Apprentice Wanted at the Office immediately.

PUBLIC MEETING. To the Citizens of Ashabuta County. All those who are opposed to the Union of Church and State and consider that the safety of republican institutions is imperilled, the absence of civilization, the most sacred rights of man infringed by the least interference of the State in matters of religion, are invited to meet at Union Hall in Jefferson on Wednesday, March 12th at one o'clock P. M. to establish a liberal league.

MANY CITIZENS. JAMES V. WARREN of Plymouth, we learn has become proprietor of the Monitor House Fairview, Pa.

A LITTLE SON of J. R. Gook, Esq., was badly injured, on Saturday last by a kick in the face by a toll.

The Rev. Mr. Fook of the Congregational church of Saybrook, has announced his intention of resigning his pastorate.

The Brown Trial, which was looked forward to with some interest, has been over, and put over to another term.

CHICKEN HEAVEN. A fowl was made up on the chicken foot of Morton J. Harmon of North Kingsville, recently and a gory deed was the result.

MISERABLE. - Welch and Newbold's misadventure, that have now a popularity throughout the country, appear at Smith's Opera House on Saturday evening of this week.

ACCIDENT. - In Ashabuta, on Tuesday, a son of John White, while playing with a corn sheller, got his hand into it so as to require the machine to be knocked to pieces to relieve him.

P. H. WATSON, Esq., made a flying visit home on Wednesday night last, and left on Thursday noon. In company with him on his departure was HORACE WHITE, Esq., of the Chicago Tribune.

The friends of Bider Dones gave him a donation on Tuesday evening, the 25th, at the house of the United Brethren, in Sheffield, which increased his stock of worldly goods to the amount of \$50, and afforded him an outlet for their regard for him.

ERSON. - That Durham cow killed by Cook on the other day, alluded to in the Telegraph, weighed 1,180 pounds, dressed, valued at \$50, and it miraculously appeared. Our friend WALKER who tamed the animal, will make a note of that and collect by the heaviest fines.

DR. J. WORTHINGTON STEWART, who was removed a short time since, on account of derangement, from the County Jail to the Infirmary, died on Tuesday morning last. He is therefore, beyond that sphere where marriage or giving in marriage will require attention.

EXPERIENCE. - How F. R. - A man in Wayne lost his pocket book, containing \$38, and valuable papers. A search revealed the thief, who was in the hog pen, showing the hogs had at least one luxurious dish, the man having dropped it while feeding the swine in the morning.

NOTICE is given by request, that the regular weekly evening meetings at the Presbyterian church will not take place on Saturday evening, and the several congregations that have waited in them, will attend services as usual, each in their respective churches, on Sunday morning.

CONSTITUTIONAL CONVENTION. - The names of H. B. Woodbury, Charles S. Simons and O. H. Fitch are spoken of as suitable candidates for delegates to the Constitutional Convention. As a nominating convention has been called, we suppose that body will make a selection.

VEGETABLE PURCHASE. - Messrs Crosby, Blyth and Clark, Starkey, have purchased within a week or two past, the steamer Star of Hope, of Detroit port, for \$9,000. She has a capacity of 10,000 bushels, and has already been chartered for six trips in the iron ore trade, at rates that will pay two thirds of her cost.

HISTORICAL. - We copy on the first page an article from the Geneva Times, in reference to the Book of Mormon matter referred to by our Green Castle correspondent, to which his attention is directed, and that others having knowledge of the subject matter, or the parties concerned with it, will let us hear from them.

CAPT. GARY OF GENEVA, and Capt. CLAYMAN of Connecticut, took passage in the o'clock freight train from Jefferson, on Wednesday last, without having first procured tickets, as now required, and after some two miles run, were put off the train, and left to foot back to Jefferson. Of course they were mad, and threaten legal chastisement.

TRANSFER REAL ESTATE. - Mr HUMPHREY five acres of land on Farrington Street, to H. H. HALL, consideration \$2,075.

On the 30th inst, Mr HUMPHREY lot 197 on Ann Street, - consideration \$275.

March 9th - Wm. Humphrey, lot 8 to Julia H. HAMP - consideration \$200.

Wm. Humphrey lot 11, to Garrett Durth, consideration \$300.

