For absence you should dread—
For absence is the very air
in which, if sound at root, the head
Shall wave most wenderful and fair;
With sympathies of joy and sorrow
Fed, as with morn and even news,
Ideal coloring it may borrow.
Richer than ever earthly bues.

But oft the plant, whose caves unsere Refresh the desert, hardly brooks The common peopled atmosphere Of delty thoughts, of worses, and looks; It trembles at the brushing wings Of many a careless fashion fly. And strange suspicious aim their stings To taint it as they wanton by.

To taint it as they wanton by.

Rare is the heart to bear a flower.

That must not whol y fall and fade, when alien teelings, hour by hour, Spring up, beset and overshade;

Better a child of ca e and toll.

To glerify some needy spot,

Than in a glad rebandant soil.

Te pine neglected and forgot.

Yet when, at last, by human slight. Ore ose of their permitted day.

From the swe t world of life and light. Such fine creations laspe a way.—

Bury the relies that retain.

Sick odors of departed pride.—

Hoard as ye will your memory's gain,

But let them perish where they died.

Elections.

MARYLAND .- We are informed by a gentleman who

came passenger in this morning's boat, that the returns were all in, and that Grayson, (V. B.) was elected by 300 majority. The Whigs, however, have both branches of the Legislature, state of parties being as

Whigs.	Loco Focos.

40	35
52	44

GEORGIA.-We begin to have news from the nearest counties, which have just voted for Members of Congress. We have but little to lose in this Election, as the Administration elected the nine members two years ago; though a vacancy was afterwards filled by a Whig. What we have to gain we cannot clearly see, for the Politics of Georgia are almost inexplicable to people

As far as heard from, the Whigs have elected 23 Members of the Legislature, and the Van Buren Party

FIRE.-This morning, about one o'clock, a fire broke out in a two story frame building in Lane street, near the North River, owned and occupied by Mr. John Barling as a Chemical factory, which was entirely destroyed. Contents and machinery saved. Loss about

A two story wooden building adjoining the factory, eccupied as a dwelling, and owned by A. Knox, Esq. was partly destroyed. Loss estimated at about \$800.

Miss Shirrery.-In a few days, this superior singer, excellent actress, beautiful and accomplished young lady, will make her first appearance before the New York public. Her worth is warrant for her welcome hither. She is now the Queen of Song. Not only is she superior to any other singer now in this country, but in a certain style of singing, she has not a living equal -and as an actress in opera, she has long since defied competition. She will be supported by that excellent singer and actor Jock Wilson. Their engagement will be even more brilliant than that of Celeste.

CIVIT CAT, corner of Cedar and William streets. This is the only store in the city where good and pure perfumery can be obtained. In fact there is no other perfumery store in the city that can be depended upon. These merchants and individuals who go there need g. no where else. Every variety is to be found there, and at very low prices. Johnson & Co. are also agents for the excellent cutlery made by Pickslay, which surpasses all others in the city. Razors, scissors, all sorts of knives-in fact the store contains every thing necessary for the toilet table of all classes.

The ship Cincinnati, Capt. Barstow, from New-York, bound for Natches, has been, we regret to say, detained at New-Orleans. Process of attachment was obtained by a merchant of New Orleans against goods on board the vessel, that belonged to his debtor residing at Natches. The goods levied upon being stowed in the hold, cannot be reached without unloading the ship. Te discharge the cargo and repack it will cause a detention of several days, and be attended besides with a heavy expense, This seems a great hardship upon the ship owners and freighters, but at the same time the right of the creditor to seize the goods of his debtor when passing by the door of his own court, is unques-

PANORAMA OF JERUSALEM, IN PRINCE STREET .-This beautiful picture is daily visited by all the fashion-able and lovely ladies in the city. Stephens, in his new

work says:

"As connected with the subject of his work, and believing that this community feels a deep interest in every thing relating to the Holy Lund; and, moreover, the author supports the surprise of the support every thing relating to the Holy Land; and, moreover, in justice to one who eminently deserves it, the author would endeavor to direct the attention of the public to Mr. Catherwood's Panorama of Jerusalem. Mr. Catherwood passed eight years in the East studying antiquities and architecture, and making drawings of the ruined temples, monuments, and cities of the Old World. The result of his labors is, that he has under world. The result of his labors is, that he has under his control large panoramas of Jerusalem, Thebes, Damasons, Baalbeck, Algiers, Carthage, and Athens. Mr. Catherwood is consected with Burford, of the great panoramas of Leicester Square, in London, and all his works are intended to asceed each other here and is that capital at regular intervals. He has com-menced in this city with his Panorama of Jerusalem, and a large circular building, covering an area of nearly ten thousand square feet, has been erected for its exhi-bition. It was first exhibited at Burford's, and so great was the senantion created in London, that the first sea son it was visited by more than a hundred and forty thou-

