Mr. Will's New Plan.
As noted in the Register some time
ago, Mr. Will has been making
some experiments in the way of
combining the work of the brick clerks
into one job. He has now opened
his new plan of doing things and will
be tested in a short time. The
management of the work appears
to be under the control of Mr.
W. K. P. He will have his
workmen well trained and all
of the necessary materials will be
supplied from the stock of the
department.

Miss Daniels will take
charge of the work in Miss
Kline's Department.
