MOUNT VERNON HOTEL AND GARDEN.
THE subscriber respectfully informs his friends and the public in general, that he has taken, for a term of years, the Mount Vernon Hotel and Garden, No. 100 Broadway, and Water Street, New York. The House has been fitted up, and repaired throughout, with an additional Piazza in the rear of the same, overlooking the Garden, which has also been put in complete order for the reception of ladies and gentlemen, who will find that their comfort and convenience will be the special object of his attention.

A grand display of FIREWORKS will take place every Thursday evening, during the summer, accompanied with Music. The refreshments shall be of the best kind, in their proper season. Liquors of the first quality.

The undersigned would remark, that if a strict attention to his duties, at all times, will command a share of public patronage, nothing on his part shall be wanting to ensure the success of his "experiment."

SARSAPARILLA PORTER—A new and healthy beverage
is offered. This Porter is manufactured by the subscribers from ingredients perfectly innocuous, there being no narcotic used in the composition. It combines an agreeable tonic, with an alternative, admirably adapted to invigorate and produce a healthy action throughout the system.

The most delicate can use it without the possibility of creating an undue excitement, at the same time derive all the advantages from its tonic properties that can be obtained from the best London Porter.

The Sarsaparilla (introduced into the port) has long been celebrated as a renovator of the system, purifying the blood, eradicated cutaneous diseases, &c.

For a summer beverage for health it is believed that this Porter is unsurpassed by any other error offered to the public. It being highly carbonated and very grateful to the palate.

SHERMAN'S CATHARTIC LOZENGES—Are as pleasant
and easily taken as the most common pepper-mint, and are an active and efficient medicine. They cleanse the stomach and bowels, and are the best cathartic ever used for bilious persons. Where an active medicine is required, they are not only the best, but the most pleasant and agreeable.

They undoubtedly will supersede the various bitter and nauseous pills now in use.

A large proportion of the diseases that afflict mankind, arise from some derangement of the stomach or bowels, which a timely use of the Cathartic Lozenges would effectually obviate. Persons of bilious habits should always have a box at hand, and take a dose whenever they feel the least derangement in their health. Those of sedentary habits, can take one or two occasionally to prevent the accumulation of bile, and thus prevent the occurrence of the various diseases which are so destructive to health and life.

Southern and Western citizens will find them particularly adapted to their use and region, and far superior to any other cathartic medicine ever used. They are perfectly safe, and their use is a sure preventive of the cholera, yellow or bilious fever, and ague, and all the local fevers of the country. They are made from a combination of the most valuable medicines, and can always be depended upon for the certainty of their operation.

Also, SHERMAN'S CELEBRATED COUGH LOZENGE, that cure common coughs in one or two days, and can be taken sooner than any other medicine. Wholesale and retail at 106 Nassau street, one door above Ann. my20-7

SARSAPARILLA—ROWAN'S ALTERNATIVES,

CANCERS CURED, BY JOSEPH HAWLEY, M.D.

CANCERS CURED, BY JOSEPH HAWLEY, M.D.
residence 24 Bayard street, New York.
To Mrs. G. Ackerman, Bergen, N. J.
DEAR MADAM—
I have deferred writing to you until I could speak specifically to the result of the treatment adopted by my physician, Dr. Hawley, in the case of your cancer. I am happy to be able to say that I have been perfectly successful; my health is restored, and I am ready to start for my friends in Bergen. My complaint, which was cancerous, had existed more than twenty years—it had advanced for the last two or three years very rapidly; the whole of one breast was diseased and had to be removed. I had also a tumor between the opposite breast and arm. My general health had been undermined by the disease. I had no faith in its being cured; but by the solicitude of friends I was induced to apply to Doctor Hawley, residing at number 24 Bayard street, New York, upon the recommendation of Mrs. Samuel Davis, number 10 Commerce street, Newark. From the great number of patients which he is constantly attending in New York and its vicinity, from different parts of the country, I should judge that no man had an opportunity of becoming so well acquainted with the practice. I have found Doctor H. a kind and attentive physician, and I consider his medical skill no less necessary than the external application; and indeed I should think it the height of presumption for any man ignorant of the profession to attempt to apply a remedy so successfully efficacious to remove a Cancer. I assure you I rejoice that one of the profession has the courage and the skill to treat complaints of this nature without resorting to the knife; to whom the afflicted may escape from the impositions of quackery. Yours affectionately, MARY CUBERLY. my22-1m

CERTAIN DISEASE eradicated by the celebrated Dr. Poet's Genorine Eradicator. It cures and cures from the system all the various diseases which are the result of the venereal virus, and preserves its virtue any length of time, and therefore an important medicine for voyagers, and those residing in the country. It never fails in a recent case in less than 24 hours, those of longer standing in proportion. It is a powerful and efficacious remedy, and is a sure preventive of the cholera, yellow or bilious fever, and ague, and all the local fevers of the country. JOSEPH GILLOTT'S

PATENT STEEL PENS,
To be had of all respectable Stationers and Fancy Goods Dealers in the United States,
AND WHOLESALE ONLY AT THE MANUFACTURER'S WAREHOUSE,
No. 109 Beekman street.

The above Pens are all manufactured under the personal superintendence of MR. JOSEPH GILLOTT, who for twenty years has devoted his time in close application and study to their perfection.

A practical mechanic himself, no effort is spared that will in the least tend to their improvement; they are made from the best steel, and no longer acknowledge the "grey goose quill" as the badge of our profession. N. Y. Com. Adv.

"With one of these pens we are now endeavoring to do justice to Mr. GilloTT's usefulness, and can scarcely recognize our own handiwork, the pen seems to move by some invisible power, and the character of the writing is so perfect, and the character traced by it is altogether superior to any we have hitherto attempted. We have pleasure in bearing this public testimony to Mr. GilloTT's pens, as we feel a personal obligation for the facilities his invention affords us."—New York Herald.

"Gentle St. Pen." We are not in the habit of using metallic pens, but we find those of Mr. Joseph GilloTT the best we have ever tried, and we heartily recommend them as excellent. They are the handsomest too, that we ever saw, as far as that goes, and the mode of fastening them to the stem is superior to any that we have noticed, holding them much firmer and in better position. The case in which they come, at least to us, is a "casket worthy of its jewels." On the whole, GilloTT's pens seem to us likely to supersede all others."—New York Gazette.

OPINIONS OF THE PRESS
"Joseph GilloTT's patent elongated metallic pens are the best article of the kind that we have used. We went back to the quill, some time ago after trying almost every variety of metallic pen in the market, satisfied that no pens were equal to those produced by 'Gosse & Co.' but having come across Mr. GilloTT's pens, we have been induced to give up the quill, and to use under the name 'metallic pens.'—Boston Morning Post.

"The case itself is worthy its rich contents, and the whole reflects credit upon the establishment that has saved to penmen such a world of trouble in cutting goose quills, and nibbing points a little used."

"We may safely speak of these pens as excellent; as deserving high commendation."—Phil. U. S. Gaz.

"A good steel pen lasts longer than a quill, and when it is past service, you have only to throw it away and fit in another. It is a saving to the holder, and equally so to the writer. If you are a student, or a business man, or a professional man, or a man of letters, or a man of science, or a man of
