Two Mexicans who arrived recently in New York from Mexico city, one of whom was a member of the Chamber of Deputies under former President Madero and the other intimately identi-tied with the family of the assassinated President, corroborated vigorously yes terday the charges made by Luis Mannel Rojas, grand master of the Masonic Lodge of the Valley of Mexico, that Ambassador Henry Lane Wilson knew of the plans of Huerta and Felix Diaz to overthrow the Government and threatened President Madero with the armed intervention of the United States | get out of the way. unless he resigned from office.

They ridiculed the statement of Ambassador Wilson, who said Rojas held 'an entirely superfluous and unimportant position in the Chamber of Deputies" and that "his charges are in malice and have no foundation whatsoever, nor can one scintilla of proof be adduced to substantiate them. The elder of these two young Mexi cans-they are both less than 30 years old-did most of the talking when ques tioned last night. He cited one incident which he said convinced him that Mr. Wilson was "in league with the treacherous party." This occurred the morning after the assassination of Don Gustav Madero, the President's brother.