Mr. LEONARD Knapp, of Geneva, gives the Times of that place the following as a product from the cow owned by him, in the month's milking: Butter, 24 lbs.; new milk solid, 170 quarts. Besides this, his family of seven persons have been supplied, and he has raised a calf, feeding it on fresh milk for the first two weeks. The Times doubts whether this cow can be matched anywhere.

ALARM. - A slight riding party of Palmerville ladies and James, the other day were terribly alarmed at what appeared to be the report of a pistol or rifle. They were quite sure that some one was making a target of the load. An investigation narrowed the thing down to one of two facts - either that an 'old rubber bullet, of some one of the party, had exploded, or there had been a 'lip-tick explosion. Either, we suppose might have been the result of a squoze.

CHURCHY ANNUAL MEETING.

The annual meeting of the Ashabuta County Association will be held, by adjournment, at the residence of O. H. Fitch Esq., on Saturday evening of the present week, at 7 o'clock, for the election of officers, and for the consideration of other matters of importance to the Association, and the public. In the welfare and improvement of the county are our citizens, and especially those having left, have a deep interest. The place where friends and dear ones rest, and the place where the living are seen to lay their burdens down, cannot but be near our hearts. It would seem, then, that all should identify themselves with its meetings and movements, and take such part as their connection with the association will warrant and authorize. Every one holding a lot in the cemetery is a member, and authorized to vote in its meetings - a fact that has hardly been appreciated. It would seem, for from the organization of the association, we believe, its business management has been left to a few who had the foresight to bring it into shape and existence. Scarcely any one knew of, or attended its meetings, and there was little to be done but to elect those who had been identified with its interests and success. These interests have been managed with prudence, and the gentlemen who have had them in charge deserve well of their fellow citizens, for what has been done. What is needed, however, is a more general and lively attention to the matter. The want of this attention affords the reason for this 2nd effort to get a meeting by adjournment. It is this indifference, that has induced one, at least, of the directors, to request this notice, and it is to be hoped that all having lots, will be present on Saturday evening. Something should be done to open the new road, and give access to the grounds without, as now with funeral processions from the village, twice crossing the Jamestown road. A full meeting, and an interest shown in the election and in the questions of improvements demanded, will no doubt encourage the directors and lead them to feel that they are sustained and warranted in a little more vigorous and demonstrative policy. Let the meeting, then, be remembered.

SUICIDE. - DEATH OF O. C. PRATT. - A copy of the Omaha Republican, sent us by Mr. H. Bliss, brings the information, that on Saturday night the 1st inst. about 7 o'clock, O. C. Pratt, well known in this city, for two years past, committed suicide by taking morphine. He was boarding with his wife and child, and had been out of employment for several months; it was understood to be embarrassed financially, and in a fit of despondency, made way with himself. Mr. Pratt was a lawyer by profession; had been admitted to practice here about a year ago, and was about 35 years old at the time of his death. He came to Ashabuta about two years ago, and accepted the position of a city editor on the Times, and afterwards worked on the Dispatch in the same capacity. He had previously been employed on the Sioux City Times, St. Joe Herald, and had been on papers in Detroit, Cleveland and Chicago. He was a writer of considerable ability, and did good service on the papers he was connected with in this city, until dissatisfaction with his mood and destroyed his usefulness. He leaves a devoted wife and a bright little boy of tender age.

The circumstances attending the tragedy are brief. On Saturday afternoon he was seen on the streets as usual, and during the day visited an undertaker's establishment and inquired the price of coffins, and showing by his conversation that he meditated suicide. He took a very heavy dose of morphine a little while after supper, and in a short time was thrown into convulsions, and then came the "popped sleep which is the end of all." Drs. were called, and administered various remedies, but could not save him. He told what he had done and gave his reasons therefor, and soon after passed into that showy insensibility and died.

