#### THE DAY'S OPERATIONS IN STOCKS.

The stock market was active and fairly strong yesterday. The fluctuations were less violent than in preceding days, but it remained, nevertheless, what the professional element terms a good trading market. Union Pacific was the chief feature. It was bought on a liberal scale until toward the close, when realizing sales caused a slump and dragged down some other stocks. The buying of Union Pacific was based on the belief that the settlement of the contest over the Northern Pacific Railroad insured permanent protection of the interests of the Union Pacific, as well as practically guaranteeing harmony among the transcontinental and granger lines. There was a report that control of the Chicago Great Western Line was sought In order to include it in the community of interest that has been established in the larger Western systems. This report induced purchases of the Chicago Great Western issues. The absorption of St. Paul continued, and was construed as in a degree proof that a deal in the property was advancing. It is intimated that St. Paul will not long remain an independent line. Receipts of Klondike gold in New-York this

week have been about \$750,000, and one consignee has been apprised that it will receive \$1,500,000 in the course of a few days. These ots of gold, with others to follow, will be an Important contribution to the money supply, and they will likewise facilitate preparations later for moving the crops. Call money is certain to be easy for the next three or four weeks at least, which accounts for the current light demand for time money. Rates for time loans are determined by anticipation of future reguirements rather than by present conditions. The bank statement to-day will doubtless be a Di very favorable one. The gain in cash by the banks is estimated at \$6,000,000 or more. The | Statement probably will show a considerable contraction in loans. The extensive liquidation at the close of last week and in the first part of the present week has not been offset by the expansion in stock accounts since. From this source alone, therefore, through a reduction in deposits, there will be a material enlargement in the surplus reserve. The addition to the reserve of the cash gained by the banks ought to make the total increase in the reserve as great, if not greater, than it was last week. The banks are plainly in a position readily to meet any demands that may be made upon them. The advices as to the crops were reasonably satisfactory. There were additional rains in state of the considerable and th statement probably will show a considerable

satisfactory. There were additional rains in some sections, while the heat was nowhere extreme. No further damage had been done anywhere to the crops, whereas not a little improvement had been noted in the areas about which the most apprehension had been felt. From the information received the conclusion was reached that, after all, the yield of corn would not fell for short of an average crop. was reached that, after all, the yield of con-would not fall far short of an average crop. For another thing, it was shown that there was no need for alarm about the wheat which is as yet unharvested. The strike news, too, appeared less forbidding. It was said the outlook for a termination of the steel workers' strike was better than at any time yet. This opinion was derived evidently from the fact that compara-tive quiet prevailed at the points where the strike was in force and that neither side was strike was in force and that heither side was taking any steps which would seriously interfere with a reopening of negotiations for an adjustment of differences, although Mr. Morgan's brief but emphatic statement indicated that there were some things for which the steel companies would stand out. The end of the trouble in the anthracite coal region was believed to be in eight

WALL STREET AND EXCHANGES.

FOREIGN TRADING.-London was not active in this market. It was a seller to a moderate extent, and appeared to be less bearish on the United States Steel stocks.

STOCK LOANS.-Stock loan quotations were: Atchison common and preferred, Chicago, Burlington and Quincy, People's Gas, Southern Pacific, Wabash preferred, General Electric, Missouri Pa-cific, New-York Central, Northwestern, Amalgamated Copper, Northern Pacific preferred, Reading first preferred, Rock Island, St. Paul, Sugar, Union Pacific common and preferred, Erie common and first preferred, Manhattan, United States Leather preferred, Brooklyn Rapid Transit, Delaware and Hudson, Tennessee Coal and Iron, Western Union, Southern Railway preferred, Louisville and Nashville, Baltimore and Ohio common, United States Steel common and preferred, 3.

SOUTHERN PACIFIC.-Southern Pacific was advanced in the early trading by pool buying, accompanied by talk of a dividend at the rate of 3 per cent. While the earnings of the company would permit of a dividend, it is doubted if one will be declared immediately.

AMERICAN MALTING.-The American Malting Company soon will complete its fiscal year. It is said that the operations will show profits suf-ficient to pay the interest on the bonds, with a small surplus. A committee appointed for the pur-pose has in hand the matter of readjustment of the company's capitalization. An inspection of the company's plants is now in progress.

GREAT NORTHERN.—Of the \$26,000,000 additional stock which the Great Northern Railway ditional stock which the Great Northern Railway has applied to have listed on the New-York Stock Exchange, \$25,000,000 was subscribed for under the circular issued to stockholders in April, and \$1,000,000 was taken by employes of the company.

BURLINGTON AND QUINCY.—It is announced

National Starch Deb...,
N. J. Steamboat.
N. J

the Northern Pacific and Great Northern roads been turned over to the new owners. Burlington and Quincy purchase bonds will be issued about August 1.

UNION PACIFIC.-Upward of \$8,000,000 of Union Pacific convertible 4 per cent bonds have been exchanged for common stock.

SUGAR REFINING.—Much of the buying of Sugar Refining was said to be for people in the sugar trade.

