**A WINTER OUTING AT YOUR DOORS.**

Atlantic City is unique in its climatic advantages. The same breezes that depress the thermometer in summer seem to temper the severity of the wind in winter. They tell us it is the proximity to the warm currents of the Gulf stream, but whatever may be the cause, there are few rough edges on the hours, but instead there is an eager crispness which makes out-of-door life refreshing. The ocean, the sea breezes, the magnificent sweep of the ocean beyond is a stimulus to exercise and a sure bid to health.

Atlantic City offers everything to make life attractive. Great hotels, beautiful scenery - all the beauty of the sea world included the bustle of the business, the noise of the sea, the beery, the magnificent sweep of the ocean beyond is a stimulus to exercise and a sure bid to health.

The Tropicana is one of the largest and most popular hotel in the country. It is situated on the ocean front and is equipped with all the modern conveniences. The Tropicana has a fine reputation for its excellent food and its comfortable accommodations.