RISKO CITY, &c. - One of the representative and founders of King City, Mr. JOHN W. HILL, is on a visit to Ashabuta. None of the hardships and privations that have reached us about the experiences of some of those who changed their residences from this to that place seem to have affected him, as we gather from his personal appearance. He informs us that while there, at here and elsewhere, has been severe, the mercury running as low as 18 below zero, and for one or two days, it did not get above 5 below. Hearty erected and indifferently fastidiously tenements, were found not the best protection against such a temperature, where fuel is scarce and difficult to be had. That some suffering attend have been experienced, by some of the emigrants, is not a matter of surprise. But we learn that this was not the only cause of suffering. Labor is not abundant in a small community like that, numbering as Mr. HILL, says, some 40 or 50 inhabitants. The means of livelihood therefore, to those who depend upon their daily labor, becomes somewhat precarious. Some of the emigrants, have been obliged to dispense with the luxuries of life, and content down to absolute necessities. Cracked corn, in some instances, we are told, has been the necessity for keeping soul and body together. Mr. Milton Williams, son of our townman, B. R. Williams, we regret to hear has been overtaken by misfortune. A lurking spark from the fires kindled to burn off the dry grass about his premises, as a protection from the prairie fires, caught his stacks of provender and not only destroyed them, but a valuable team upon which much dependence was placed, and which it is difficult to replace. The young colony, it seems, has a rival in a colony which has sprung up in the same county, but about ten miles distant, named after the county - McPherson - which is said to have the advantage of being more central, and therefore a strong candidate for the county seat. It is 100, or near the contemplated Santa Fe road, and this consideration adds to its advantages. Its population, our informant says, is already more than thrice that of our Ashabuta colony. Its precedence seems to be acknowledged, and is drawing from its rival. Even Mr. Hill himself contemplates a removal thither, and the influence of other prominent friends of King City, we casually learn, are also disposed to favor McPherson. This state of affairs is not favorable for the growth and prosperity of King City, and goes very far to damp any extravagant hopes we might build up, of a rapid fortune from the village lot investment we were induced to make in that rising colony.

Perhaps due allowance should be made for the discomforts of a first winter in such an enterprise. Time and experience will probably enable our friends at King City to meet the demands of another winter, and to secure to themselves and families a larger share of the comforts of life. L. H. Roberts, we learn, is filling the office of Deputy Sheriff, with a good prospect of succeeding to that of Sheriff of the county. J. U. Fellows has a comfortable berth as assistant clerk in the Assembly of the State.

JANITOR WANTED, immediately for the Public Schools, apply to G. W. DICKINSON.

THE SPECIAL MEETINGS AND SERVICES OF THE CHURCH.

The special religious efforts for which our churches have for some time been preparing, commenced on last Sabbath evening. Rev. H. H. Wells preached in the Presbyterian church, to a large congregation as was probably ever gathered within its walls, or within those of any church in our place. The pews were packed to their utmost capacity, the gallery and aisles were full, while quite a number occupied the vestibule. Mr. Wells read the account of the raising of Lazarus, and preached on the words, "Take ye away the stone," on the nature and importance of the human agency in the salvation of men. The executive committee affected the attendance on Monday. About 150 assembled in the Congregational lecture room. The basis of discourse was the narrative of Elijah, and the prophecies of Malachi, especially Elijah's prayer and the answer from heaven. Quite a number took part, with brief prayers and remarks in the prayer meeting which followed. The subject on Monday evening was, Christ, the Rock smitten for us. The church services were followed by a meeting especially for the instruction of inquirers and prayers for those seeking Christ. It was a precious meeting, such as those present can never forget, recalling days of gladness in past years, and filling the hearts of Christians with new hope and earnestness. Some twenty rose together to ask for prayers, and the attendance was particularly bright. The prayer of Malachi, that they might find Jesus. A short portion followed each request.

The peculiar power of Mr. Wells appears most plainly in his meetings, and in the morning prayer meetings. Calmly and tenderly he speaks to the hearts of his hearers, without excitement in his manner or words, and one after another is persuaded to bear testimony for Christ, or to manifest interest for their souls.

The subject of the Tuesday morning meeting was, the importance of a pure heart and a constant spirit in God's service. The time after the discourse was devoted to confession on the part of Christians. The attendance at the evening session was large; the pews being full, and several tents being occupied in the aisles. The subject was the freedom which Christ gives. The chapel was crowded at the inquiry meeting, and several of the impatient asked for special prayers.

The subject of Tuesday morning was continued on Wednesday, and there was an evident increase of deep feeling on the part of God's people. The Pastor of the Congregational Church of Geneva was present. Persons from Connecticut attended the inquiry meeting of Tuesday. A request came from Andover for some earnest Christians to visit them and aid in the work. A social gathering in town kept quite a number from the Wednesday evening services; but the attendance was fully as large as on the night previous. The sermon was exceedingly pointed and heart-searching; declaring without reserve, the fearful danger of those out of Christ. The inquiry meeting having outgrown the Presbyterian Chapel, was held in the Congregational Lecture Room. It was largely attended, and the Spirit of the Lord was present in power. Nine persons arose to express the hope that they had found the Savior, and nearly thirty asked special prayers for their conversion.

