The Court—From my experience in the Court of Sessions, I think you had better have awe hundred. Will Wednesday suit the counsel on each side?

Mr. Edwin James, associated with Mr. Dunpby for Mrs. Real, said they were extremely anxious to have as little delay as possible—he trusted not beyond Wednesday.

The Court took that expertunity to state that he would not excuse any juror on the plea of business; if any application is made on the ground of illness, the party would not be excused unless the doctor's certificate is accompanied by an affidavit. It is the duty of every juror to add in disposing of the criminal business.

The case of Mrs. Real will be called on Wednesday, on which day the additional panel will be returnable.

The INDIANA BANK FORGERIES.

The People w. Samuel Hallet.—The detendant is indicted for forgory in the third degree, in selling alleged fictious bonds of the Bank of the State of Indiana for \$10,000 each.

Mr. John Burrell appeared on the part of the defendant, and moved to quash the indictment.

The Entrict Attorney suggested to the counsel the propriety of demurring, as by that course of proceeding the matter might be further contested if the Court should decide against the prosecution on a motion to quash, there the matter should ended that the midetiment was bad; but if the Court should decide against the prosecution on a motion to quash, there the matter should ended the court of the court should ended the court of the court should ended that the midetiment was bad; but if the Court should the called the court of the court should the court of the cou

## FINANCIAL AND COMMERCIAL.

MONDAY, Oct. 6-6 P. M. To-day's bank statement compares as follows with that of last Monday:-

Week end'g. Loans. Specie. Circulat'n, Deposits. Sept. 27. \$160,161,046 37,502,852 9,300,723 153,291,852 Oct. 4. 165,057,113 38,325,587 9,900,112 157,944,771 Increase. \$4,896,967 733,035 99,389 4,652,919 The pending speculation in stocks has thus at

upward movement. They have been looking for a reaction every day for a fortnight, while stocks have been rising one per cent a day. Blindly comparing the present movement in stocks-which rests on causes and events wholly unprecedented in our history, and only paralleled once or twice in the history of Europe—with the twopenny speculations of past times, which grew out of a temporary rise in grain, or fall in money, or accidental ers are utterly bewildered by the march of events and look on idly while a new race of men, more keenly alive to the crisis, are reaping a handsome harvest. Just as, in the crisis of 1857, there were leading men in Wall street who could not read the signs of the times, and were always predicting a last saw themselves swept away by the avalanche, so now there are persons who are always expecting "the downward turn," and making ready for it by selling their stocks and taking a moderate short time. They will probably have their reward. At the morning board all the railway shares were very active, at an advance. Pacific Mail rose 31/4, Erie old 1%, Eric preferred %, Hudson River 2, Harlem 1, Reading 3/4, Michigan Southern 2, guaranteed 21/2, Illinois Central 2, Galena 3/4, Toledo 3/4. Rock Island 1, Pittsburg and Fort Wayne 3. There was no change in New York Central. Cumberland Coal started up to 141/2. A large business was done in bonds. Michigan Southern seconds rose I per cent, Northwestern seconds 3, Toledo sinking funds 1%, Fort Wayne thirds 1%, &c. Missouri sixes continue very active; they advanced 11/2 this morning. California sevens rose to 111. In governments there was no change. The provision of the law of Congress providing that 5-20 bonds can be issued at par for currency operates to prevent the other securities of the United States from sharing the general advance. At the close of the first board the market reacted 1/4 a 1/4 per cent on Eric old and one or two other stocks; but the decline brought in fresh buyers, and before the second board met it was recovered. At the second board the market was a fraction lower all round. Erie and Erie preferred were the weakest on the list, the former selling at a decline of 11/4 from the highest price of the morning. Michigan Central was firm at the morning price; a dividence of 4 per cent is expected on this stock. Illinois Central guaranteed and New York Central fell % per cent. At the close the market was firm, the ollowing being the closing quotations:---

following being the closing quotations:—

the Western shares, but hardly so good on the Eries. Galena sold at 86%, Rock Island at 83%. Illinois at 82, guaranteed at 841, Michigan Cen. tral at 87%, Eric old at 58%, Eric preferred at 84%, Hudson at 70. The market finally closed

Among other stocks which have long been ne glected and despised, speculation has once more seized held of Cumberland Goal, which has advanced 7 a 8 per cent within a few days, and is very active indeed. The stock of this company used to sell some years ago at 75 a 80 per cent. Bad management and the crisis of 1857 caused it to decline to 5 a 6 per cent. It was then-in 1858 taken in hand by a party of wealthy men, and advanced to 25 a 30, with every prospect of becoming a substantial property. Unfortunately, the price of coal was low, the company got involved in a protracted lawsuit with some of its former directors, the rich men who had bought the stock grew weary of waiting and sold out, and so the stock gradually sank to about \$8 a \$10 a share. The chief basis of the present movement is the high price of coal. Cum. berland Coal is selling at \$9 a ton, and the coal authorities predict that it will go still higher. In the course of a short time the Baltimore and Ohio Railroad will be sufficiently repaired for the transaction of business, and at the present high prices the difference between canal and railroad is that if the Cumberland Coal Company was able to pay interest and expenses when coal was low, the present high price of coal ought to put it in : way to pay dividends. The other coal stocks are

very high, as the following table shows:-Delaware & Hudson.

For my weeks the deposits have been increasing at trate of two to three millions as week, while the rease in the loans was only about half to ee-quarters of a million. The four millions in sale above reported no doubt represents the ount loaned on stecks during the most active eculative week ever known in the historio of Wall street. It illustrates with how all a sum of money this street can be thrown in the little of the control of the little of the lit
