In his reply Mr. Dunn said:-

As to myself and my people, we are not seeking social equality. That is a thing no law can govern. We all have our preferences; we all wish to select our associates, and no legislation can select them for us. We ask nothing of the kind. We simply ask to be allowed an equal chance in the race of life; an equal opportunity of supporting our families, of educating our children and of becoming worthy citizens of this government.

It would not be worth mentioning at all were it not that I learn some Sena tor intends to bring the matter before the Senate fin the course of a few days. The story is this :- It is represented that while in Richmond Chase told General Lee that he intended to acquit Jeff Davis, and that he hoped to see the latter soon again in his old seat in the Senate. A pile of affidavits from residents of Richmond is said to be in existence proving the entire correct ness of this silly statement. The only foundation for this story is, probably, that a certain Sena-tor told the Chief Justice while in Richmond that he (the Senator) did not believe Jeff Davis would ever be tried, to which the Chief Justice made no answer. matter before Congress, and, therefore, I set down the whole story as a fabrication, contrived entirely with a view to injure the high character of the Chief Justice.

THE CONVICTION OF JETER PHILLIPS. THE WIFE MURDERER The Richmond Dispatch thus describes the closing scenes of the trial of James Jeter Phillips for the

scenes of the trial of James Jeter Philips for the alleged murder of his wife:—

At length a knock was heard at the door of the Senate chamber. A sheriff answered it and found the jury ready to report. The judge was sent for, counsel were seated, the prisoner threw aside his paper and the crowd pressed back into the rooms, only giving way before two of the sheriff's deputies, who forced a passage for the jurors. As the jurors entered and took their seats one could almost have heard a pin drop in the crowded hall. A thousand eager eyes were directed toward the prisoner, who, pale and silent, looked steadily toward the jury box. The Clerk—Gentlemen of the Jury, have you agreed upon a verdict?

Mr. T. A. Faters stepped forward and handed in a paper, upon which were written the words of life or death—none lared to guess which.

The Clerk—James Jeter Phillips, stand up.

He stood up, with a fan in his hand, leaning heavily upon the desk in front; his eyes now upon the clerk, who read:—"We, the jury, find the prisoner, James J. Phillips, guilty of murder in the first degree."

Not a muscle of his face relaxed, and no change of color was remarked by the thousand eyes upon him; but he sank into his seat, as it seemed to us, with an air of rellef, and commenced fanning himself furiously, the perspiration standing in great beads upon his forchead.

The deathlike silence which followed was broken by Judge Crump, who, w thout rising from his seat, requested that the jury be poiled. Each one of the tweive men were then asked if this was his verdict, and each of the tweive signified his assent.

alleged conspiracy on the part of certain members of the whiskey ring for the purpose of effecting theremoval of Collector Bailey:—

UNITED STATES INTERNAL REVENUE, COLLECTOR'S OFFICE, FOURTH DISTRICT, NEW YORK, July 9, 1593.

SIR—I respectfully ask your consideration of the following statement of facts:—

It came to my knowledge several weeks fix that certain persons, among whom were one Alvah Blaisdell distillery and now under indictment on proceedings instituted by me). Bernard Hess, an inspector of internal revenue, and one Poweison, formerly a clerk in the Internal Revenue Office, and sundry other disreputable characters, whose names will appear in the course of this report, were engaged in an attempt to manufacture evidence on which to base charges against me; Blaisdell making his headquarters at the room of Special Agent Belknap, Tl Broadway. Powelson and Hess are reported to have been engaged for a long time in raising funds from distillers in the Ninth district and from rectifiers and whiskey dealers in the Thirty-second district, and in Broadyn, no nave surfered through my official action, for the purpose of inciting vexatious and defamatory proceedings against me. The first move of Hess and his confederates was, as set forth in that report, to procure one Davis to make a charge of perjary against me, the conclusion of which—after subjecting me to great annoyance and exp case—was, that Commissioner Osborin or dered Davis under afterst for perjury, on his own testimony, at the conclusion of that proceeding any time for consideration, at the same time honorably discharging me.

Hess at the conclusion of that proceeding gave out that he and Powelson and others would soon have other proceedings against me; but sithough I heard intimations of the connection of certain treasury officers with such a scheme, there was nothing definite enough to warrant any action on my part. The first of last week, however, I was approached and told that warrants would be got out against me by special agent Belknap. Finding a

special agent Beikhap. Finding at last a responsible head for the proceedings so long threatened, I considered it time to take measures to protect myself from a repittion of the scandal which had attached to the Davis movement.

I therefore requested Captain F. O. Tapley, on July 2, to trace out the connections of the conspiracy, for such I knew it to be from various indications, to go over all of which would make this report too long. Without going into a full detail of the steps and the means by which I became possessed of the facts, the following was ascertained:—

The persons acting as outside operators in this scheme are those already named, together with one Harry Jenness, a notorious bogus bond broker, one Noyes and one Sower, and another person who has furnished money and who is connected with the conspiracy by the confessions of those arrested and by the testimony. In connection with these operations there are also other persons, whose names I do not think it well to mention now.

I will state here that Messrs, Brown, Hall & Vanderpoel have been retained by me for the prosecution of these cases and that the statements made by me in this report are only of facts, which, after careful examination, can be sustained in court by competent testimony, as advised by my counsel.