It would be presumptuous in the author to pronounce upon the work of a regularly educated artist, who resided in Jerusalem a long time, principally for the purpose of making this drawing; but he may be permitted to say, that to him it presents a vivid picture of the holy city; and he will add, what, to his mind, is evidence of its correctness of detail, that, at the time of his visit there, he was so fortunate as to find in the hands of a missionary a lithographic map made by Mr. Cather-wood from his drawing, with which he was in the habit of rambling about alone, and which he found a better guide to all the interesting localities than any he could procure in Jerusalem."

places, there are numerous individuals going on from month to month, and even year to year, suffering under a certain dis order which they feel to be destructive both to body and mind Deceived, and almost broken hearted, by the various boastual people, whose preteasions fill our papers, they know not how to act or in whom they can confide. It is scarcely possible it magins the amount of bodity and mental misory arising from the people here alluded to; nor was I at all aware myself of it tall extent, until the publication of my Private Treatise—a little volume designed for those who wish for a private, as well as an immediate and perfect cure of these complaints, but which kowever, has given me a most abundant apportunity of witnessing these facts. Many, for instance, have assured ane, with the bitterest feetings of regret, that they had been led on to take from 10 to 15 bottles of drops; others as many boxes of pills; and others again have fallen into the hands of advertising people, (some of the most boasting of the kind) who, it has afterwards appeared, have been entirely ignorant of the different varieties and changes which these complaints assume and undergo. It must therefore b strikingly apparent to every thinking person, that nothing is of greater consequence than to as cream, betorekand, something of the skill and reputsion of the physician to be consulted in these peculiar diseases; and it is on this account I deem it proper here to give the following statement or my self.

consulted in these peculiar diseases; and it is on this account I deem it proper nere to give the following statement of my. self

Beside the rank I hold of graduate of the University of Edinburgh, and member of the College of Surgeons, London, &c. &c., as well as being the author of a volume expressity on these subjects, (the result of rearly thirty years experience.) I have also testhina in literary from the most eminent of the profession, as Sir Astley Cooper, London, to the most eminent physicians of America, as Dr. Mott of New York, and Dr. Physick of Philadelphia, and which I am permitted to show to any one who wishes it. These authorities at dignifications therefore, allow me with peculiar satisfaction to state, that I devote a portion of my time expressiy to these diseases, and may be consulted in my private study at my residence. Se Courtlands street, New York, at any how.

Those who are afflicted with any defect or complicated complaint of the generative organs, however long standing, will obtain every possible relief; white those who apply in the early sigges of disorder will be agreeably surprised at the immediate and coavenier mode of cure persued.

Females who wish to state their case by post, or are in any kind of doubt or fear, will meet with the most initial and delicate attention. On this I would lay the greater stress because there are various affections incident to the sexual organs, which, though resembling certain complaints, are nevertheless perfectly innocent, and to which all are subject. It is a truly awful thing, when such cases fall lato the hands of unskilful or unprincipled men.

For those who wish it, orare o lig ed to travel, a little chest, with lock and key, is fitted up, containing every thing necessary for the cure having the little treater fitted in the lid. It is sent to any distance—price \$12. This little volume also unfelds the nature of certain facts which are often deeply interesting to married people who have no children.

With regard to stricture, or gleet depending o

DAUDELOCQUE'S Fe MININE AND TON.

DIC PILLS.—The former is a certain cure for obstruction, suppression, irregularity, and other smilar complaints, peculiar to females—the latter an effectual remedy for the various diseases incidental to a state of pregnancy. As a general Alternat and Restorative, these Pilis are equally servivceable to both sexes, and are an invaluable family menicine, as they may be taken at all times without interruption from business or hazard from cold.

These invaluable Pilis were first administered by the celebrated French Physician. J. L. BAUBELOT QUE, Professor of Modwefery and of the Diseases of Women and Children in L'Esole de Med cane a Paris, and were mainly instrumental securing to him that extenses celebrity which he so deservedly acquired. The present proprietor alone possesses the original recipe for their preparation, and kyving for many years extensively used them in private practice with the most astonishing success, he has at last been induced, by the solicitation of many who have experienced their beneficial effects, to submit them to the approbation of the public. They remove and prevent those obstructions so ill ble to occur at the approach of publicy, cleanse and mainly the kined, giving to its appropriate sphere, insure, in every instance, that general health so desirable to all, and especially to females.

