TO ALL WHOM IT MAY CONCERN.—DOCT. DAWSON'S CELEBRATED URETHRATIC BALSAM.—The curative qualities and virtues of this medicine has now stood the test of experience for twelve years in this country. Many spurious imitations and mixtures have been made to compete with its virtues; many of them have gone out of notice, those that still linger are but little used at present.

The proprietor regrets to inform the public that two respectable Drug houses in this city have made spurious imitations of this excellent medicine, and have so far forgot their duty to their fellow citizens, as to tamper with their health and constitutions, for the mean pittance of a few dollars. Their names shall be exposed to the public if caught in the sale of another bottle. The great celebrity and reputation the genuine Balsam bears, has been honestly gained, by the cure of the following affections:—Gonorrhœa, Gleets, Strictures, Seminal Weakness, Whites, Pains in the Loins, Kidneys, Irritation of the Bladder and Urethra, Gravel, and other disorders of the Urinary Passages, frequently performing a perfect cure in the short space of three or four days.

Be particular so that the outside of every bottle has a printed caution, signed S. A. Smith, no other is genuine. Complete directions accompany every bottle, so that no person however ignorant, can err.

A few bottles of the genuine may be had of P. Dickie, No. 413 Broadway; Dr. Hart, corner Chamber st. and Broadway; also by James Smith, Fulton st., Brooklyn. jan 20-1m

SOME PROOFS THAT THERE ARE GOOD MEDICINES.—Recommendatory letter of Samuel S. Albro, of New Bedford. Dr. BRANDRETH refers as to his genuineness, to W. & S. Albro, corner of Prince street and Bowery, who are now agents for the sale of BRANDRETH'S PILLS.

New Bedford, Nov. 7, 1835.

Dr. Brandreth—Sir: About eight weeks past, I saw some of your Pills, and read one of your wrapping papers, but thought it was, as thousands of such things are now-a-days, a mere speculative, money catching thing; still I was advised to try them by persons who said they were most RIGHTEOUS PILLS. I was, however, faithless of their value; but my complaint grew so violent, that I purchased two boxes, took them according to the directions, and found that they helped me much. My neighbors, knowing how long I had been afflicted, were anxious to know the result, and I informed them that I had received great benefit from the two boxes, which would induce me to purchase more. My wife for a long time had been in a poor state of health. She also took some, and found great benefit. And now, sir, excuse me while I detail some of my complaints, the main body of which seem as though the main springs of life were all fettered. DYSPEPSIA or INDIGESTION Weakness of the Lungs, Nervousness, Rheumatism, SICK HEADACHE, ASTHMA, GREAT LOSS OF APPETITE, LANGUOR, TREMOR, COSTIVENESS, &c. &c. Such have been my varied symptoms, but I must and will say, that I never took such medicine as your Pills, which seem to touch all parts of my complaints. I intend to persevere with them, and you may send me 500 boxes, which you must charge at the wholesale price.

I am, Sir, yours respectfully, SAMUEL S. ALBRO.

Dyspepsia, Inflammatory Rheumatism, &c., effectually cured.

New York, 157 Laurens street, Feb. 2, 1836

Dr. Brandreth—Sir: Your Vegetable Universal Pills have been through Providence the means of restoring me to health and enjoyment, when every other means had been used without in the least alleviating the distressing symptoms of my disorder. For more than four years previous to commencing with them, I was an invalid. I had had the advice of the most eminent men in the profession, and was treated by them for Liver Complaint, Dyspepsia, and Inflammatory Rheumatism. My symptoms were, pains in my right and also in my left side, in my back, and almost in every limb, which often became so bad, as to confine me to my bed. I was also subject to violent spasmodic attacks, and frequently sick headache; indeed, I was miserable in the extreme. For several years I had no relish for my food, and seldom enjoyed sound sleep. I have been frequently bled and blistered, but have required neither since I began with your inestimable Pills. Indeed, every winter for four years past, I have been laid on my bed in agony; but I fortunately commenced with your Pills about May last, and, thank God, have never laid by a single day since. My sleep and appetite are also perfectly restored. I have not felt so well as I am at this time, for many years. Make what use you please of this communication, and you are at liberty to refer any one to me, as I think it is only a duty I owe to you and the public generally, for the benefits I have experienced. I am, sir, yours, very respectfully,

SARAH GETHING.