The meeting of Thursday morning with which this report closes, was one of deep interest. The Lecture Room was crowded, and many voices, and we believe, more hearts, responded to the duty and privilege that was set before them, of renewed consecration to the work of Christ. We have been enjoying this week, the first drops of the shower; we are looking for the abundant rain. If the people of Christ are true in their consecration and faithful in their prayers, a great blessing is close at hand.

NOTICE FOR THE WEEK. Services will be held in the Presbyterian church, Mr. Wells preaching, each evening during next week, except Saturday. Morning services in the Congregational lecture room, unless the room should prove too small for the attendance, every morning except Monday.

Sermon to be preached on Sabbath evening, especially to Moravians. A similar sermon was greatly blessed in Norway, and was supposed to be the means of awakening many persons to their need of Christ. Additional accommodations have been provided, and comfortable seats will, if possible be furnished for all.

The Work is Not Over. The first fruits of the religious interest in Newburgh, were gathered into the Presbyterian church last Sabbath. Rev. E. Curtis, pastor of the church writes:

"The interest still continues here, and new cases of conversion have occurred there. Mr. Wells left yesterday a blessed day, never to be forgotten. Ninety-six have been examined and received. Of these, sixty-five were baptized in childhood. Upwards of fifty are over 21 years old. Our hearts were crowded all day yesterday. Prayers have been offered for you in all our meetings; that an abundant blessing may be poured upon you."

FOUNDED THE RAILROADS. - The farmers in Illinois have begun a counter movement against the railroad companies in that State, which may produce important results. The Illinois Legislature passed a law restricting railroads from charging more than three cents a mile for passenger, and also limiting and regulating freight charges. This has been virtually ignored by the railroad companies, and resulted in a great many law suits, the companies evidently hoping to wear out opposition by litigation. But the farmers are now resorting to the same game of legal tactics. At a recent farmer's convention at Bloomington, steps were taken to organize farmer's clubs throughout the State, for the protection of the agricultural interests. Farmers will refuse to pay more than the legal rate of three cents a mile, fare, and if put off the train, are to bring action immediately against the company. If the company refuses to carry of deliver goods at the legal rates, then farmers are to replevin, carry the goods home, and commence suit. The process was commenced at the convention, many delegates traveling free; as the conductors were disconcerted at this novel process, and were afraid to incur the responsibility of ejecting them. The results of this movement will be anticipated with general interest.

THE MAILS FROM THIS PLACE and along the line of the Jamestown road, made up for the Day Express on Wednesday failed of a connection through delivered in time. The failure arose, we are informed, from a neglect of those whose duty it is to receive the bags from the Bus Driver and deliver them to the postal car. The driver cannot go beyond the dead line, and when he puts the bags upon the platform, he has discharged his duty. If those who fill the gap between him and the postal clerk are two days to attend to their delivery, the result must be an stated, a failure to connect.

THE THIRD ESTATE OF THE DEBTORS OF THE CREDIT MOBILIER COMPANY.

The second term of the High School closed last Saturday, March 1st. This usual examination showed a marked improvement over the efficient supervision of Prof. F. H. Geer, assisted by Miss M. E. Hopkins as Preceptor. No. of scholars enrolled, 116. The average scholarship and deportment shows in the list of pupils the following above 95 - 10 being perfect.

Alma Wright, Edward Taylor, Laura Barrett, Minor Cook, Homer Branch, Albert Newton, Flora Whitman, Quincey Chapman, Nina Colby, Anna Parham, Wm. Baird, Elizabeth Colgrove, Fred Fenn, Carrie Case, Lydia Matarrillo.

The next term commences on Tuesday the 18th inst. Some new features are to be introduced more calculated for the developing and improving of teachers, among which is the introduction of a course of lectures having a bearing in that direction, and that from men of marked ability as educators, etc.

