WHEAT GAINED A FRACTION BUT WAS DULL

Liverpool Adjournment Made the Feeling Conservative as to Export Trade.

LOCAL CASH MARKET IS ACTIVE

Bradstreet Estimates a Visible Decrease of 2,222,000 Bu.—General News of the Markets.

Minneapolis Chamber of Commerce, Jan. 23.—Wheat dragged all morning. The market held quiet and steady around yesterday's close and showed slight variation up to noon. In Liverpool business was suspended. There was an early cable showing Liverpool nominally ¼d lower, but no trading, and an adjournment followed. Paris closed wheat ¼@½c lower, and flour 20@25c lower. Receipts at northwestern points were 263 cars, against 317 last year. The market was featureless and dull everywhere. Minneapolis had a satisfactory cash business, but demand in other markets was quiet, and with Liverpool closed there was no export inquiry worth noting. The probability of Liverpool suspending business for several days was additional ground for conservative feeling. Some long wheat came out through the early part, but the volume was light. Chicago showed sagging tendency without enough business to give decided trend either way. Midway in the session Chicago broke a little under a momentary unloading flurry, and Minneapolis dipped under 74c, selling at 73⅞c.

At noon the Bradstreet figures delayed from yesterday were given out, showing an estimated decrease of 2,222,000 bu. May sold to 74¼@74⅜c. Primary receipts were 552,000 bu, against 381,000 bu last year. Clearances wheat and flour, 316,000 bu. Minneapolis received 235 cars and Duluth 18, against 256 and 61 last year.

The market touched 74½c for May before the close, July selling to 75¼c. The close was firm and near high prices, May at 74⅜@74½c; July, 75⅛@75¼c; January, 73⅜c.

There was an excellent business in cash wheat, especially in the high grades. The receipts did not carry enough milling wheat to supply demand, and millers took several lots to come out of terminals. Milling inquiry ran to everything above ordinary No. 3, and these grades were well cleaned up. Prices were steady and on unchanged basis, with a trace of firmer feeling in the selections. Low grades moved better at prices practically the same as yesterday. No. 1 northern brought 73¼@73½c, No. 2 averaged 70c, thin No. 2 selling at 69½c, poor lots at 68c. No. 3 wheat had a range of 58@65c, smutty going at the low figures, sour wet No. 3 around 60c. Rejected sold well and no grade was in better demand at 52@57c.

Wheat Market Tends to Narrowness —Corn Opens Lower.

Chicago, Jan. 23.—The closing of the Liverpool and London markets because of the queen's death, tended to narrow the wheat market here. May opened unchanged at 74¼c to 74⅜c, touched 74c and rallied to 74⅝c. Northwest receipts were smaller, and some of the larger scalpers bought on the idea that good buying orders were on the market. Local receipts were 33 cars, 2 of contract grade. Minneapolis and Duluth reported 254 cars, against 222 last week, and 305 a year ago.

May later touched 74c, but shorts covered on the world's visible decrease of 2,200,000 bu, and a rally to 74⅜c followed, the close being steady, May ½c higher, at 74⅜@74⅜c.

Cash wheat, No. 2 red, 73¼@74½c; No. 3 red, 71¼@73c; No. 2 hard winter, 69¼@70¼c; No. 1 hard winter, 67¼@70¼c; No. 1 northern spring, 72⅛@74¼c; No. 2 northern spring, 71¼@74¼c; No. 3 spring, 65@72½c.

May corn opened a shade lower to unchanged, 38½c to 38⅛@38⅜c, and on selling by longs dropped to 38⅜c. The firmer tone in wheat caused a rally to 38⅝@38¾c. Receipts were 366 cars, none of contract grade. The close was firm, May at 38⅜@38⅝c.

Cash corn, No. 2, 37c; No. 3, 36½@36¾c. There was a fair trade in oats, but the market was a narrow one. May opened unchanged at 24⅞c to 25c, and ruled unchanged for some time. Receipts were 155 cars.

Cash oats, No. 2, 34@34½c; No. 3, 24c.

MARKET HOLDS UP

Trading Is Active and Distributed at the Opening.

REBOUND FOLLOWS A DECLINE

Market Becomes Reactionary on Realizing and Short Selling but Advance Is Resumed.

New York, Jan. 3.—Trading was active and well distributed at the opening and the majority of stocks showed fractional gains. The gains reached ½ in Baltimore & Ohio and 1¼ in St. Paul and about a point each in Federal Steel and Erie. Sugar rose 1½ but immediately lost all but a small fraction.

The market became hesitating and then yielded, Erie first preferred and Missouri Pacific losing a point each. Bidding up of special stocks caused a rebound in prices and the market became animated and strong. St. Paul held a conspicuous place in the advance with a gain of 2⅞ and gains were made by Tobacco, Lackawanna, Kansas & Texas preferred, Great Northern preferred and Brooklyn Transit of almost two points each. Good buying of the steel stocks lifted Smelting and Pressed Steel Car 1½ and 2¾ respectively. Some of the Pacifics and Sugar rose strongly and the general buying appeared confident.

The market became reactionary on realizing and short selling, encouraged by the sharp advances. Declines from the highest reached a point or more in some of the leading railroads and specialties. Exceptional strength in Pressed Steel Car caused an advance of 6¼ points to 42 in the common and 3⅜ in the preferred. The general market held above the opening prices, but Missouri Pacific and Wabash preferred were well below last night. Toward midday the advance was resumed, under the leadership of Southern Pacific, Missouri Pacific, the Atchisons, Erie and People's Gas, all of which touched the highest prices of the morning.

The market was severely shaken down in the final hour as a result of a general movement to take profits. Many of the stocks most prominent in the early strength fell below last night and all gains were reduced to small proportions. St. Paul reacted 3¾, Brooklyn Transit 3⅝, Sugar, Delaware & Hudson 3; Rubber preferred 2⅜, Pressed Steel Car 2⅛, Manhattan 2¼, Baltimore & Ohio, Metropolitan and People's Gas 2¼ and the majority of active stocks from 1 to 2 points. Federal Steel and Steel and Wire were marked up again to the high point or above and the market hardened all around to the extent of a point at the maximum. The closing was active and irregular and net changes were mixed.

Bonds were generally firm.