AUCTION SALES.

EDGAR JENKINS, Auctioneer.

PEREMPTORY SALE OF ABOUT SIX HUNDRED VALUABLE BUILDING LOTS IN THE EIGHTH WARD OF THE CITY OF BROOKLYN.—FRANKLIN & JENKINS will sell on Wednesday, the 2d day of March next, at 12 o'clock, at their Sales Room, in Furnis Buildings, No. 15 Broad street,

About six hundred valuable Building Lots, situate in the Eighth Ward of the city of Brooklyn, being the property lately owned by Joseph Dean, the rear of which composes a part of the Gowanus Heights, and gradually rising from the bay to the elevation of more than 100 feet, presents from every part of the tract, a commanding prospect of the city of New York, the Bay, Staten Island, New Jersey, &c.

This ground is the same distance from the site of the Merchants Exchange, as Twenty-third street in the city of New York. The South Ferry will be in operation early in the coming spring, the boats are now nearly completed, Clinton and Court streets are opened and now paving the whole length, Henry street being continued. All these streets lead direct to Hamilton Avenue. Said Avenue is now nearly graded, and will be ready for travel in the spring. This Avenue leads directly to this land over the new bridge. The Third Avenue which passes through this land, is opened its whole length, and is now graded to this property, and will be completed the whole length in the spring. This route will furnish one of the most delightful rides in or about New York or Brooklyn. An application is now pending before the Legislature for a rail road through the Third Avenue to the Bath. It is most confidently asserted that this property is not surpassed by any other for beauty of prospect or location. It presents an extended water front of nearly 600 feet, and every lot has a water view. The adjoining property has been sold in lots, and by the terms of that sale, twelve dwelling houses are to be erected in one year from the time of sale, and great and rapid improvements have been made and are now in progress between this property and the new South Ferry; and considering its high and commanding situation, all combine to render it a most desirable location for gentlemen, who wish to reside near the city and out of its noise and confusion.

Every lot will be put up, and positively sold to the highest bidder, without reserve, and the large number of lots offered will enable capitalists to make good investment.

The terms of sale are 10 per cent. on the day of sale, 30 per cent. in 60 days, 60 per cent. can remain on bond and mortgage for four years at 6 per cent.

Lithographic maps may be obtained at the office of the auctioneers, No. 15 Broad street, ten days previous to the day of sale.

Information in relation to the title (which is indisputable,) or other matters may be had of Smith & Eames, Counsellors at law, Hails Exchange Buildings, Brooklyn. (87) feb 16-d1s

HEALER, the following is an advertisement of

DR. BRANDRETH'S.

Let this truth be impressed on every mind—That all pain or weakness, is owing to morbid, stagnant, and corrupt humors; which impede the circulation of the blood.—Brandreth.

BLEEDING ALWAYS IMPROPER.

"For the life of the flesh is in the blood."—*Leviticus xvii.* 11.

IT WILL BE OBVIOUS ON THE LEAST REFLECTION, that the office of the stomach is to prepare the food for the nourishment of the body, and that the health of every organ must necessarily depend on the due performance of its functions; for if the chyle or digestive fluid be not good, the body cannot be properly nourished, the nervous system will be affected, the secretions of the frame obstructed, and the whole mass of blood becomes impure.—Hence result the disorders which are erroneously termed incurable, by men, who either do not, or will not comprehend the hypothesis, that diseases whatever arise solely from acrimonious humors in the blood.

When acute and inflammatory diseases are the consequence of this state of the blood, the faculty have recourse to bleeding! a measure, murderous in its effects! calculated to sap the root of the constitution! yet it is still persisted in! though not a single case can be produced wherein it has been of service. But 10,000 might be produced wherein it has brought on paralysis, and a train of nervous disorders, dreadful even in imagination to those who have beheld their fearful consequences.

How many thousands are sent to an untimely grave! How many families deprived of their amiable children! How many husbands of their lovely wives! How many wives of their dear husbands! have fallen victims to this murderous practice! and the same may be said of Mercury.

Mankind, oh, consider this subject. I charge ye, lose not one drop of your blood, for the practice of bleeding is opposed to common sense, and all experience proves it is *most ruinous to the constitution!* as all diseases are caused by foul and acrimonious matter entering the circulation and contaminating the blood, the purifying not the obstructing the vital fluid, should be considered in the cure of diseases; and those who are attentive to this, invariably attain to a healthy old age. Had the Creator intended mankind to have parted with blood, rely on it, a place would have been made for its discharge, when too much had accumulated.