Donation Party. - Rev. Mr. Braddock of the "United Brethren," residing in Geneva, during the winter has preached in North Kingsville school house every two weeks, and without request to see, many have recently united together in giving him a donation; and accordingly on the evening of February 27th, a party for that purpose met at Lockwood's Hall, which resulted in some \$35 or \$40 in money being raised, as well as many substantial tokens of good will and cheer. The company present were well possessed of happy spirits, and with the enjoyment developed, all were more than satisfied. Mr. Lockwood very generously gave the use of the hall, well warranted and lighted, and sealed the contract with a \$25.00 dress for Mrs. Braddock.

Big sticks of timber. - Mr. Robert Steward, of our town, delights in big, heavy bridge building, or timber jobs, as many all over the county will attest. The last few weeks he has been engaged in getting out and hauling ship timber to depot and shipping, on contract to Buffalo, Erie, &c. Recently he has hauled one stick on wheels, and that with one team, a distance of four miles - that by measurement weighed 9,000 pounds of nearly 8 tons. Since that time he has on runners on several occasions hauled much larger sticks as well as boats.

Choral Union. - On Friday evening the 25th ult., the long talked of concert was given in the Baptist church, and the house was crowded to its utmost capacity with an appreciative audience. We hear on all sides one universal eulogy of praise by those whose good fortune it was to be present. The programme as arranged by the conductor Mr. A. B. Luce, was of that variety that presented something for all. The organization is perfected and on a good basis for future prosperity, and this concert is classed as only one in the series. Of this, more anon.

Ship sailing. - The Presbyterian Church and Society held their annual meeting on the 18th inst., for selling slips.

Sickness. - With the rest of the world we can boast of epidemic among the humans. Many here and there are heartily in sympathy with the equine race. It rather goes hard with some. Dr. E. M. Webster has been sick and pretty much confined to the house for the month past. What seems akin to Spinal Fever. At present he is recovering slowly.

INAUGURATION. - On Tuesday evening, March 4th a few of the friends and supporters of Pres. GRANT met at the house of Mr. O. H. MANN, in Plymouth, where there were 80 pleasantly entertained four years ago, to celebrate the inauguration. This being the second meeting of the kind which has been held there. The evening passed pleasantly enlivened by music, chorals, and friendly intercourse. During the evening a paper, commemorative of the occasion was signed by nearly all present. The party numbered about seventy. From the store of good things provided for the occasion, the ladies selected the accompanying cake, requesting that it might be presented to the Editor of the Telegraph.

May is spoken with a stately represent the party of the incoming administration. They are becoming aware of the approach of the morning of the company adjourned, resolving to meet again in four years to celebrate the inauguration of the next republican president.

The receipt of the loaf is duly and gratefully acknowledged, and we are glad to add to the other evidences of the good sense and good feeling, the hospitality and feeling of solid amity that prevail among our Plymouth friends. They have thoughtfully and intelligently, to recognize passing political events, and notch them upon their tally sticks, and in their fidelity and patriotism, gathering pleasure from the past and inspiration for the future.

SAVONOR, March 5th, 1873. A 100 acre farm, situated in the northwest part of the town of Saybrook, belonging to Nathan Morry, together with a quantity of stock and farming utensils, has been sold for \$6,000 to Mr. Amos Butler. A. W. Tinker, has sold a farm of 87 acres on the South Ridge, to Wm. B. Smith, for \$80,000. On the North Bend road, 35 acres belonging to John Whaley, has been sold to John Clark, for \$7,000.

CONFLAGRATION. - The Ohio State Industrial School for girls, at White Sulphur Springs, near Mills Run, Delaware, was destroyed by fire last Monday afternoon. At the time of the alarm, the girls, one hundred and fifty in number, were in the chapel, and were being addressed by the members of a committee of the Legislature, who were visiting the school. Owing to this circumstance, probably, no lives were lost. The wild conflagration of the scene can hardly be described. Much temporary suffering is inevitable. Loss to the State \$40,000.

TOT TULLER, of Geneva, killed two hogs, lately, that weighed 1200, and had dressed the remarkable weight of 1001, being only a shrike of 169 pounds in 1200. Tuller is a great frow for big hogs, big turkeys, and little buffaloes.

