# AIR FISHERS KIEL-A WHALE THE CETACEAN ASSISTING BY

CITIMATE SUICIDE.

News of the Unprecedented-Capture Off Asbury Park Rides on the Wings of the Wind Biplanists Were Trolling when the Long Eple Chase Began

ASBURY PARK, N. J., Aug. 21 .- The dead hulk of the first whale ever killed by an accordance rolled and swished all afteron to-day on the leeward of abig crowd of curious folks gathered at the spot on the Jersey beach that marks the divid ing time between Spring Lake and Belman

r miles below here. The news that a fifty footsdead whale had arrived on the beach has been in the aready been related in the New York papers by local correspondents with a nose for news. The facts concerning he whale's last hours, however, first pecame known in the forenoon to-day biplanes at Interlaken throughout the reek put in an off day on the aviation told alternately telling about the death f the whale and teaching a herd of pet partier flying squirrels that were brought to Asbury Park from Germany a few days ago by Herr Ralph Albrecht Johnstone Jr , to soar back to their cote on he aviation field from the roof of the

The Wright brothers forbid their aviators to make an exhibition on Sunday, but do not object-to-anybody using the eroplanes for bluefish trolling on Sunday iong as the aviators do nothing that conflicts with the Sunday fishing laws of Ocean Grove. Upon learning that the mly local law at Ocean Grove against Sunday fishing applies to fishermen who make their casts from the land or sea or from the shoulders of the plaster odel of the monoplane angel poised for fight on its pedestal on Ocean Boulevard. the aviators got their fishing tackle aboard their aeroplanes last evening after the day's flights were finished and soared out to sea by moonlight to spend the night trolling for sea bass and bluefish about five miles out from the beach.

Aviator Arch Hoxsey, with Aviator Raigh Johnstone as a fishing companion. were the first to get away, so they said out on the field to-day. According to Mr. Johnstone Mr. Hoxsey grew nervous when only a shade over four miles out at sea, and heading the aeroplane into the wind threw down the aeroplane anchor with a splash. The anchor cable of almost instantly tautened at a long low slant and held the aeroplane thirty or forty feet above the waves on the same principle that a small boy holding a kite string keeps his box kite headed motionless into the wind. As Hoxsey and Johnstone each helped

the other to get ready his fishing tackle a shoreward thrumming announced the ncoming rush of Aviator Coffyn in his says that he was a few feet behind and Walter Brookins, in an sterview to-night about the death of the whale, said that he was flying with

engines upon coming abreast of Hossey and Johnstone, they say, and back pedalled until all three aeroplanes were in In this position, they say, they threw out their fishing anchors and becan to make their casts.

the first bluefish up through the air to the main deck of the biplane Johnstone was the first to make a haul. Be that of Cenvention Will Be Good.

Indiana policy.

Indiana pol sirface of the lower of the main planes. Horsey, who was sitting in the upper plane his legs dangling over the eaves. eass he was in a better position than Johnstone to note how the air craft was sinking lower and lower toward the surface of the Atlantic Ocean.

'If I may make a suggestion, Mr. Johnstone." Mr. Hoxsey called to his friend, 'I should say that we ought to throw er up a bit; she's sinking to the top of the

'I am always only too glad to welcome any suggestion from you, my dear Hoxsey, replied Mr. Johnstone, "par-ucularly anything concerning the way you think I ought to fly my machine; only too well do I realize how much more you know than I do about driving an seroplane, especially when it is standing still. I say when it's standing still; do you get me, Kid?"

'Well, I forget more than you ever knew," observed Mr. Hoxsey, climbing to the lower plane.

"Impossible, you never learned anything to forget, and I guess that one put the rollers under you, Mr. Arch, all right. all right.

And so the two friends conversed for some time, sometimes pro and sometimes

A sudden call from Aviator Coffyn interrupted the conversation for a moment. Johnstone hurried out to the left warp of his plane to find out what Mr. Coffyn wanted Mr. Coffyn was just beginning tell Mr Johnstone that he feared the hight air might be dangerous for his little Kingsland and that as he had run out asciene he would have to ask for a back to shore, when Mr. Hoxsey, who sheaked over to the levers that operthe elevating planes, threw the con-up sharply. The upward tilt of the are the elevating planes, threw the con-trols up sharply. The upward tilt of the aeroplane was too acute and the load of fish slipped backward off the lower part of the plane and began to flop down toward the waves below. Little Kingsland Coffyn, who had pulled to the authors of his father's craft while

the anchor of his father's craft while foffyn was talking, and was swinging machine on a short circle astern the the machine on a short circle astern the Housey-Johnstone aeroplane to catch the tow lope was close enough to save some of the fish but most of them were lost. Lachaspeile and Brookins, who also had had shough of the sport, flew to the rescue too but most of the captured bluefish had aiready disappeared beneath the waves. Johnstone and Housey were crawling lack to the planes of the Coffyn machine to crank up their own craft and istart can drama by Samuel Shipman, in which home when there was a sudden swich she is to open her first regular starring up their own craft and start en there was a sudden swirl and splashing upheaval in the water behad seen the last of their catch disappear.

