SUICIDE TOLD SAD STORY.

DIED AFTER ELOPEMENT.

Man Who Hanged Himself Said To Be W. A. King, of Augusta.

The suicide who hanged himself at Mamaroneck last Friday is supposed to be William A. King, of Augusta, Ga., son of a wealthy manufacturer.

According to Mrs. George E. Jardine, wife of an architect, who lives at Rye Park, who identified the body yesterday, young King eloped from Augusta with the daughter of a merchant of that city and came to New-York to seek his fortune. Being unable to find employment and provide for his wife, King abandoned her, and, becoming discouraged because his parents had disowned him, he took his life.

Mrs. Jardine's son, James, corroborated his mother's identification last night. The Jardines are well known in social circles along the Sound. They live in a large house in Rye Park and are known as philanthropists. Mrs. Jardine last night told the following story of King's elopement and final destination:

"While I was sitting on the stoop on Tuesday afternoon," said Mrs. Jardine, "I saw a young man coming through the rain toward me. He walked up to the porch and asked permission to sit down until the storm abated. He looked haggard and weak. While his clothes were a little the worse for wear, still he bore traces of refinement. His every movement signified that he came from a good family.

"At first he was inclined to be reticent about himself, but after I asked him into the house to have something to eat he became more talkative. From his pocket he brought a card bearing the name 'William A. King, Augusta, Ga.'"

"That's my name, and I'm the son of a millionaire, although I don't look it," he said. "My father is at the head of the King Cotton Mills of that city. I had been attending college, and while there I fell in love with one of the most beautiful girls in the South. Our love for each other grew stronger, and my parents objected, because I was only twenty. I tried to forget the one I loved, but it was impossible. Finally we ran away and married. Then my parents disowned me. I tried in vain to get their forgiveness.

"My wife and I had very little money, but we managed to scrape enough together to bring us to New-York, where I sought employment. I tried to earn enough to support us both. We lived for a time together, until things became so bad that we were obliged to part for want of funds. My wife went back South. I tried to brave it out in the city and make a living, but it was of no use. Things went against me, and I left the Young Men's Christian Association, where I had stayed, and started to walk to the Berkshires, where my mother and sister are staying. I am confident they will forgive me, if I ever reach them."

"The young man's story interested me," continued Mrs. Jardine, "and I questioned him very closely as to Augusta, and as to his troubles. The more I did the more I became convinced that he was telling the truth. He was so frank and open in his admissions that my son took an interest in him and also questioned him as to his movements in New-York."

"King told me he had spent his last dollar, and the look that came over his face as he said 'I shall never forget it. It occurred to me then that my mother, who is always desirous of doing some good in the world, had left a \$5 bill to be spent on some worthy person. I decided to give it to King. He was profuse in his thanks, and his eyes sparkled as he looked at the money."

"The young man's shoes, a pair of russets, were badly worn out, so he suggested buying a new pair, and also having his clothes pressed, as he wanted to make an impression with his mother when he reached her. He spoke highly of his parents, and never blamed them for their action."

"King told King where he could and a tailor, and after the storm had quieted down he again thanked me and left."

Mrs. Jardine was positive, when she viewed the body in King's morgue, that it was that of the young man supposed to be William A. King. King was dressed in a square cut blue serge suit of good material. He wore a new pair of russet shoes, which had been bought in New-York before taking his life. There were no cards or letters found in his clothes that would lead to his identification. King had on one shoe a small tag, which had been pinned to it by W. W. Caswell, a wealthy New-Yorker, who lives on Quaker Ridge, Mamaroneck. Mr. Caswell's name was found sewed on the inside of the shoe.

Pockwell called at King's last night and identified the clothes as having once belonged to him. He said that in October, 1903, he gave King a suit of clothes, and on January 1, 1904, the butler left Mr. Caswell's employ, and since then he had not seen either the butler or clothes. The suit bore a pawnbroker's number, "304," which had been pinned to it by W. W. Caswell, a wealthy New-Yorker, who lives on Quaker Ridge, Mamaroneck. Mr. Caswell's name was found sewed on the inside of the shoe.

King's body will be kept until Tuesday, and in the mean time Coroner Wiesendanger will try and find his parents.

[By Telegram to the Tribune.]

Augusta, Ga., Sept. 16.—Nothing is known here of the William A. King who killed himself at Mamaroneck. Members of the wealthy King family, which is largely interested in cotton mills, say they have no such relative, and efforts to identify him with other Kings in the city directory for many years back revealed no such name as William A. King.
