ON WAY TO PRISON BOY GETS FIRST TRAIN RIDE

Young Austrian Under Conviction for Murder Talks Over Phone, Travels on Trolley in Butte.

After traveling for his first time by train on his way here from Great Falls, Michael Petrovich, 17, of Sand Coulee, last night talked over a telephone for the first time in his life and rode on a trolley car also for the first time. Petrovich for the second and probably the last time for at least 10 more years, experienced the delights of traveling by train today, when he left here for Deer Lodge, where he began serving, a sentence of not less than 10 years nor more than 20 for murder.

Petrovich came here in custody of Sheriff Burns of Cascade county. When but 16 years of age, Petrovich was alleged to have killed a fellow Austrian at Sand Coulee. Soon after his arrest he practically admitted that he was guilty of the killing, but later threw the blame on his father. Numerous Cascade people have become interested in the ignorant young foreigner and are of the belief that, even if he did actually commit the murder, he acted as the tool of elder persons.

WOMEN DRIVERS WARNED ABOUT PIES AND JUDGE

Mrs. Haviland asserted that the fault for the crash rested with Grover Lessage, custodian of the pies.

\$5,000 DAMAGES IS ASKED FOR INJURIES

Phil Curran Seeks Pay for Injuries When Handcar Ran Down By Milwaukee Train in 1917.

The suit of Philip Curran against the Milwaukee railroad is being heard today in Judge Lamb's court. A jury was secured shortly after 11 o'clock and taking of evidence began.

Curran testified that on July 23, 1917, he and another section hand left Two Dot on a hand car to go to Selkirk. That upon an open, straight track where one could see for fully three miles in either direction they were overtaken by a Milwaukee train. He and his partner were very busy pumping the hand car, he alleges, and were both looking ahead so that they could not see the train approaching from behind. That the first knowledge of it came from the whistle, which sounded when the engine was only about 100 feet away, that both men jumped instantly from the hand car to the side of the track, but that the on-coming train hurled the handcar on top of Curran, knocking him unconscious. He said that he recovered consciousness sometime the next morning in Two Dot, and was from there taken to the hospital at Three Forks, where he lay for 14 days.

Curran further alleges that his head was badly hurt and that his chest and one knee were injured. Scars upon his head, plainly visible, became the subject of a dispute between the attorneys in the case, Fred Furmine, attorney for the Milwaukee, conceding one and a half inches to a scar, while Attorney Davis, attorney for Plaintiff Curran, maintained that three inches was a negligently estimate.

This being a question of fact, better determined by a carpenter's rule than by a ruling of the judge, the matter was put over for settlement until the afternoon session when the necessary instrument will be forthcoming.

In his complaint Curran asks for \$5,000 damages from the company for his suffering and injuries. The railroad company alleged in their reply contributory negligence upon the part of the plaintiff.
