FINANCIAL.

The banks were closed for regular busines yesterday, and Heathen-Chinee corner was and retorns Friday even ng in place of the deserted, but some of the banks held their James Hosard. The Gold Dust has abunregular semi-annual meeting. Among others, the Fourth national bad a meeting of its di-rectors, and declared a dividend of five per cent on the last six months business, pay-able on demand, and passed a surplus to the reserve fund; that bank declared a similar dividend on the last day of June. The Ger-man national also had a meeting of directors, when a dividend of ten per cent. was declared on the last six months business.

COTTON.

The cotton exchange was closed yesterday, and the absence of all telegrams left operator without information to do business on, even if they had been so inclined. Receipts amounted to 1130 bales, shipments 1492 bales, stock

GENERAL TRADE.

Most of the stores were open yesterday morning, but it was not easy to say why; the vere generally gone through, which was refreshing, as a matter of form, to those who do not like to omit their daily jog-trot along the old ruts. We heard of a sale of 50 sacks of wheatbran at \$15, and 200 sacks of combran at \$14 50; also, a car-load of mixed hay at \$13, a car-load of prime at \$14, and 92 bales of prime at \$14. Corn meal was held at \$2 30. Potetoes kept New Year's day, except that from store some drayad lots sold at frem \$1 25 to \$1 35. Then warm, damp weather has "played th leuce" among the barrels, and not only nome stock has suffered but a howl with of which shakes the firmness and deranges the transactions in an article that, up to thi-time, has "held its own" so strongly. There was some irregularity in eggs, but these who understood the market got what they wanted at 15@16c, and occasionally at 14c. Chick ens were rare and stood at \$3; turkey-brought \$15@24, and 15@16c a pound for dressed, which were scarce; a few dressed ducks brought \$4 a dozen, and some dressed Spareribs were doling out at 5c

Weather. The architects could not have cut out a ay's weather more appropriate for New ear's purposes than was yesterday, if we nay except the condition of the streets, fo which we are to blame and not the designer and executors of the weather contract. But we cannot hope for a very long continuance of the beautiful weather conditions masmuch as there's to be a new moon within the next rew hours, which may affect the tides and at-

mosphere to a stormy condition.
