"GEE—these are GREAT"

SEEMS like we've heard this remark dozens of times if we've heard it once, from the men who have been thronging in these last few days, picking out their Winners from the bountiful groupings of Overcoats—each one a Winner—and so many Winners that a fellow hardly knows which to choose in particular.

VENETIAN GLASS SUPER-VALUES in Winter OVERCOATS

\$28, \$33, \$38 & \$43 YOU will share our enthusiasm when you see and feel the fine fabrics—especially the soft warm heather mixtures in brown, gray, olive, tan and reddish tinges that our abridged dictionary fails to describe.

AND THINK of owning such splendid Overcoats for as little as \$28, \$33, \$38 and \$43. Here is "Back to Normalcy" with a punch. All a result of our Super-Value Policy—a policy that is Perry's exclusively, because stores of less volume cannot emulate it. These Super-Values in Overcoats SHOW THE DIFFERENCE. Come, see.

499 AND I

THERE are more things about business that can be accounted for on the pages of the bookkeeper's loose-leaf ledger. History is full of instances where trifles have had more weight than things that mattered. The stock comparison is that half an inch off Cleopatra's [or was it Helen's] nose would have changed the course of history.

And so in business. You may send out five hundred letters a day, and only a few of your correspondents be sensitive to the eloquence of a piece of fine writing paper, and only one of those few in a position to add to or detract from your prosperity by a real order.

But that one order would pay for Crane's Bond to send to the 499.
