Supreme Court affirm the decision of the lower court, as it is likely to do.

possibility of curing the cholera. People that are cured don't have the cholera; people that have the cholera don't get cured—they die. That's all there is to it. Every case of suspected cholera is not cholera. This theory is well berne out by the contents of a book that I found in the Congressional Library at Washington some years ago. It is a narrative of the experiences of an Eughsh Army surgeon in Constantinople during a cholera visitation. The author says there were two large hospitals in the city—one conducted by the Turks and one by the English. In the Turkish hospital the patients were treated according to the formula of fatallam; they got no medicine—nothing but a cup of water containing a slip of the Koran. The Turks believe that if a man is destined to die he can't be killed. In the English hospital the patients received the regular allopathle treatment, from calmel to quinine. Every sick man was allowed to determine which kind of treatment he preferred. At the end of the plague it was found that the percentage of recoveries had been as great in the Turkish as in the English hospital. And so I contend that in each hospital the recoveries were not cholera cases, while the deaths were." possibility of curing the cholera. People that are the recoveries were not cholera cases, while

FORTRESS MONROE EXCITED OVER A PEREMPTOR

Monroe, Va., says: The citizens on the Government reservation at Fortress Monroe, Va., have been thrown of a general order signed by the Secretary of War, peremptorily directing that every house, inclu Hygela and Chamberlain's new hotel, be vacated within fifteen days time, from the time of the issuing of the order, which is dated September 14, and further ordering the removal and tearing down of all buildings at the owners' expense. The Act of Congress dated March, 1868, gives the Secretary full power in this matter.
The order is issued, it is understood, because of the

failure of citizens having residences and hotels on the reservation to comply with the request from the Engineers' Department that plans and specifications for a proper sewerage in the citizens' quarters at the fort be handed into the department. This is due to the unsettled condition of the Hotel Chamberlain, which is included in this order.

which is included in this order.

There is property on the spot worth from \$4,000,000 to \$5,000,000, with great interests held by milronds and other transportation companies, and there is no doubt that a strong pressure will be brought upon the secretary to have him modify his order, which, if carried out, would be disastrous to the whole vicinity, including, Norfolk, Hampion, Newport News, etc.