The parts played by the individuals above named were as follows:—Jenness, Sower, Powelson and Noyes acted as outside runners, concocting the stories to be sworn to by the witnesses before Blaisdell and Beikhap and paying them the sums agreed on for swearing. When Jaken to Blaisdell and Beikhap and paying them the sums agreed on for swearing. When Jaken to Blaisdell and Beikhap and paying them the sums agreed on for swearing. When Jaken to Blaisdell and the knap they were asked what they could swear to and the story was called in to draw the affiduals, and special agent Beikhap administered the outh. All this has been seen and overheard by Captain Tapley and others, and I have now in my possession the money paid to one of the witnesses

complete evidence and of which he had already made full confession.

I would'say here that I had in advance the real and the felse names and residences of all the persons swearing before special agent Belknap, and that all witnesses swore under assumed hames.

Another witness, John Hade, who had sworn before agent Belknap, under representations made by Jenness that swearing before that officer was no oath, declined to swear before the United States Commissioner. While this was going on affidavits were made on my behalf before Commissioner Stilwell, who issued his warrant for the arrest of Lamartine. He was taken quietly last night and is now in Ludlow street jail, and has made full confession. Arrangements were made by Belknap and Blaisdell last night to have Commissioner Osborn go to 11 Broadway at eleved A. M. today, to swear the rest of the witnesses. Only one could be brought up to

others of them as soon as the hearing is had before the United States Commissioner.

I have evidence in my possession showing that this is only one move in a concerted scheme for blackmalling, entered into months ago by various parties, the mention of whose names now would tend to defeat the ends of justice, but all of which will be fully exposed in these proceedings. It will be shown that the parties to this scheme were fully aware of the character of the agonts they were employing, and of the means used, and of the character of the evidence that they were adding in concooting; and that the persons engaged in the conspiracy were active in the various ways set forth above.

I beg to make acknowledgment here of the energy, skill and efficiency of Captain F. C. Tapley, of the Northern district of New York. Mr. Tapley happened to come in fown at the time this conspiracy came definitely to my knowledge, and on my request he undertook to investigate it. He has followed it day and night, and has shown a degree of acutioness and zeal and fidelity that entities him to the highest regard and confidence. Captain Tapley has the full confidence of Colonel Wood, the chief of the secret service division; and it was by Colonel Wood that Mr. Tapley was directed to report to me last spring, and to render to me any assistance which I might be in need of. In working up this matter he has been unaited by any other officer, and he has done it in such a manner that there is nothing left to be desired.

I have to request that I be formally authorized to retain Messrs. Brown, Hall and Vanderpoel as my

matter ne has been unaided by any other orficer, and he has done it in such a manner that there is nothing left to be desired.

I have to request that I be formally authorized to retain Messrs. Brown, Hall and Vanderpoet as my attorneys to prosecute the confederation of Treasury agents, secret service men, cx-bounty jumpers, bogus bond makers, counterfelters, perjurers, indicted distillers and professional thieves, whom I now have in a position where they can be brought to justice for the crimes of perjury, subornation of perjury and conspiracy. I ask this with the more confidence since the malignity which prompts these attacks on my good name and official position and conduct is inspired by the services, however humble, which it has been my desire and fortune to render to the department, to my official superiors and to the government, thereover, this confederation of rascass is at this moment, as I am advised, backed up in their assaults on the local officers of New York by special counsel authorized to be employed for those prosecutions by the freasury Department itaelf. I desire to be understood as in no way reflecting on the department in this statement, as I am fully aware that it was for other purposes than those here exposed that this action was authorized by the honorable secretary.

It is proper to say that the complaints of these parties never were presented to the District Attorney being obliged to appear for the government, application was made for authority to employ counsel, which was denied. Since, however, hy innocence has been vindicated, and the makee of the prosecutors exposed, I now renew the application to have my expenses in that proceeding allowed, as well as in this. It surely cannot be that, when a public officer has made himself obnoxious to a class of law-breakers with whose operations he has interfered, the department will leave him single banded to sustain himself against not only those who are his natural opponents, but against its own officers who are the proceeding allowed, as we

iaw officers of the government.

I have now to state that for the last four menths I have been necessarily much employed in following out and protecting myself against the machinations of certain officers of the department, who have at their command, and as their familiars, the whole fraternity of offine above onumerated, greatly to the prejudice of the discharge of my official duties, and having now an opportunity to expose and bring to justice unworthy officers and their associates I desire and purpose to make an example of the criminals. I have the honor to be, with great respect,

Hon. H. McCulloch, Secretary of the Treasury.

Southern District of New Fork, City and County of New Fork, ss.'.—Frederick C. Carter, giving his residence as No. 50 West Tenth street, makes affidavit to the same effect as the foregoing it is also false; that if, any man representing himself as John Hall, living at No. 224 Tonth avenue.

makes affidavit in the same matter as the foregoing it is false; that if any man representing himself as John Calverly, giving his residence as 405 Canal street, makes affidavit in the same matter, it is also false and malicious, and this deponent has the evidence in his possession on which to prove those declarations; and deponent further swears, upon information and behef, that there are other persons who are proposing to make affidavits in the same matter, and that all those affidavits are concocted and gotten up by a notrious begus bond broker, Harry Jenness and one Powelson, who are both in constant communication with the occupants of room 71, 71 Broadway—to wit, A. A. Belknap and Alvah Blaidsæll—and that those persons, with others, are engaged in a conspiracy to concoct evidence against the said J. P. Bailey, Collector aforesald; and denonent further says that he has been engaged in tracing the course of those parties for several days bast, and as the result of the examination which deponent, as a government officer, has been prosecuting in this matter, he is well satisfied that the names of the persons who make the affidavits as above referred to are not their real names, but gross, fictitious names. That deponent has ascertained that the name of the person who gives his name as Charles W.
