School Yards Get A Face Lifting

Continuing its long range program to improve school grounds, the Board of Education lists four school yards for special attention.

An enlarged playground for the girls at Rozelle Elementary School and added parking space at Chambers Elementary School were approved by the Board of Education Monday evening. N. F. Leist, assistant to the superintendent was authorized to proceed with both plans.

At Rozelle, the Board plans to add a hardtop play area on the east side of the building, 70 feet deep and the length of the school lot. New fences and transfer of shrubbery are also involved.

At Chambers School, the city has agreed to lease to the school board a plot of ground 60 by 196 feet, being the rear part of the lawn between Fire Station No. 2 and the school building. It will be hardtopped and spaced for 38 cars. The front part of the lawn, along Shaw ave. will be landscaped and maintained as lawn. Entrance to the parking lot will be from the driveway now between the two buildings. Exit will be by way of the driveway along side the fire station.

At Prospect School it is planned to erect a low retaining wall along the Euclid ave. frontage, extending it south along Shaw ave. to level off at the driveway. The sidewalk at a newly rounded corner will be widened four feet as a safety measure for the benefit of pupils who use the Shaw-Euclid bus stop. Ground within the enclosure will be raised for a better grade. Additional playground equipment is to be provided later. Estimated cost \$4000.

Last year the board had an extensive revamping job at Superior school, which included trenching the entire length of the school yard. A new yard has been made, some new plantings are in, and others are to be made, a project in which the entire school body is to participate.

Mr. Leist reports work progressing nicely on the revamping job at the Stadium.