Marietta Olly, the German actrees, will return soon to this country. She is ake the whale that to-night lies in death on the township line of Belmar and Spring Lake. The falling fish had attracted the monster of the deep from its lair, far, far below the tips of the least of moonlight.

Not for feet below the feet of the aviation of the feet of the aviation of the feet begins when it is expected with fear as it saw the moonlight, the bluefish bloodshot eyes clouded with fear as it saw the man in the moonlight. The whale will give battle to the fish-baws when it is cornered and the Cestage when it is cornered and the Cestage whale when its cornered and the Cestage when it is cornered and the Cestage when it is cornered and the Cestage when it is cornered and the San it is cornered and the Cestage when it is cornered and the San it is cornered and

TO MAKE MONEY

There is one sure way to make money and that is to save your bacome. It does not belp much, however, if you save your income and lose your principal. You can be sure of both principal and income if you invest in guaranteed mortgages.

No investor has ever lost a dollar.

intercourse next to impossible.

The scoffers who have doubted Mr.
Ernest Thompson Seton's assertion in his
book of nature essays "From My Cos Cob
Front Stoop" that the north Atlantic
whale will attempt suicide when hopelessly cornered will receive no support
from the aviators who hooked the whale,
which at this very moment may be seen

from the aviators who hooked the whale, which at this very moment may be seen by the sceptical as it lies dead on the beach four and one-third miles south by west of Asbury Park. Every one of the five famous filers who witnessed the incident of hooking the whale agree to-night in every detail, and they were put to a sharp test by Messrs. Neely and Dollinger of the National Council of the Aero Clubs of America, the examinations being individual in each case.

From the taximeter on the Hoxsey-Johnstone machine it was learned that the whale-fought valiantly to free itself from the flukes of the anchors during the

the whale-flought valiantly to free itself from the flukes of the anchors during the first two and two-thirds miles of the race in toward the beach. It lessened its struggles rapidly then and when the water grew so shallow that the whale felt its belly dragging on the sands it gave one expiring lunge forward and turned its body in a circle.

Thrusting its great tail down its throat, it choked itself and with a last effort bit itself through the heart and rolled over on the beach dead.

on the beach dead.

The generosity shown by Mr. Hoxsey and Mr. Johnstone with regard to who really captured the whale, each insisting that the other could have landed it alone, is extending to-night in a like degree to the officials of Spring Lake and Belmar. The line dividing the two resorts, as has been said, crosses the beach directly beneath the keel of the dead whale. Spring Lake officials say that inasmuch as the head of the whale lies in Belmar they wouldn't think of claiming the body, and Belmar just as generously offers the head and all that goes with it to Spring Lake.

to decide which will permit the other to own the whale. Town meetings to de oncoming rush of Aviator Coffyn in his B 7 hiplane with Kingsland Coffyn, his son, as a passenger. Duval La Chapelle says that he was a few feet behind and forth no claims for the whale so far, but it is said that one reason for Treasurer Barnes's trip to New York late last night was to get a legal decision as to their rights to the body. Spring Lake, which is to the south of the whale, seems to hold at this writing the most advantageous position on the subject, but the wind may

sundown last evening the capture of the whale was the only aviation news learned around the airmen's headquarters to-day. The meet will continue to-morrow and Tuesday, however, and something else Arch Hoxsey insisted to-day that it was is likely to turn up or down at almost or the seashot any moment.

### RIOT ENDS MINERS MEETING. ust as modestly declares that Hoxsey President Lewis Says Ultimate Results of Convention Will Be Good.

mittee report, and his assailants were delegates from Illinois.

The Missouri man was attacked in the corridors of the hall and knocked two of his assailants down, but they came at him so fast and in such numbers that he was bleeding from a dozen scalp wounds before others interfered and saved him before others interfered and saved him. was bleeding from a dozen scalp wounds before others interfered and saved him

from death.