These pills can be taken with entire sately at any period of its, and should always be used by females when at the age of farity-five to fifty, as a preventive to those diso ders to which they are so universally subject about that period. For itset complaint usually known as the Green Sickners, with which young females are so frequently afflicted, key are the best possible remedy; and they will also be found an invanable medicine, as need by males as females, tor all hysteric, hypocondriac, or other line affections productive of decression of spirits, as

rancy when the Tonic Full most and restorative, and will cause a miscarriage.

The Tonic Fills are also an ulterant and restorative, and are especially calculated for all complaints incident to the state of pre. lancy, affording also set in mediate relief in all the variety of disorders to which females in that situation are ilable. In se Fills can be had senarately, and should always be taken about one month after delivery in order to purify and incident the system.

be taken about one month after delivery in order to purify and invigorate the system.

As a general menuicine for both sexes, these pills have no equal, especially is cases of fevers, indigestion, want of appetre shortness of breath, dropsy, affections of the lungs, liver complaint, fever and ague, dyssepsia, joundice, piles, actainly of the stomach, costiveness, bendache, choi, diventery, crup thous of the skin. Sec. Sec. and though the proprietor makes no quaskish pretensions to their being a universal curs all—et he is so confident of their superior efficacy, that he fer is no hesitation in asserting that they will be found more or less service able in all the various diseases that flesh is helr to.

For sele only by James H. Hart, M. D., 278 Broadway, corner of Chamber at, and 95 Nueson at, E. M. Guion, 127 Bowery, corner of Grand at; Es Heary, corner of Pice it; and 441 Grand at between East B. oadway and Division at.

Package price, 75 cents. Tonic separate, 50 cents.

N. 8.—Observe that the T. Die Pilis alone must be taken during pregnancy, as the others would cause abortion.

L. PALMER. New Orienn.

Of the 18 TO "TH PANTE.—An unequated Dentifice for elevating, preserving, and beautifying the treeth. The ORE IS TOOTH PASTE has, is every instance, morthen calized the highest expectations of those who have used it, as handreds of individuals cheerfully attest. While it beautifies the treeth, giving to them a clear and parly whiteness, and removing and preventing every appearance of tertar, is also improves the color of the lips and gams—prevents and heals all electr of the month—arrests the progress of decay is the teeth—and imports that peculiar and grainful an ectiness to be breath for which the Erris Root is so justly and extensively eviebrated—and it is, also, pre-eminently distinguished for its agreeable tase and fragrance.

The Orris Tooth Paste can, on the instant, be changed into an agreeable ans most accilent Tooth Wash, while it is free from the many objections that apply to such an article, and also from issue that are applicable to Tooth Fowders as an appendage to the toilet. It is warranted to contain no ingredient in the least degree injurious to the teeth, and it is high by recommended by the most evaluent sentents. Its extensivisale, and the general satisfaction that it ensures, are, however the best evidences of its popularity and merit. Price, 56 cents with full directions.

TO THE PUBLIC DR. DE ANGELIS, formerly a practitioner of medicine in the public hospitals at Napies, and member of he Medical Faculty of the city of New York, where he has been practising physic since the year 1792, continues to be consulted at his office. No. 198 Fuiton at nearly opposite Church at. The most obstinate and inveterate discusses, requiring the soundest judgment in treatment, and particularly all cases or is inating in impurity of the bood, and chronic affections, rheumaisms, obstructions, ulers in the throat, emptions of the skin, debility, &c. with be speedily and radically cured by means the least expensive and most convenient to patients. Remedies to be used are prepared by himself, and their good effects rendered infalliale. Dr. De Angelia has effected acure in many cases which has baffeed all the resources of the medical art; but he either only a few. Copy of a letter from Drs. Osborne and Ireland, physicians of this city, to Dr. De Angelia:

to Dr. De Angelia:

116 Fulton street, Dec. 6, 1819.

Bir—We have no healtstlee in replying to your note in say ing you deserve much credit for your successful treatmen of Mr. John Thorn, after it had buffled physicians both here and

of Mr. John Thora, after it had buffled physicians both here and in a more favorable climate. We are your obediest servants, SAMUEL OSBORNE, M. D. W. H. IRELAND, M. D. W. H. IRELAND, M. D. Patients may inquire of Mr. Thora himself, who is to be found at No. 5 Jones' lane, below Coffre House Sitp, and also of his brother, Alderman Thorn, Brooklen, Dr. De Angelis also refers to Mr. Thomas M. M. Lean, of 163 Maiden Lane, for his skill in curing diseases, and also Mr. Phyfe, cabinet maker, Mr. John R. Beem, and Mr. Burtus, bookseller.

