DOZEN MUTINEERS IN QUOD. THE COOK AND THE MESSBOY HELP WORK THE CAMPERDOWN IN.

Firemen and Seamen on Strike -Wanted the Captain to Put In to Norfolk After the Steamship Grounded and Came Off -Man From Massachusetts, Heads the List.

The British tramp steamship Camperdown, which anchored off Liberty Island yesterday morning, had a mutiny aboard. She was manned chiefly by men who speak English with a foreign accent or a brogue. Capt. John Smith, the skipper, is inclined to attribute the vicissitudes of his trip partly to the mixed

The Camperdown left Mantanzas for New York on Feb. 28. In a fog on March & at 5 A. M., she grounded on the shoals of Cape Lookout, North Carolina. She stuck there until 10:30 P. M. on Wednesday last, when she backed off without help. Capt. Smith had ettisoned a part of his cargo from the forward hatch and thus lightened her where her keel was held by the mud and sand. She was within a cable's length of deep water and soon backed into it and anchored. The engi-

soon backed into it and anchored. The engineers examined her inner hull and found that she was leaking very little.

The skipper noted that her six able seamen and six firemen were sulky. Some sea lawyer among them had persuaded them that the ship was not in good condition. At 1 A. M., according to the log, on Thursday the skipper ordered all hands to turn to and prepare to get the ship under way.

ordered all hands to turn to and prepare to get the ship under way.

All hands from the forecastle refused duty. They went to the skipper in a body and asked him what he intended to do. He answered that he proposed to take his ship to New York, as she appeared to be sound and her engines were working all right.

A spokesman for the men said:

"We don't want to risk our lives in her."

The skipper answered.

The skipper answered:

"It I find that she is leaking more than she ought to I will put into Norfolk. All those who are willing to stand by step over on my side of the ship."

There was no movement among the twelve men. The skipper then ordered the mate to heave up the anchor. The men slowly filed into the forecastle and discussed the situation in several dialects.

filed into the forecastle and discussed the situation in several dialects.

The Camperdown was under way in half an hour, heading for Sandy Hook. The cook, the messley and the second mate assisted the engineers in stoking, and the mate and captain took turns in steering and keeping lookout. The ship proceeded at about half speed. At 8 A. M. on Thursday the skipper called the men on deck and said.

"Do you intend to stay in the fo'c's'le all the way to New York?"

The sea lawyer of the mutineers answered: "Yes. But we will turn to if you put into Nortelk."

"If you do not turn to now, "said the skipper."

If you do not turn to now, said the skipper, "I will allow no provisions to be served to you."

The sail hands went forward without uttering a sound. They subsisted on hard tack and got water without trouble.

The Camperdown anchored in the fog off Sandy Hock at 8 o'clock on Saturday night. The skipper called the mutineers on deck at 8 o'clock yesterday morning and read the ship's log, embodying what is related here, to them. He asked them if they had any reply to make to the statements in the log and one of them answered that they had nothing to say then, but that they might have something to say when they were taken before the British tonsul.

The skipper then came up to Quarantine, and, after his ship had been passed by the Customs and Health officers, he went ashore and telephoned to Folice Headquarters that he wanted the mutineers arrested. The police boat went alongside the Camperdown off Liberty Island and took off the prisoners, none of whom had been in irons. They said they had refused duty because they believed the Camperdown was unseaworthy. She is a steel single screw of 1,829 tons measured and is only three years old.

The mutineers were locked up in the Church street police station. They will be arraigned before a I nited States Commissioner this morning, their names and nationalities follow:

and engaged a room. After they had been in bed half an hour Freddle woke up with an unbearable thirst. He got up, lighted the gas and punched the button, but no one responded. The Michigan lumber king was in the other bed shaking the walls of the building. Freddie punched the bell several times more and then determined to go in search of something quenching. As he was about to leave the room he noticed the Michigan lumber king's diamond blazing in his shirt. Freddie thought it was too bad that such a precious stone should remain so exposed when all the hotel servants had pass keys. So he carefully unscrewed the gem and screwed it again in the inside of the lumber king's hat crown.

Then, according to Freddie's story, he went out and for several hours wandered up and down miles of dimiy lighted hall-, clad only in a few simple underclothes. Finally, after descending his fiftieth flight of stairs, he came to a very large, brilliantly lighted room, something like a dining room The room was crowded with people -waiters, porters, newsboys, chamber maids, bellboys reporters, elevator boys, night watchmen, bootblacks, hotel clerks, scrubwomen, policemen-and in the centre of the throng. mounted on a chair, was the Michigan lumber king giving a detailed description of

Miss Alice A. Holmes, 80 years old, a blind poetess boarding at 117 Wayne street, versey City, was sitting in her room Saturday afternoon when David Wright, a nephew, 41 years old, of whom she is exceedingly fond, tered the room with William Hutton of 165 Fairview avenue.

"Aunt Alice," said Wright, "this is Detective John Clos. I'm in trouble, but I can get out of it if you'll give me \$5. Chief of Police Murphy was good enough to send Clos up with me because he didn't want me to go to jail."

Hutton, who has served terms in State prison for horse stealing and snatching a pocket book, did not deny that he was in the police business and the blind poetess promptly advanced the \$5.