Speaking of the results of the convention this evening President Lewis said that its action is the indorsement of all existing strikes which are to be supported from death. by an assessment of \$1 a week on every working miner.

"The fact that the convention failed to

President Lewis intimated very strongly that the organization would not change its policy in respect to the employment of organizers when he said: "We have always had organizers and always will have them as long as we have 400,000 non-union miners in this country. The proposal to do away with these organizers could not be carried into effect because it would have set aside the constitution, and the convention was not a constitutional convention. The results of the convention may temporarily he bad, but as soon as the men at home understand the situation the outcome will be of lasting benefit to the miners and to of lasting benefit to the miners and to the industries of the country."

BUSY AUGUST FOR HOTELS

BUSY, THAT IS, IN COMPARI-SON WITH OTHER YEARS.

Buyers Here in Great Numbers and Many Returning European Voyagers Who Stay Over for a Day or Two-Automo

If you take a stroll along Broadway in the evening about theatre time you get the impression that New York is pretty well filled in spite of its being August.

Atemany of the hotels along Broadway they will tell you they were never more busy and those hostelries where you can get a room "without" for a minimum of \$1 or say \$2 are about chock a block. At the hotels along Fifth avenue there is still plenty of room, but you hear at most of them that this August far surpasses last and some say it is the best Augus they have ever had.

With the average fashionable hotel the rush season does not begin until about the first of October, and it keeps up until the first of October, and it keeps up until a day or two before Christmas, with a "Thank you," with a rising inflection on noticeable acceleration about the times of the horse show and the automobile show. January at many of them is apt to be a little slack, and then things begin to hum and keep going until about the end of March. In June the expense bill begins to eat up the receipts. In July it is still harder to make both ends meet and in

ome cases August is a losing month. Some of those hotels that have a large permanent' trade are losing this August but with most of the transient house this is proving a profitable month. As for the hotels that draw the buyers for merchants all over the country, they are coining money.

Buyers have been coming to New York ever since the latter part of July, and since Sunday they have come by droves. One Broadway house jumped its "count" from a scant 200 a week ago last Saturday night to 425 Sunday night, 600 Monday night and come from all parts of the country and wo or three weeks.

Early in the morning the lobbies of these hotels are filled and salesmen of the local manufacturing and jobbing houses follow up the visitors with invitations to luncheons and to dinners and with theatre tickets and incidentally opportunities to do business. A reporter who went into a music half one afternoon recently was struck with the fact that the men in the audience far outnumbered the

"Who are they?" he asked the manager "Buyers," was the reply. And they turn out in full force on Broadway in the evenings and are in evidence in the

get any benefit from the invasion of the buyers, but one of them especially is doing almost 50 per cent, better business than it did this time a year ago. Its clientèle is made up of the classes of travellers that are swelling the registers at the other fashionable hotels. A large part is composed of persons on their way to or from Europe. While the rush eastward was over before the end of July there is still considerable movement in Five Passengers and the Chauffeur Spilled that direction, while every ship that comes westward nowadays is well filled. Most residents of New York tarry a day or so in town on their way to their country laces, if they are so fortunate as to have them, and it is seldom that the traveller from out of town who gets back after an ocean voyage does not stop for a few days

MIDSHIPMAN DIES AT SEA. Richard R. Landy of the Naval Academy Victim of Peritonitis.

Norfolk, Aug. 21.—Midshipman Richard R. Landy died yesterday aboard the battleship Iowa of the midshipman

the battleship Iowa of the midshipman training squadron now returning from the European cruise.

Information as to his death was received at the Norfolk Navy Yard to-day by wireless.

The midshipman was a victim of peritonitis. He had been in the naval service for one year, entering the Naval Academy from Tennessee.

The training squadron, which is composed of the Iowa and the battleships Massachusetts and Indiana, was to-night about 100 miles east of Cape Henry. It will enter the Chesapeake early to-morrow and will continue on to Annapolis without stopping. stopping.

## P. R. R. TUNNEL TRIPS. Special Trains for Invited Guests to Be Hun From Aug. 30 to Sept. 2.

The Pennsylvania Railroad has issued invitations for trial trips through its East River tubes, which begin on Augus 30. Special cars of steel-construction will 30. Special cars of steel-construction will compose these trains. They will run from August 30 to September 2. Soon after regular trains will be run through the tubes to connect with the Long Island Railroad. The train crews are now being drilled for the regular service.