N. B. Ail Dr. De Angelis' family medicines may be had at its office.

ORRIS TOOTH PASTE.—An elegant and highly approved Dentrifice.—
To give a pearly whiteness to the teeth,
To enhance the charms and benuty of the mouth,
And add a fragrant sweriness to the breath,
Is an attainment long devonity wished,
Though ne'er till now off culvery achieved.
The Orris Tooth Paste happily insures
This much desired result, as will its use,
With prooptness and high satisfaction prove.
THE ORRIS TOOTH FASTE, while it beautifies the teeth, removing and preventing every appearance of tartar, and giving to them a clear and pearly winteness, improves the color of the lip, and guns, and gives additional beauty to the tout enamble of the mouth—by its distincting properties it greatly tends to preserve the teeth from decay, and it also impacts that peculiar and fragrant sweetness to the breath, for which the Orris Root is so justly and exicatively celebrated. For sale wholesale and retail by

DM. J FHANCIS' CELEBRATED EYE, WATER—It is adapted to a l'affarmatory diseases of the Eye. It has been tried and has sure-sediclin classes where hope had field and whe e the faculty of medicine had declared the sufferer to be incurable. It hadapted to weakness of sight, and it w'il remove those nebulous, scaly, dead, cloudy appearances, freque sity knows by the name of cutarnets.

Agentleman of the anime of Brady, having a cataract on each eye, after specifing eighteen months with some of the first occlists in the city, was given up as incurable. After using Or. P's Eye Water only ten days, his eyes were perfectly restored, to the astonishment of all his acquaintances.

Another case is that of a place man, after pending twelve months in an eye infirmary, was discharged as incurable, with a nebula on each eye, so that he was almost blind—and after using Dr. F's Eye Water but a few days, has recovered his sight.

CERTIFICATES.

CERTIFICATES.

From the Rev. Mr. Davis, Paster of the church at Bridgeville, N. Y.:

This is to certify, that a gentlemen with whore I am acquainted, who had been nearly blind for eight years, after expending a veral bundress of dollars on various remecies, but they all failed; after procuring a bottle of Dr. Francia remedies, but they all failed; after procuring a bottle of Dr. Francia remedies, to the astonishment the grantfaction of his friends, though a martyr for many years to this distressing malady, he recovered his eyenght, perfectly the astonishment of all who knew him.

Another case was that of a poer man, who, after spending nior mouths in an Eye Infirmary, war discharged by the physicians of the institution, with what they termed an incarable cataract withat he was nearly blind. A trial of Or. Francis's remedy, however, (three bottles only being used,) removed it, to the surprise of all who knew him, and new he cannee with that eye as well as ever he did. I feel it my duty to give this information for the benefit of the public.

The Rev. J. Harrisson, 44 Thompson at having procured a bettle of the above for Mrs. Harrisson's even, says—"to his automisment it has removed the altoness and pain which have excessive for years, sie had used many different eye waters, but they all failed. Therefore I hope the public will town appreciate its value.

ters, but they all failed. Therefore I hope the public will toom appreciate its value.

The Rev. Mr. Dupber says.—"From the testimony of those who have used the eye water prepared by Dr. J. Francis, i have no hesitation is recommending it to the special motor of the public."

Pastor of McDougal et. Church.

THE IMPROVED ENAMELLED RYES, inserted by Dr. Isaac Francis, cannot be distinguished from the natural and will perform every metion of the organ without giving the dightest pairs.

PALP: FATION OF THE HP. AUT AND
WEAKNESS IN THE LUNGS.—For everal mential
have been so distressed with pulpitation of the heart that I
could not undergo the least exercise—even walking across the
room would make my heart fluiter so that it seemed as if I
must fell on the floor. Nights I could lay and hear my heart
beat with great violence, and I would keep a axe in anxiety
for hours. To all of this, my lungs were very deligate, and
what with a cough, shorter as of breath, &c. it seemed as it I
must soon die of consumplien. As no medicine would cure me,
a friend of mine in the Sun newspaper office recommended me
to use Dr. Taylor's Balsam of Liverwort, soid at 375 Bowery,
i got a bottle, and I can only add, it has cured me.