ILLINOIS RAILROAD WAR. - An aggressive policy of litigation has been begun by the Chicago, Alton & St. Louis Railroad against some of the persons who attempted to ride in its cars for the legal fare of three cents a mile. The suits are brought for trespass, and the damages are laid at \$10,000 in each. The passage money offered was taken, but none of the contestants were carried further than the established rates of the Company allowed. They were then ordered to leave the cars, but refused, and it is for the delay of the train, - which was detained on a side track three hours until assistance was afforded to eject the alleged trespassers. - That the suits are brought,

THE CHURCHY ANNUAL MEETING.

The annual meeting of the Ashabuta County Association will be held, by adjournment, at the residence of O. H. Fitch Esq., on Saturday evening of the present week, at 7 o'clock, for the election of officers, and for the consideration of other matters of importance to the Association, and the public. In the welfare and improvement of the county are our citizens, and especially those having left, have a deep interest. The place where friends and dear ones rest, and the place where the living are seen to lay their burdens down, cannot but be near our hearts. It would seem, then, that all should identify themselves with its meetings and movements, and take such part as their connection with the association will warrant and authorize. Every one holding a lot in the cemetery is a member, and authorized to vote in its meetings - a fact that has hardly been appreciated. It would seem, for from the organization of the association, we believe, its business management has been left to a few who had the foresight to bring it into shape and existence. Scarcely any one knew of, or attended its meetings, and there was little to be done but to elect those who had been identified with its interests and success. These interests have been managed with prudence, and the gentlemen who have had them in charge deserve well of their fellow citizens, for what has been done. What is needed, however, is a more general and lively attention to the matter. The want of this attention affords the reason for this 2nd effort to get a meeting by adjournment. It is this indifference, that has induced one, at least, of the directors, to request this notice, and it is to be hoped that all having lots, will be present on Saturday evening. Something should be done to open the new road, and give access to the grounds without, as now with funeral processions from the village, twice crossing the Jamestown road. A full meeting, and an interest shown in the election and in the questions of improvements demanded, will no doubt encourage the directors and lead them to feel that they are sustained and warranted in a little more vigorous and demonstrative policy. Let the meeting, then, be remembered.

SUICIDE. - DEATH OF O. C. PRATT. - A copy of the Omaha Republican, sent us by Mr. H. Bliss, brings the information, that on Saturday night the 1st inst. about 7 o'clock, O. C. Pratt, well known in this city, for two years past, committed suicide by taking morphine. He was boarding with his wife and child, and had been out of employment for several months; it was understood to be embarrassed financially, and in a fit of despondency, made way with himself. Mr. Pratt was a lawyer by profession; had been admitted to practice here about a year ago, and was about 35 years old at the time of his death. He came to Ashabuta about two years ago, and accepted the position of a city editor on the Times, and afterwards worked on the Dispatch in the same capacity. He had previously been employed on the Sioux City Times, St. Joe Herald, and had been on papers in Detroit, Cleveland and Chicago. He was a writer of considerable ability, and did good service on the papers he was connected with in this city, until dissatisfaction with his mood and destroyed his usefulness. He leaves a devoted wife and a bright little boy of tender age.

The circumstances attending the tragedy are brief. On Saturday afternoon he was seen on the streets as usual, and during the day visited an undertaker's establishment and inquired the price of coffins, and showing by his conversation that he meditated suicide. He took a very heavy dose of morphine a little while after supper, and in a short time was thrown into convulsions, and then came the "popped sleep which is the end of all." Drs. were called, and administered various remedies, but could not save him. He told what he had done and gave his reasons therefor, and soon after passed into that showy insensibility and died.