PACIFIC COAST SUGAR WAR.—Representatives of the American Beet Sugar Company in New-York say they do not think the fight between Claus Spreckels and the Oxnard interests will affect the trade in this part of the country. UNITED STATES STEEL .- The stocks of the

United States Steel Corporation were steady on the belief that the strike of the steel workers would not be of long duration, and that the un-derwriting syndicate would furnish support if nec-NEW EQUIPMENT .- "The Railroad Gazette" re-

ports new equipment as follows: "The Chicago Great Western has ordered twenty locomotives from the American Locomotive Company. The Nashville Street Rallway will buy twenty closed cars. The Intercolonial, of Canada, has ordered 250 box cars. The Columbus, London and Springfield and the Columbus, Buckeye, Lake and Newark have ordered sixteen motor cars."

FRISCO BONDS .- To-day, July 20, is the last day for the deposit of Frisco bonds under the funding plan. No further extension of time will be granted by the syndicate managers.

#### THE STATE OF TRADE.

"Bradstreet's" in its issue to-day will say:

"Bradstreet's" in its issue to-day will say:

Heat, drouth and strikes have furnished their quota of disturbing influences this week, but despite these a fair volume of business goes forward, and nearly all markets have taken the developments of the week (all of which, by the way, have not been unfavorable) calmly and even cheerfully. While only scattered rains are reported in the worst afflicted sections of the corn belt, and much more rain is needed if damage is to be repaired, the rest of the country reports a fair amount of moisture, and the South Atlantic, the Central Western and the Northwestern States return more favorable advices than a week ago, both as regards the crop outlook and the business doing. The great steel strike, closely followed by the tieup of hard coal miners by a few mine firemen, has resulted in the greatest suspension of labor reported for some years past, but it is to be borne in mind that this season is the natural one for vacations, and nothing like the maximum number of men reported on strike is thought to be out. Fair estimates place the number of men actually striking in the steel trade at less than 50,000, and the number of idle coal miners will not equal this amount. On the other hand, the machinists' strike has shown signs of disintegration, and is generally conceded to have been a failure.

TRADE IN CHICAGO. Chicago, July 19 (Special).—Those who have be-alking 60 cent corn do not look so radical. The

CHICAGO TERMINAL TRANSPER

h of May-r of miles..... earnings and

alking 60 cent corn do not look so ranger. The eptember touched 54c to-day and the May 57c. rices made an advance of 1½c to 2c, and the close as not much under the top. September opener om 521/4c to 531/4c, sold between 521/4c and 54c, and losed at 53%c; the December closed at 54c; the lay closed at 55%c. after selling at 55%c. Weather onditions were the influence. The official may howed a good rain at Wichita, Kan., but practically no rain anywhere else and higher temperature. ures everywhere. The forecast for Saturday game of comfort—heat and drouth indicated. Snow dded to the bull excitement by declaring rains is lissouri, Kansas, Texas and Arkansas, about one uarter of the corn belt, would only improve the rass and fodder. He added the drouth area was pproaching the great drouth of 1894. There was at corn trade, with the short seller pract liminated. There was taking of profits, but line ere not more than sold out before they were reere not more than som out before they were he estated. The West kept up its huying. There was nore bullishness on the part of the great cash is hore bullishness on the part of the great cash herests, as if they had begun to follow the lead of the West. Primary receipts were 200,000 bushels ess than last year. Liverpool %d higher. Clearances were 335,000 bushels; clearances for the week, they were the week. 700,000 bushels. The weather map looks as if the cent scattered showers were all the relief the orn belt was to have at present, and every one sumes it inadequate.

The oats advance was as big as the corn; the ade just as large. The July sold up to the Sepember, gaining 2%c; it closed at 34%c; the Se-ember closed at 34%; May touched 374c and close t 37c. The only cash business is with the West ne order of things being reversed. New-Mexico ught oats here, so did Kansas City. There was a ale of 10,000 bushels white to go West at 6c over September. Receipts were 79 cars; the estimate to-morrow 110 cars. It begins to look as if, bedide the help of the drouth losses, there was some cowerful bull influence in the market. A few comission concerns, McReynolds, Schwartz, Dupes nd others, have been operating on a long side on scale to suggest some rich buyer. Snow says the at crop is to be small and poor. The weather may

oat crop is to be small and poor. The weather may
was the principal motive.

Wheat gained ic and held it. Shorts were upset
by the excitement in the coarse grain and by the
sise in temoeratures in the Northwest. St. Loui
rovered; local bears did the same. September
uppened from 68½ to 68% c. sold between 67% and
9½ c. and closed at 68c; December closed at 70%
devices as to crop damage in the Northwest are
conflicting. Snow declares it unimportant. Shipping
ales, 25,000 bushels. The seaboard reported 70
oads.

Daus.

Provisions about held their own, to-night's price the same as Thursday's. Cudahy buying of January lard continues a feature. A Cudahy bull campaign in lard is evidently contemplated.

financial.