TA . ETTE OF PEAR! AND ALABATEST - For removing Tan Freckies, Sunbare, &c.
for healing pimples as of other erropines of the skin, and improving the complexion, to which it gives increased softness and heauty. Price 28 cents
For sale by J. H. Hart, 2'8 Strontway and 26 Hudson street and by E. M. Guior, at 127 Sowery, at the corner of Pike am Hearty six; an at 441 Grand street, between Kast Brandwa; and Grand street.

Multitudes of chemists, apethecaries and perfumers bave successively attempted to treat that part of the buman body, without having sufficiently studied the subject. By spreading the estentations reports of an exaggerated fame, they have fatigued the public with the words—Wonder! Prodigy!

EVIDENCE! EVIDENCE!—To prevent the destruction of so fine an ernamen, and to renew that gitt of nature, requires many years' experience with the idention part, tot what kind of composition could that be, invented by persons not it minar with the study of the skin on the head!

The true essence of the halt, as it is called by some celebrated doctors, who have used and recommended it as a specific, might for its effects be compared to the regulative activity which takes place in each plan:

The numerous experiments M. Grandjean has made, leave no doubt in his mind relative to the coarse followed by the sep, and the causes which stop its circulation in the inter callular spaces, which all communicate tage her, so as to form the capitary tube so infinitely airded. The sap d. es not circulate in all hair with the same facility. In most hair, of which the vessels are but little developed, it operates slowly, because the tube itself hetry continually filled with it, anniforates the perspiration; then the ascending a fiect cannot take place but by the application of Grandjean's Composition, which is a few days only will penetrate through the hair to the roots.

The ascending pawer varies, then, not only according to the quality of the tube, but also to the way of ming this Composition, which is a few days only will penetrate through the hair to the roots.

The ascending pawer varies, then, not only according to the skin on the head products an evaporation, often very abundant: the sap, which his some degree is in relation with that phenon, enon, ascends rapidly. The resmit is very easy to state. The friction that has been made before sleep, refreshes and repairs the skin on the head, then the growth continues us naturally as ever; wh

BALDNESS.

It must and does receive the pre-eminence, and surpasses all that has yet been employed for the treatment of the hair. One bottle of it ought to be cented among the necessary articles which should be purchased by all parents, for it preserves the roots, prevents failing, strengthens by its rich and generous simulants the weakest hair, gives to allsoars of hair anomrable as thouses lustre and fineness, and keeps it in a great measure from the coming gray; it is an extraordinary specific to erase from the skin on the head that powdery sentiment which so many persons complain of. It may be doily applied on the head of the aged, as well as the youngest child.

The considerable sale thereof, the repute and extension it daily receives, is certain gnarrance, and ought to banish all the lears that one creates in his own minds concerning its efficacy. Each will receive with the bottle, a treatise on the proper treatment of the hair.

M Grandjean's Composition, which has hitherto been sold without any ode or, will henceforth partake of the most excellent perturnes,—Rose, Jessansine, Bergamot, Vanilla, Ambrosia, &c. &c.

inner office door in the evening.

MEDICAL CARD—DR. CARPENTER, Ke. 4 Peck M Slip, New York, deems it proper occasionally to remind the public that he continues to administer to the afflicted at his old established Dispensary.

To a vast number of the ci izens of this metropolis he needs no heralds to amounce his victory overdisease, in its most complicated and destructive forms—nor does he deem it material to be very specific in enumerating the names of the various maindess to which mankind and woroankind are subject.

Fo strangers he begs seave most respectfully to remark, that he confines himself to office practice, and devotes himself personally to the welfare of his patients, keeps no assistants or shop boys, and has sparate effices for the privacy of patients, who can newer come in contact.

Dr. Carpenter would add that he is regularly educated to the profession of medicine and surgery, and reclived his Diploma in the year 1815, of the New York State Medical Society, signed by the highly respected and much lamented John R. B. Rodgers, M. D., as President, and that he has for a long series of years devotes himself to the treatment and circ of all delicate and private diseases.

Be particular in the number—4 Peck Slip, near Fearl st. 31-7.

DALPELEATION OF THES HEADT AND

STOUT'S ENGRAVING ESTARLISHThis establishment is one of the object in the city, and has lorg been considered as second to none in the United States; its reputation has been carned and sustained by the great care evinced to give in every instance complete satisfaction. The specimen brooks exclusive texamples of Visiting and Commercial Card Engraving, in ever style, from the delicate Indian, for Laders hand, to the old English and Greeks characters the execution of which carris, with it its own recommendation. The cards recentled with the purest enaction being the surface highly polished, and reodered susceptible of the finest impression.