RISKO CITY, &c. - One of the representative and founders of King City, Mr. JOHN W. HILL, is on a visit to Ashabuta. None of the hardships and privations that have reached us about the experiences of some of those who changed their residences from this to that place seem to have affected him, as we gather from his personal appearance. He informs us that while there, at here and elsewhere, has been severe, the mercury running as low as 18 below zero, and for one or two days, it did not get above 5 below. Hearty erected and indifferently fastidiously tenements, were found not the best protection against such a temperature, where fuel is scarce and difficult to be had. That some suffering attend have been experienced, by some of the emigrants, is not a matter of surprise. But we learn that this was not the only cause of suffering. Labor is not abundant in a small community like that, numbering as Mr. HILL, says, some 40 or 50 inhabitants. The means of livelihood therefore, to those who depend upon their daily labor, becomes somewhat precarious. Some of the emigrants, have been obliged to dispense with the luxuries of life, and content down to absolute necessities. Cracked corn, in some instances, we are told, has been the necessity for keeping soul and body together. Mr. Milton Williams, son of our townman, B. R. Williams, we regret to hear has been overtaken by misfortune. A lurking spark from the fires kindled to burn off the dry grass about his premises, as a protection from the prairie fires, caught his stacks of provender and not only destroyed them, but a valuable team upon which much dependence was placed, and which it is difficult to replace. The young colony, it seems, has a rival in a colony which has sprung up in the same county, but about ten miles distant, named after the county - McPherson - which is said to have the advantage of being more central, and therefore a strong candidate for the county seat. It is 100, or near the contemplated Santa Fe road, and this consideration adds to its advantages. Its population, our informant says, is already more than thrice that of our Ashabuta colony. Its precedence seems to be acknowledged, and is drawing from its rival. Even Mr. Hill himself contemplates a removal thither, and the influence of other prominent friends of King City, we casually learn, are also disposed to favor McPherson. This state of affairs is not favorable for the growth and prosperity of King City, and goes very far to damp any extravagant hopes we might build up, of a rapid fortune from the village lot investment we were induced to make in that rising colony.

Perhaps due allowance should be made for the discomforts of a first winter in such an enterprise. Time and experience will probably enable our friends at King City to meet the demands of another winter, and to secure to themselves and families a larger share of the comforts of life. L. H. Roberts, we learn, is filling the office of Deputy Sheriff, with a good prospect of succeeding to that of Sheriff of the county. J. U. Fellows has a comfortable berth as assistant clerk in the Assembly of the State.

JANITOR WANTED, immediately for the Public Schools, apply to G. W. DICKINSON.

Sermon to be preached on Sabbath evening, especially to Moravians. A similar sermon was greatly blessed in Norway, and was supposed to be the means of awakening many persons to their need of Christ. Additional accommodations have been provided, and comfortable seats will, if possible be furnished for all.

The Work is Not Over. The first fruits of the religious interest in Newburgh, were gathered into the Presbyterian church last Sabbath. Rev. E. Curtis, pastor of the church writes:

"The interest still continues here, and new cases of conversion have occurred there. Mr. Wells left yesterday a blessed day, never to be forgotten. Ninety-six have been examined and received. Of these, sixty-five were baptized in childhood. Upwards of fifty are over 21 years old. Our hearts were crowded all day yesterday. Prayers have been offered for you in all our meetings; that an abundant blessing may be poured upon you."

FOUNDED THE RAILROADS. - The farmers in Illinois have begun a counter movement against the railroad companies in that State, which may produce important results. The Illinois Legislature passed a law restricting railroads from charging more than three cents a mile for passenger, and also limiting and regulating freight charges. This has been virtually ignored by the railroad companies, and resulted in a great many law suits, the companies evidently hoping to wear out opposition by litigation. But the farmers are now resorting to the same game of legal tactics. At a recent farmer's convention at Bloomington, steps were taken to organize farmer's clubs throughout the State, for the protection of the agricultural interests. Farmers will refuse to pay more than the legal rate of three cents a mile, fare, and if put off the train, are to bring action immediately against the company. If the company refuses to carry of deliver goods at the legal rates, then farmers are to replevin, carry the goods home, and commence suit. The process was commenced at the convention, many delegates traveling free; as the conductors were disconcerted at this novel process, and were afraid to incur the responsibility of ejecting them. The results of this movement will be anticipated with general interest.

THE MAILS FROM THIS PLACE and along the line of the Jamestown road, made up for the Day Express on Wednesday failed of a connection through delivered in time. The failure arose, we are informed, from a neglect of those whose duty it is to receive the bags from the Bus Driver and deliver them to the postal car. The driver cannot go beyond the dead line, and when he puts the bags upon the platform, he has discharged his duty. If those who fill the gap between him and the postal clerk are two days to attend to their delivery, the result must be an stated, a failure to connect.

THE THIRD ESTATE OF THE DEBTORS OF THE CREDIT MOBILIER COMPANY. The second term of the High School closed last Saturday, March 1st. This usual examination showed a marked improvement over the efficient supervision of Prof. F. H. Geer, assisted by Miss M. E. Hopkins as Preceptor. No. of scholars enrolled, 116. The average scholarship and deportment shows in the list of pupils the following above 95 - 10 being perfect.