Samuel Wright, another nephew, overheard a part of the conversation and sent to

This closing of the bridges was in the nature of a reprisal by the company because the authorities of Essex and Hudson counties would not agree to join in the expense of rebuilding the bridges. The railroad company controls the plank road and ferry company, whose charter was nullified by the courts of New Jersey last week. The road was patronized largely by Newark manufacturers, expressmen, brewers and bakers for transporting goods to Jersey City and New York and the closing of the road will be a great inconvenience to them, especially as the only other thoroughfare between the two cities is in an almost impassable condition. A committee representing Newark manufacturers has already engaged counsel to compel the two counties to assume control of and maintain the road.

Haas Celebrated Yesterday. Mr. and Mrs. Leopold Hans colebrated their golden wedding last evening attheir home, 67 University place, and received congratulations in person from nine of their ten children, all of their twenty-four grandchildren and from about 150 of their friends. The banquet board was covered with floral pieces and the mantel was filled with gold and silver gifts. Chief among these was a gold loving cup, the gift of the twenty-four grand-children. Julius I. Haas, the eldest grandson, made the presentation speech, to which Mr. Haas responded with an address of welcome to the guests. A feature of the evening was the crowning of Mrs. Haas with the golden wreath of love by Miss Tessie Preiss, the eldest grandaughter. The Rev. Dr. M. Kranskopf and the Rev. Dr. Rosenthal responded to toasts, and Rudolph Haas, another grandson, recited an original poem written for the occasion.

AVALANCHE OF FOREIGN MAIL. Hardiv Room in the Post Office for the Clerks to Get About.

The General Post Office was fairly swamped with mail yesterday. The entire force of clerks working overtime seemed to make but little headway on the immense accumulation. The principal cause of the congestion was the enormous mail that arrived early yesterday morning on the steamers Germanic Umbria and St. Louis. The Germanic carried 1,730 bags, the Umbria 1,300 and the St Louis 169 all of which reached the Post Office about the same time. Last week the clerks worked

In the gathering were representatives of the German Hospital Society, the Eastern District Turn Verein, the German Savings Bank, the Arion Singing Society. Rankin Post, G. A. R., the Twentieth Regiment, New York Volunteers, and the Loyal Legion. There was a profusion of flowers. Former Judge Charles J. Nacher delivered the funeral oration. He spoke in German. He said he and Col. Rochr had made a compact years ago that the survivor was to make an address at the funeral of the one that died first. He said that explained his making the address. He spoke of Col. Rochr as a patriot, soldier, journalist and business man, and said that his success in life was due to his honest dealings with men.

The Arion Singing Society then sang a funeral anthem, which was followed by an address in English by Lawyer George H. Fisher. Jacob Grammer, editor-in-chief of the Brooklyn Freie Press, spoke of Col. Rochr's work in the newspaper office. He said every man in the office, from pressman to editor, loved him and revered his memory. Col. J. Henry Storey, the new deputy surveyor, had thirty-one inspectors to examine the baggage of 292 cabin passengers. Friends of the tourists were admitted to the piers, but not within the roped enclosure where the passengers were landed and the baggage was inspected. The rope was stretched lengthwise of the pier and the larger space. about two-thirds of the width of the pier, was used by the inspectors and passengers. Visitors who wanted to greet their friends had to shake hands over the rope.

Some of the St. Louis passengers said they that the former employees through a Minneapolis afterney received notice to the effect that if they would call at his office and establish their identity as the person Mr. Gibson presumed him or her to be, the wages for the month or ten days would be forthcoming with interest at the rate of 7 per cent.

It was not possible for Mr. Gibson to pay all the back wages due, as many of his former employees had left the city and could not be found. There are still in the employ of the North Atar Woolen Company many men who worked for Mr. Gibson during the '70s, and all have the kindliest feeling for him and are pleased to learn of the great esteem in which he is held by the people of Montana. That he had a personal recollection of his many former employees was shown in the case of Mrs. Carlson was 16 years of age when the mill closed and had \$23 coming. When Mr. Gibson sent her the money he added the following:

Some of the St. Louis passengers said they had stood more than an hour in line before they could get their baggage inspected. She was fitted for a short trip of three weeks, and has now been about seven weeks absent and has not been reported at any port for refitting, nor spoken by any vessel on the banks, and her supplies must have long before this been exhausted.

It was reported that a medicine chest, supposed to be that of the Commonwealth, had been seen at sea by some of the fishermen, but none could confirm this Thefirm thinks there is no possible chance for the schooner or crew. It is thought that the Commonwealth succumbed to the gales prevailing on Georges about a month ago and that she was driven into shoal water, where she foundered. Color is lent to this supposition by the report of Capt. William H. Thomas and crew of the schooner Horace B. If he votes for the bill his own people will bury him and if he does not vote for it he will be read out of the party.

There is probably not another county in the State in which the whites will suffer so great a loss in votes as in Applegarth's county should the illiterates he disfranchised. Fully 25 per cent. of the white voters in the county would have the right to vote taken from them and nearly all are Democrats. The bulk of them live in Senator Applegarth's district, and are included among his strongest supporters. Strange as it may appear, quite a number of the illiterates are taxpayers. Indeed, the largest taxpayers in the county canneither read nor write.

The Republican leaders are making their last stand against the bill and should it pass in spite of the opposition they will promptly appeal to the courts.
