

See the OLIVER in Action!

Oliver Typewriter Agencies are Everywhere

Ask the One Nearest You for a Free Demonstration of Oliver Innovations

The Oliver Typewriter is an invaluable aid to Industry and Trade, but a terror to Competitors.

You have heard of the splendid new Oliver Model No. 5, with its many important innovations—but have you seen the machine *in action*?

It's the test of *real work* that tells why *Oliver* No. 5 sells faster than any other typewriter on the market today.

Just as a battleship goes into action with decks cleared, so goes the *Oliver*—stripped of all useless parts.

It has hundreds of parts less than its competitors.

Do you wonder that the Oliver's battery of keys operates with the *lightest touch* of any typewriter made.

The *simplicity* of its printing mechanism and the fact that it *writes in sight*, give the Oliver a speed capacity far beyond the limit of any possible business requirement.

Write or telephone the nearest Oliver Agency for a *Free Demonstration*

of the Oliver in your office, and we promise you the most astonishing exhibition of *speed, accuracy, versatility and high efficiency* which any typewriter in existence is capable of giving.

—See the *Oliver Vertical and Horizontal Line Ruling Device*, for tabulation, billing and statement work.

—See the *Oliver Disappearing Indicator*—the only infallible guide to the exact printing point on any typewriter.

—See the *Oliver Automatic Paper Register*, which insures perfect register on any width of paper.

—See the *Oliver Balance Shifting Mechanism*, which lightens the work of shift-keys 50 per cent.

—See the *Oliver Anti-Vibration Base*, which *absorbs* all vibration.

And remember, too, that these are simply a few of the *new features*, added to the already long list of advantages found *exclusively* on the Oliver.

The ——— **OLIVER** Typewriter

The Standard Visible Writer

Enters into all the complex operations of modern business. Its usefulness is not confined to general correspondence and manuscript work, but it is equally valuable for billing and invoicing, for card index work, for a thousand and one special purposes. It handles large insurance forms, waybills, etc., with the same ease that it does a blank of the size of a postage stamp. It writes in colors. It prints as high as 20 clear carbons at a time. If more copies are desired, it cuts a mimeograph stencil that will yield unlimited duplicates.

The Oliver is conceded to be the most indispensable piece of modern

office machinery that inventive genius has yet produced. Write for Art Catalog.

We Are Looking For a Young Man

to fill an important position in the Oliver Organization. Integrity, Energy and Ability more important than business experience. To a man of the right calibre, we offer a **FREE COURSE IN THE OLIVER SCHOOL OF PRACTICAL SALESMANSHIP**—all expenses paid by this Company and a position that will enable you to earn a handsome salary. It is a most unusual opportunity to get into the typewriter business. If you feel that you can fill the requirements, do not hesitate, but *write at once*. Full particulars by return mail together with free copy of a very interesting book, "*The Rise of the Local Agent*."