Alma Wright, Edward Taylor, Laura Barrett, Minor Cook, Homer Branch, Albert Newton, Flora Whitman, Quincey Chapman, Nina Colby, Anna Parham, Wm. Baird, Elizabeth Colgrove, Fred Fenn, Carrie Case, Lydia Matarrillo.

The next term commences on Tuesday the 18th inst. Some new features are to be introduced more calculated for the developing and improving of teachers, among which is the introduction of a course of lectures having a bearing in that direction, and that from men of marked ability as educators, etc.

Donation Party. - Rev. Mr. Braddock of the "United Brethren," residing in Geneva, during the winter has preached in North Kingsville school house every two weeks, and without request to see, many have recently united together in giving him a donation; and accordingly on the evening of February 27th, a party for that purpose met at Lockwood's Hall, which resulted in some \$35 or \$40 in money being raised, as well as many substantial tokens of good will and cheer. The company present were well possessed of happy spirits, and with the enjoyment developed, all were more than satisfied. Mr. Lockwood very generously gave the use of the hall, well warranted and lighted, and sealed the contract with a \$25.00 dress for Mrs. Braddock.

Big sticks of timber. - Mr. Robert Steward, of our town, delights in big, heavy bridge building, or timber jobs, as many all over the county will attest. The last few weeks he has been engaged in getting out and hauling ship timber to depot and shipping, on contract to Buffalo, Erie, &c. Recently he has hauled one stick on wheels, and that with one team, a distance of four miles - that by measurement weighed 9,000 pounds of nearly 8 tons. Since that time he has on runners on several occasions hauled much larger sticks as well as boats.

Choral Union. - On Friday evening the 25th ult., the long talked of concert was given in the Baptist church, and the house was crowded to its utmost capacity with an appreciative audience. We hear on all sides one universal eulogy of praise by those whose good fortune it was to be present. The programme as arranged by the conductor Mr. A. B. Luce, was of that variety that presented something for all. The organization is perfected and on a good basis for future prosperity, and this concert is classed as only one in the series. Of this, more anon.

Ship sailing. - The Presbyterian Church and Society held their annual meeting on the 18th inst., for selling slips.

Sickness. - With the rest of the world we can boast of epidemic among the humans. Many here and there are heartily in sympathy with the equine race. It rather goes hard with some. Dr. E. M. Webster has been sick and pretty much confined to the house for the month past. What seems akin to Spinal Fever. At present he is recovering slowly.

INAUGURATION. - On Tuesday evening, March 4th a few of the friends and supporters of Pres. GRANT met at the house of Mr. O. H. MANN, in Plymouth, where there were 80 pleasantly entertained four years ago, to celebrate the inauguration. This being the second meeting of the kind which has been held there. The evening passed pleasantly enlivened by music, chorals, and friendly intercourse. During the evening a paper, commemorative of the occasion was signed by nearly all present. The party numbered about seventy. From the store of good things provided for the occasion, the ladies selected the accompanying cake, requesting that it might be presented to the Editor of the Telegraph.

May is spoken with a stately represent the party of the incoming administration. They are becoming aware of the approach of the morning of the company adjourned, resolving to meet again in four years to celebrate the inauguration of the next republican president.

The receipt of the loaf is duly and gratefully acknowledged, and we are glad to add to the other evidences of the good sense and good feeling, the hospitality and feeling of solid amity that prevail among our Plymouth friends. They have thoughtfully and intelligently, to recognize passing political events, and notch them upon their tally sticks, and in their fidelity and patriotism, gathering pleasure from the past and inspiration for the future.

SAVONOR, March 5th, 1873. A 100 acre farm, situated in the northwest part of the town of Saybrook, belonging to Nathan Morry, together with a quantity of stock and farming utensils, has been sold for \$6,000 to Mr. Amos Butler. A. W. Tinker, has sold a farm of 87 acres on the South Ridge, to Wm. B. Smith, for \$80,000. On the North Bend road, 35 acres belonging to John Whaley, has been sold to John Clark, for \$7,000.

CONFLAGRATION. - The Ohio State Industrial School for girls, at White Sulphur Springs, near Mills Run, Delaware, was destroyed by fire last Monday afternoon. At the time of the alarm, the