## **MAYOR GAYNOR SITS UP TWICE**

HE ALSO WALKS TO HIS CHAIR WITHOUT SUPPORT.

Eats Beefsteak and Potatoes for Dinner. Reads and Chats His Voice Has Not Grown Stronger, but the Physicians Nay It Will Regain Its Power.

In accordance with the plan that they announced on Saturday the physicians issued only one builetin yesterday about Mayor Gaynor's condition, but they made it more comprehensive than some of the preceding ones. It read:

Mayor Gaynor is steadily gaining in strength. He sat up a part of the day, has walked a few steps, has enjoyed reading and this evening is in excellent condition.

W. J. ARLITZ,

CHARLES M. DOWD. The walking which the Mayor did. Secretary Adamson said, was not on the programme which the doctors had laid out. They said that the patient might sit up for a short time, but they did not want him to be too strenuous. want him to be too strenuous. None of the physicians was in the room when the Mayor got out of bed yesterday morn-ing, so he just walked over to the chair. He felt a little weak and his legs were shaky from being in bed so long, but aside from that the Mayor got along first rate.

first rate.

Mrs. Gaynor was in the room all day, and her husband talked with her when he was not reading a book. A dozen or more books have been sent to the Mayor

he was not reading a book. A dozen or more books have been sent to the Mayor and they are piled up on a table near his bed. The Mayor's son was in the room for some time also. The only other caller was City Chamberlain Charles Hyde, who saw the Mayor on Saturday. What they discussed is not known.

The window at the rear of the Mayor's room affords a view of Jersey City Heights. Mayor Gaynor evidently mistook the place for Hoboken Heights yesterday, for he made a jocular remark about the beauty of Hoboken Heights. When he had been sitting up for thirty-five minutes he was helped back to his bed and his dinner was soon afterward brought in. It consisted of beefsteak and potatoes. The Mayor seemed to enjoy it quite as much as the squab which he had on Saturday. After dinner he walked back togthe chair and remained up this time for a full hour. Secretary Adamson left the hospital at 3 o'clock yesterday afternoon and did not return until half past 8 o'clock in the evening. He said that he had decided not to tell the Mayor anything more yesterday about the shooting as he had planned to do on Saturday. He thought that since the Mayor had shown no inclination to talk about it the subject might be disagreeable to him.

"Mayor Gaynor's voice has not been

agreeable to him.

"Mayor Gaynor's voice has not been improving as well as might be wished," said the secretary. "It has not got along in proportion to his improvement along other lines. The Mayor speaks with some difficulty. I think that he tries to save it as much as he can. The doctors say that it will be all right and that in a short time he will be able to seek as well as every time he will be a ble to seek as well as every save as agreeable to him. time he will be able to speak as well as ever. The cough has subsided and the Meyor wallows without difficulty. He is not

n any pain.
"Mayor Gaynor has not asked to see a newspaper. He doesn't know yet of the boom for the nomination for Governor and would probably not discuss it if he did. The Mayor never discusses politics and there is no reason why he should break the rule now.

"When the Mayor can be removed is still problematical. His condition does

not call for any more bulletins. It is beyond that stage. There will be one issued every day, however."

After finishing his supper last evening the Mayor went to sleep. There is no doctors say, but the bullet will probably be taken out some time. There was no regular conference of the physicians yesterday. Dr. Arlitz was with the Mayor during the day and Dr. Dowd remained at the hospital last night.

ous efforts to see that taxicab patrons are not being overcharged. Every day now the chief taxicab inspector and six under inspectors are testing all the taxicab they can, on a marked course on Seventh avenue that has been surveyed by the city surveyors.

The course is just below Forty-second street and runs south for a mile. The taxicab inspectors mount the taxis and run them over the course and if the meters not call for any more bulletins. It is beyond that stage. There will be one

overcharge they are condemned and can-not be used until repaired and tested again.

Not only are the meters examined to discover how much they register for the mile, but they are subjected to a critical examination to learn how much they register for waiting time and extras-

Other courses have been marked off in Brooklyn and Far Rockaway.

IN DISTRESS OFF CONEY. Launch Party, Becalmed and III, Signalled for a Tow.

Coney Islanders saw the occupants of a naphtha launch a mile off shore making Capt. Thomas Riley of Balmer's life

saving corps with two assistagts put out in a rowboat. The launch was the Sultan, owned by H. G. Stack of 55 Henry street, Brooklyn. Something was the matter with the darned carbureter and in the choppy waves the Sultan was bowing to the mermaids so fast that everybody abourd was seasick.
