

A waw and singularly successful remedy for the descriptions given each mouth, of the case of all Billions diseases - Continuous India A cure of all Bilious diseases — Costiveness, Indi-gestion, Jaundice, Dropsy, Rheumstism, Fevers, Gout, Humors, Nervausness, Irritability, Inflamma-Goot, Humors, Nervausness, Erritability, Inflammations, Hendache, Pains in the Breast, Side, Back,
and Limbs, Female Complaints, Sc., &c. Indocd,
very few are the diseases in which a Purgative Medicine is not more or less magnitud, and unset sickness and suffering might be prevented, if a harmless but offschool Cathartic were more freely used.
No person can feel well while a coxtive babit of
body prevails, besides it soon generates serious and
often fatal diseases, which might have been availed
by the timely and judicious use of a good purgative.
This is alike trac of Culds, Faverish symptoms, and
Billious derangements. They all tend to become or
produce the deep scated and formidable distempers
which load the heaves all over the land. Hence a
raliable family physic is of the first importance to
the public health, and this Pill has been perfected
with consumnate skill to meet that dersand. An
extensive trial of its virtues by Physiciaus, Profeswith consummate skill to meet that demand. An extensive trial of its victure by Physicians, Professors, and Paticots, has shown results surpassing any thing bitherto known of any medicine. Cures have been effected beyond helief, were they not substantiated by persons of such exalted position and chiracter as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, am

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but sydence even more convincing than

been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues the drugs themselves, but of the medicinal virtual only of Vegetable remedies, a extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for needleines has been found in the Cherry Pectoral and Pals both, to produce a more efficient remedy than had hitherto been obtained by any process.