When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases—for in violent inflamations, 8 or 10 of them will take in the course of 2 or 3 hours more of the impure humors from the body, be the stomach and bowels, than bleeding to the extent of 40 oz. could possibly have done; and it should be remembered that the Pills remove ONLY those parts from the blood, which were the cause of the inflammation; *whereas Bleeding removes the essential parts also.* How great the prostration of all the corporeal powers, after a copious bleeding?—On the contrary, what agility and strength is felt, after a dose of this medicine; the body is indeed lightened of a load. Nothing, nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 34 years have proved, never do injury, but always good. Is the pulse too high? a dose of these pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the pills by soothing the system will allay it.

Thousands of the most respectable citizens of New York will be referred to with pleasure by Dr. B., who have for many years been in the habit of being bled, often as many as 4 or 5 times in the year, and whose constitutions, in consequence, were becoming weaker and weaker, have, since they have made use of these pills, never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to the doctor and having a vein opened, they have swallowed 6 or 8 pills, which soon removed the vitiated humors, that were impeding the blood in its circulation. These sensible people, simply by the use of these invaluable pills, are increasing every day the powers both of body and mind, which by the practice of bleeding, were both becoming dreadfully impaired.

"Theory founded on truth is consistent."

SEARS' AMERICAN VEGETABLE RENOVATING PILLS.—The author of these pills does not assume the broad and inconsistent theory, that the human body is subject to only one disease, and that only one medicine is required for the cure of that disease, in all its thousand various forms. He does not therefore offer his medicine as an infallible cure for all diseases, nor does he pretend that other medicine may not in any case be necessary, but he is confident, that no medicine can be found which is as well adapted as these pills, for curing all diseases originating from a disordered state of the digestive organs, a diseased state of the liver, impurity of the blood, or obstructions of any of the natural secretions. Their effect is to excite and maintain a natural downward action, in the stomach and bowels, and produce a discharge from them of all the morbid or bilious matter which they contain. To stimulate the liver into action, remove biliary obstructions, and promote healthy secretions of the bile, and aid all the natural secretions of the whole system. A discreet and persevering use of these pills cannot fail of effecting a cure in any ordinary cases of dyspepsia, liver complaint, and those diseases occasioned by bilious affections, impurities of the blood, or obstructions of any of the natural secretions. They are entirely vegetable, and the principal ingredient of which they are composed, is an extract formed by the author himself from a vegetable no where to be found, but in our own country. They have been the result of his own researches and experience, occasioned by unusual sufferings from dyspepsia and liver complaint for thirty years. Thousands of respectable individuals in this city, and many thousands in different parts of the country have tested their effects, and as far as the author's knowledge extends, not an instance has occurred, in which they have not had a salutary effect. They may be taken on all occasions of indisposition, by both sexes of all all ages, and cannot in any case produce deleterious effects. The author of these pills has also prepared a vegetable Cough Syrup, which has proved peculiarly efficacious in coughs, colds, and all diseases of the lungs; and also a Vegetable Extract which has produced remarkable effects in Dropsical Affections.

The medicine and circulars, giving a more general description of them, and containing references and certificates of character, and numerous certificates of the good effects of the medicine may be obtained at his office, 43 Ann street. The following are some of those who have given certificates of the good effects of the medicine:—Mr. S. Hinman, 8th Avenue, between 18th and 19th street—his family have received great benefit from the use of the Cough Syrup and Renovating Pills; Mr. A. Watson, 209 Henry street; Mr. J. Bingham, 5 Lewis street; Mrs. M. Cauldwell, 80 Bayard street; Miss Jane A. Lee, 317 Hudson street; Mr. P. Grant, 251 Rivington street. Besides these, references can be given to numerous individuals of the first respectability in this city, who have received essential benefit from the use of the medicine. Certificates have also been received (unsolicited) from different parts of this state, and from Boston, Philadelphia, Baltimore, South Carolina and New Jersey. Persons not enjoying good health and needing medicine, are respectfully invited to call at his office and receive a circular and made such enquiries as may satisfy them, respecting the efficacy of the medicine.
