The Value of Rag Currency 86.47-Investment and Government Bonds Steady.

The stock market to-day was unusually active, the transactions amounting to 351,000 shares. Securities eretofore comparatively dormant were sympatheti-The advance, however, is not of a character that warrants a change in the opinion which been expressed in this column for the last two or The condition is purely artificial, prices are being worked up by mere force of concented capital, and there is a bold attempt to walk stocks into public favor on stilts. Without, therefore, regarding what the auctioneers of the Stock Exchange may for the moment bid or ask for their favorites, we repeat that in the end he will find himself fortunate who ignores temptation, withholds support from the pending game, and leaves the gamblers of the o themselves in their own way with their loaded dice. It is an easy matter to daub the day's t and false. When 115,000 shares of Pacific Mail are reported as sold in the face of the recent revelations of e President Scott and of other statements yet to be made, it is to the common mind more like poultice than paint. Concerning the document which has been ected from this official before his next departure for Europe and in connection with the present attempt to th the stock once more into public favor learn through confidential sources that well osted members of the company with reference to the rposes of the same know nothing of any report that is likely to be made, and have nothing either favorable or unfavorable to communicate. Still, it is said that a ting of the directory took place to-day, and that an early and very favorable statement will be made "as oon as the public are able to appreciate the truth," The speculative community must draw its own inferences. Activity continued in Lake Shore; but it is w intimated that, the principal bears having covered some of the members of the pool have gracefully retired with their profits and are sellers of the stock. is also alleged that in order to make the shares appear scarce they were borrowing at the same time that they were buying. An important decline occurred in Illinois Central to-day, from 92 to 88. Recently this stock was selling at 102. The cause of weakness is ascribed to the fact that the comany have disposed of most of their choice lands and are embarrassed by "Washington despatches saying that e Commissioner of Internal Revenue decides that the revenue received by the company from the sale of subof the company." Missouri Pacific declined to 9%, after sales at 11. Atlantic and Pacific preferred sold at 4% a 4%. Hannibal and St. Joseph opened at 18% and ended at 17%. Ohio and Mississippi receded from 17% to 16% a 16%. Wabash firmer at 6. New Jersey Central, New York Central, Rock Island, and Delaware and Lackawanna were generally steady; Western Union was strong on dvance from 75% to 77%; Northwest com after sales at 36, advanced to 37%, ending at 37%; Atlantic and Pacific Telegraph closed at 1914; Canton sold down to 36. Other stocks including active securities will be found reported in the tables immediately following. Before reading these interesting records, however, it is well enough for the enthusiastic bull to recall the fact elsewhere noted that the commercial failures for the nine months of this year exceed by \$131,000,000
