

Down at Red Bank, over on the Jersey side, Jack Frost's athletic sons are having a regular feast of winter sports—skating, ice-boating, fishing through the ice—and here's the latest, an auto vs. ice boat. Our picture shows W. O. Hoffman's motorcar crossing the icy finish line just ahead of one of Red Bank's prize winter yachts, after a snappy and exciting race over the frozen Shrewsbury. Underwood

The latest fashion decree in millinery for busy mothers, a baby hat of soft white goatskin that is quite the vogue with the Barolong tribe in South Africa. How long could you balance such a babycoachbonnet atop your cranium? Underwood

Eliminating the middleman. The high cost of bottles and the New York milk situation don't worry this Cuban mother a bit. Baby is hungry and cries for dinner; mother backs "Nanny" into the dining room and connects said youngster's alimentary canal direct with the source of supply—and in this case it's the ideal baby food, goat's milk. The largest safety razor in the world (it happens to be a Gillette) is successfully tried out at the San Francisco stockyards sheep barber shop. The ba-baas are lathered, talcumed and witch hazeled in the latest approved tonsorial fashion. Underwood

Left—John Meldrum, the wonderful blind pianist who recently made a most successful debut at Aeolian Hall—a pupil of Godowsky and Mme. Lichtman and a direct descendant of Daniel Webster.

Who says nobody loves a fat man? Little Marie Covina, of Everett, Mass., thinks her six-year-old uncle, who weighs 214 pounds, is some pumpkins. Pompa Giantonio, latest contender for the world's heavy-weight championship, eats more in a day than his pa and ma do in three. You'd have bow legs, too, if you had to carry Pompa's load. Underwood

The Health of Your Family

Many cases of serious illness have been traced directly to an unsanitary Refrigerator. A damp and poorly ventilated Refrigerator is a direct invitation to disease.

Can you afford to take this chance with the health of your family, and discover the trouble too late?

Reputation does not make a good Refrigerator, but a good Refrigerator makes reputation. That is why the

BOHN SYPHON REFRIGERATOR

is universally acclaimed throughout the civilized world as the highest perfection of the art of refrigeration.

Ask any railroad company, practically every one of which uses the Bohn Syphon System for its Refrigerator cars; and every dining car in the land, without exception, has a Bohn Syphon.

Ask the big hospitals and sanatoria, who ought to know what a real Refrigerator means.

Ask tens of thousands of the leading families of the United States.

The Bohn keeps as dry as a chip, food flavors and odors do not mix, and the food comes out as clean and pure as it went in, and very cold.

Despite advancing costs of manufacture, we are offering (for this month only) SPECIAL DISCOUNTS. On a small deposit we will hold any refrigerator for future delivery. If you cannot call, write or phone for catalog.
